

Are you still waiting...and waiting...for much needed services from DDA? Or are you waiting for adequate services from the educational system?

Then come out and tell your story!

All legislators, county council members and city aldermen and women have been invited. Particularly during these tough times, they need to know how dire your needs are.

The notification is later this year, because we were accommodating the special session of the legislature, to assure that they could attend. We very much hope you will attend!
