Frequently Asked Questions

Completing the Online Application

Why can't I change my Student/Parent/School Information listed in the application? The Online Application system automatically pulls information from the AACPS student database based on your UserName. If this information is incorrect or incomplete, contact your school counselor. It will take 24 hours for a change to appear in the application.

Why do I need to provide sibling information? To help keep families together, each Charter and Contract school takes into consideration whether or not a student is applying with a sibling or if the student has a sibling currently attending the school. The Sibling Information page gathers this information to make sure you are correctly considered for the lottery.

I have a question about the sibling policy for Chesapeake Science Point, Monarch Academy, or Monarch Global Academy. What should I do?

Contact that school directly.

How will I know if I submitted my application successfully? You will receive a confirmation email within 24 hours. Your application status will also be listed as "Applied" in your application account. If you do not receive this email, please call the Charter/Contract school directly.

After I submitted my applications I reviewed my printed copy and saw that my "Lottery Option" said "No Lottery Option." What does this mean?

This simply indicates to the Application Tracking System that you are not applying with a sibling. You will still be included in the lottery for that school.

I've successfully submitted by application! What do I do now? Congratulations! You have completed the Charter/Contract School application process! The lottery will be conducted with the results of the lottery in February.
