

# AACPS Project Update

Strategic Facility Utilization Master Plan

## Public Forums / Community Interviews

- The Forums took place on November 15th & 17th and drew over 130 people. The attendees came from a wide demographic including: parents of school-aged children, Citizen Advisory Committee members, principals from district schools, students from all grades and members of the business and military community. Those in attendance were then broken down into small groups to discuss their ideas and concerns regarding school facilities.
- MGT conducted interviews with a variety of community leaders who all expressed a desire for better utilization of the spaces available and were pleased that Anne Arundel County Public Schools has chosen to undertake a thorough examination of all its educational facilities.

## Suitability & Condition Assessments Completed

Despite the snow and ice storms, all assessments were completed and an analysis will be presented at the Steering Committee Meeting on January 23rd. For all who participated, thank you for your patience and co-operation with the scheduling and interviews.

January 18, 2006

*Schools like this one did receive a condition assessment*

## Reminder

If you or anyone you know were unable to attend the Public Forums in November, there will be additional Forums held in March. Be sure to check the February newsletter for information on dates, times and locations. We look forward to seeing you there!

## Upcoming Interviews, Meetings & Events

- January 11th: Presentation to the County Executive and members of the Administration
- January 17th: Presentation to the Chamber of Commerce Board
- January 17th-19th: Meetings with the Administrative Staff
- January 23rd: Steering Committee Meeting & presentation of the analysis of the
