

Dear Parents and Guardians:

I am pleased to tell you about an exciting new initiative that helps you, your child, and your school communicate pertinent school information. Through this new system, called “ParentCONNECTxp,” you will be able to receive academic data and manage your child’s personal information via a simple, user-friendly, and secure online vehicle.

ParentCONNECT facilitates an open dialogue between your child’s school and you, allowing you to be an active, informed participant in your child’s academic progress. This system, which is accessed online with a user name and confidential password, allows you to view:

- Student information, including basic demographics and emergency contacts
- Class assignments, including grades earned on coursework
- Grade reports, including course history
- School information, including announcements
- Automatic notification options, including updates of absences and missing assignments

Your child’s school is one of the first schools in the county to provide this service. Today you will receive the ParentCONNECT registration form and additional documents that will answer basic questions about the system and provide information about the actual registration process. Included in the package will be information about a registration night at your child’s school.

Anne Arundel County Public Schools values the input and involvement of our parents. We hope you will take advantage of this tremendous opportunity to become more involved in and aware of critical aspects of your child’s education. We appreciate your support as we continue to find ways to keep you informed.

Sincerely,

Kevin M. Maxwell, Ph.D.
Superintendent of Schools
