Stay Informed! AACPS offers several ways you can keep up-to-date on everything from programs and services to current AACPS news and events, and school closings.

AACPS Educational Television
Comcast—96/996 HD | Broadstripe—96/496 HD | Verizon—36/1961 HD
AACPS-TV offers original programming highlighting the students, employees, and programs of Anne Arundel County Public Schools, including:

AACPS Bulletin Board
Current and upcoming events, airing before the top of each hour.

AACPS Digest
News from and about AACPS.

ASP Café
Highlights the Advanced Studies and Programs offered to the students of Anne Arundel County Public Schools.

At Your Service—Support, Strive, Succeed
Student Services presents topics of importance to students and their families.

Athletes in Action
Highlights student athletes and coaches from the various high school sports programs.

AVID Achievers: Stories of Success
Students, educators, and volunteers of the AVID program in middle and high schools.

Behind the Scenes
Celebrating the AACPS employees who work hard each and every day to support our students and families behind the scenes.

Board of Education Meetings
Bi-monthly meetings are broadcast and streamed live, with rebroadcasts.

Board of Education Highlights
Monthly recognitions, plus the Educator, Employee, Volunteer of the Month presented at the Board of Education meetings.

Charla Educativa (Education Chat)
Events, school programs and community resources of importance to the Hispanic community. (In Spanish)

Environmental Literacy, AACPS
A series featuring outdoor experiences with environmental knowledge, skills and motivation to make and act upon responsible environmental decisions.

Food 4 Thought
Conversations about healthy lifestyles, communities of wellness and the school meals program in AACPS.

Global Perspectives
Exploring and celebrating cultural diversity and connections through conversations with community members about topics local and global.

Nuestra Comunidad (Our Community)
Information for Spanish-speaking viewers about current and upcoming school system and community events happening in the County. (In Spanish)

Open For Business
Highlights our community partners.

Plaza Educativa (Education Plaza)
A Spanish language program highlighting programs offered by AACPS to the Hispanic Community.

Schools in the Court
High school students spend a day in the District Court of Maryland to see cases and hear testimonies about the consequences of poor decision making.

Teen Talk
A show for students, by students featuring a student host.

The Next Level
AACPS senior athletes who play sports and are moving on to compete as a college athlete.

The Score
An in depth look at athletics in AACPS.

Then and Now
An award winning series features AACPS Alumni celebrating experiences as a student and how it has had a positive impact in their life.

Three to Thrive
Connecting to help our students thrive featuring engagement tips, partner spotlights, and academic access.

Special Events
Live or recorded events throughout the year.

Throughout the year, AACPS-TV adds new programming to match the interests of our community.
Visit www.aacps.org/cable for the most up-to-date schedule and list of shows.
The Board of Education of Anne Arundel County consists of seven elected adult members as well as one student member, elected by county students and appointed by the Governor, who serves a one-year term.

The Board typically meets twice a month during the school year. On the first Wednesday of the month, the Board will meet at 10:00 a.m. in an Open Session before proceeding into a Closed Session. The Board meeting will resume in an Open Session at 12:00 p.m. On the third Wednesday of the month, the Board will meet at 4:30 p.m. in an Open Session before proceeding into a Closed Session. The Board meeting will resume in an Open Session at 6:30 p.m. Changes in dates could alter this schedule. Special meetings, workshops, and public hearings are scheduled annually.

Exceptions to the meeting schedule for the 2023–2024 school year are: Thursday, October 5.

Board meetings and public hearings held at the Parham Building are broadcast live on AACPS-TV (Channel 96 on Comcast and Astound, Channel 36 on Verizon, and in HD on Comcast Channel 996, Astound Channel 496, and Verizon 1961). Board meetings are also streamed live online at www.aacps.org/youtube. Past broadcasts are available through the same link.

The Board will hear testimony from up to 10 total speakers (combination of virtual and in-person) per agenda item (excluding personnel items, reports, and recognitions) during a single public section in the early portion of the meeting. They will also hear testimony from up to 10 total speakers on items not on the agenda (excluding any student-specific or personnel items) near the end of the meeting. The link to register to testify before the Board will be posted on the Board page of the AACPS website at 3 p.m. on the Friday before the meeting. Those wishing to provide testimony must register through the link. Speakers may sign up for no more than two agenda items, but only once on any individual agenda item. All speakers will be allotted two minutes and may not allocate their time to others.

Written comments on agenda items can be submitted through an online form on the Board page of the AACPS website beginning at 3 p.m. on the Friday before the Board meeting. Written comments must be no more than 250 words and be submitted by noon the day before the Board meeting. Comments can also be dropped off at the Parham Building, located at 2644 Riva Road in Annapolis, by that time. For more information please visit the Board page at www.aacps.org/board.

Many of the topics in this handbook are covered by Board of Education policies and administrative regulations. Information regarding polices and administrative regulations cited in this handbook can be found on page 50. All Board policies and administrative regulations are available at www.aacps.org/boardpolicies.

Elections for Board President and Vice President are held each December.

For more information, contact Diane Howell, Executive Assistant to the Members of the Board of Education
410-222-5311
DHowell@aacps.org

Visit... www.aacps.org/board for a list of our current officers.
Before Your Child Goes to School

Enrollment & Residency Requirements [boe]
To enroll a new student, the biological parent or court-awarded guardian/custodian* must provide:

• the child’s evidence of birth.
• proof of residency. (Proof of residency includes mortgage papers/lease, and one additional supporting documentation such as a utility bill issued within 60 calendar days prior to enrollment.)
• a copy of the immunization record.
• proof of parents’/guardians’ identity (including driver’s license, passport, Motor Vehicle identification card, or other legal forms of identification).

A student may not attend school without proof of immunization compliance. A student enrolling in a school in Maryland for the first time must complete a physical within nine months after enrolling. A student transferring from another school system in Maryland must have the Maryland transfer form. A student enrolling from out-of-state should bring the most recent transcript and immunization record. Students enrolling for Pre-Kindergarten, kindergarten or 1st Grade must provide a completed Maryland Blood Lead Testing Certificate (Form 4620).

Students must attend the school designated to serve the attendance area of their bona fide residence. Exceptions to the placement of students according to attendance areas may be made as follows: with Board of Education approval, the Superintendent may transfer groups of students outside their normal attendance area to relieve overcrowding or to ensure an equitable distribution of students among available facilities, or the Division of Student Services may authorize an out-of-area placement of individual students whose circumstances or needs warrant it. If you have questions regarding out-of-area placements, please call 410-222-5322.

Homeless Students
The McKinney-Vento Homeless Education Assistance Act was incorporated into the No Child Left Behind Act. It ensures educational rights and protections for children and youth experiencing homelessness. The federal government’s legal definition of homelessness (based on the McKinney-Vento Homeless Education Assistance Act); includes anyone who lacks a regular, fixed, and adequate nighttime residence (substandard housing); is sharing housing due to loss of permanent housing or economic hardship; is living in a shelter, hotel or motel; is living in a public place not designated for sleeping (cars, parks); is an unaccompanied youth; is a child or youth awaiting foster care placement; is a child or youth abandoned in a hospital; or is a migrant child who qualifies under any of the above.

The McKinney-Vento Homeless Education Assistance Act requires districts to ensure homeless students have access to education and other services they need to meet the same high academic achievement standards as all students. All local school districts must designate a Homeless Liaison. The Homeless Liaisons must ensure that: homeless children and youth are identified; homeless students enroll in, and have full and equal opportunity to succeed in, the school districts; and that homeless families, children, and youth receive educational services.

Homeless students have the right to enroll in school immediately. Parents/guardians can request continued enrollment in the school attended prior to becoming homeless or at the local school for the current residence. For further information, please contact 410-518-9873.

International Students
All students entering grades 1 through 12 who are immigrating from another country and who have not attended another school in the United States, will go to the International Student and Family Welcome Center for their initial intake into AACPS. At the Welcome Center families will fill out all registration forms, have immunizations reviewed or be referred to health clinics, be advised of graduation requirements for high school students, and complete English language screening. Families need to bring their children’s birth certificate, immunization records, two proofs of address, and previous school records. Families should call the Welcome Center at 410-263-6420 for an appointment or for questions. For more information, visit www.aacps.org/iwc. If immigrating students are entering kindergarten or if they are transferring from another school system in the United States, they should enroll at their school. The English Language Acquisition (ELA) office will schedule language screenings for students.

Documentation of the results of a tuberculin test that was performed within 12 months in the U.S. or in a U.S. military facility is required for school entry for the following:

• All foreign born and exchange students from high tuberculosis (TB) incidence countries;
• Students who leave the U.S. and live 12 months or more in a high-incidence country.

Contact your healthcare provider or Anne Arundel County Department of Health at 410-222-7095.

* A caregiver who is not the biological parent or court-awarded guardian must seek approval to enroll through the Division of Student Services.
**Medical Conditions**

If your child has a chronic health condition, such as asthma, diabetes, or anaphylactic allergies you should notify the school health professional immediately so that proper procedures can be developed to assist your child. For more information call the school nurse.

If your child has been diagnosed with a concussion, it is important to notify school health staff. School health staff can work with your child and your child’s teachers to ensure proper supports while at school.

For additional information related to concussions visit the website below.

**When to Keep Your Child Home from School Because of an Illness:**

Parents/guardians should keep their child home from school because of a serious illness, injury, or a condition that can be passed on to other children. Although no comprehensive list is possible, the following conditions may be considered appropriate reasons to keep a student home from school.

Examples of serious illness or injury:

- Vomiting
- Temperature 100 °F or greater. Children with a fever (> 100 °F) must stay home until they are fever-free for 24 hours without fever-reducing medication.
- Abdominal pain
- Earache
- Head injury
- Adverse medication effect
- Suspected fracture
- Chest pain
- Severe pain
- Severe shortness of breath or wheezing

Examples of possible communicable conditions:

- Vomiting
- Loose stools/diarrhea
- Suspected communicable disease
- Nuisance condition not currently being treated, e.g., ringworm, scabies, head lice
- Red, draining eyes
- Persistent runny nose with yellow/green discharge, accompanied by fever
- Productive cough, accompanied by fever
- Undiagnosed rash

**Section 504 Rights**

The purpose of Section 504 of the Rehabilitation Act of 1973, as amended, is to ensure that:

“No otherwise qualified individual with a disability in the United States...shall, solely by reason of his or her disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.”

Anne Arundel County Public Schools implements procedures to ensure a free, appropriate public education (FAPE) for students with disabilities who are eligible under Section 504.

Parents/guardians of students with disabilities have the right to:

1. Have the school system advise you of your rights under Section 504.
2. Have your child with disabilities take part in, and receive benefits from, public education programs without discrimination because of the disability.
3. Receive all information in your native language or other primary mode of communication.
4. Have your child receive a free, appropriate public education.
5. Have your child be given an equal opportunity to participate in

**2023–2024 Immunization Requirements**

**Pre-K (up to 59 months)**

- 4 diphtheria-tetanus-pertussis (DTP, DT or DTaP)
- 3 polio
- 1 measles-mumps-rubella (MMR)
- 1 varicella (Chicken Pox)
- 3 Hepatitis B
- 2 PCV ages 12–23 months
- 1 PCV 24–59 months

(Prevnar-Pneumonia vaccine is required for all pre-school aged children.)

In addition, children 12–59 months old must have one dose of the Hib vaccine given after 12 months of age.

**Kindergarten—Grade 12**

- DTP, DTaP, or DT/Td
  
  - Up to age 7 years: 4 doses are required
  
  - Over age 7 years: 3 doses are required
- 7th–12th graders—1 Tdap (Tetanus, diphtheria, pertussis/whooping cough)
- 7th–12th graders—1 MCV4 (Meningococcal) (can only be given at age 11)
- 3 polio
- 2 measles, 2 mumps, 2 rubella (MMR)
- 3 Hepatitis B
- Varicella (Chicken Pox)

**Updated for the 2023–24 school year**

- K through Grade 9: 2 doses
- Grades 10–12: 1 or 2 doses
- Age 13 years or older: 2 doses if previously unvaccinated.

**Note:** All doses of measles, mumps, rubella (given as MMR vaccine) and varicella must be given on or after the first birthday.

For additional information on Immunizations, visit the Anne Arundel County Department of Health website below.

**Concussion:** www.aacps.org/athleticforms  |  **Immunizations:** www.aacps.org/immunizations  |  **Health Department:** www.aahealth.org
Getting Your Child to and From School

Anne Arundel County Public Schools provides transportation from designated bus stops for students who reside within the school’s attendance area. Transportation is dependent on your child’s grade level and the distance of your residence from the school. Transportation is provided for:

- Pre-K students who live in excess of one-half mile from the school they attend.
- Kindergarten students who live more than one-half mile from their school.
- Elementary students who live more than one mile from their school.
- Middle and high students who live more than one and one-half miles from their school.

Proper behavior by students at bus stops and on the school bus translates to safe transportation. Students who do not follow bus rules could lose their bus privileges. The bus driver is in charge of the bus and the students while they are on the bus.

Schedules & Services

Bus schedules are posted at the website below. After that, please contact your child’s school for information about bus schedules.

The Transportation Division is responsible for any concern involving the school bus, including the schedule, the driver, the attendant, the bus stop location, or the bus itself. Concerns should be reported by telephone to 410-923-7890. The Transportation Division will make every effort to resolve concerns as quickly as possible. Please avoid confrontations with the school bus operators at bus stops.

Student Supervision

Parents/guardians are responsible for the supervision and safety of their children receiving bus transportation from the time that children leave home in the morning until the time of boarding the school bus. The same rule applies at the time of discharge from the bus on the way home from school. The school administrator and bus personnel acquire supervisory responsibility while children are on the school bus.

School Bus Stop Safety

Millions of children in the United States ride safely to and from school on school buses each day. Although school buses are the safest way to get them to school, each year a number of school-age children die in school bus-related traffic crashes, according to the National Highway Traffic Safety Administration (NHTSA).

The biggest dangers are with students five to seven years old. Students are hit either by the school bus or by a passing vehicle when they are in the danger zone located around the school bus. Remember, it is illegal for a car to pass a bus with its red lights flashing.

Meeting the School Bus

There is no general provision to keep children on the school bus when parents/guardians fail or choose not to meet the school bus at the bus stop at the time of the afternoon discharge. This provision for discharge includes Pre-K and kindergarten students. If for some reason you are not able to be at the bus stop to greet your child, and you do not wish for your child to be discharged without adult supervision, contact a responsible

The most current information is available at the website below.
adult and arrange for this alternative person to be at the bus stop, or call the local school and ask that your youngster not be placed on the bus. If you request that your child stay at the school, you must make prompt arrangements for your child’s pick-up at the school.

Kindergarten, Pre-K, & ECI Identification Tags

At the start of the school year, each Pre-K, kindergarten, and ECI student will receive a Transportation Identification Tag. This name tag will identify the child’s name, bus number, parent’s/guardian’s name, bus stop, teacher’s name, address, school name, and contact numbers. Please be certain that this identification tag is placed on the outer clothing of your child each day—not on their backpack.

Conduct on School Buses

The slightest distraction to the driver may have significant student safety consequences. Appropriate student behavior on school buses is essential to the safe operation of the school bus. Riding the school bus is a privilege. This privilege may be temporarily denied or permanently revoked if misconduct jeopardizes the safe operation of the school bus or the safety of students riding the bus. School suspension is a possible sanction for bus misconduct.

Requests for Alternate Bus Transportation

When exceptions to bus transportation arrangements are needed, you must complete an Exceptional Transportation Request form five working days before the date the exceptional transportation is expected to begin. The principal may conditionally approve the request, but then must forward the request to the Transportation Division for final approval. Request forms are available in the school office.

Transportation arrangements of this nature are to be consistent for each day, morning and/or afternoon, Monday through Friday, for each school day, for the time requested. Requests for occasional, inconsistent days (i.e., every Tuesday and Thursday) or every other week will be denied. Emergency situations such as sudden illnesses or a death in the family that require exceptional transportation may be approved by the principal without five-day advance notice. Please note services are not available to areas beyond the school’s attendance area. Transportation for students residing outside the attendance area is the responsibility of the parents/guardians.

Requests for accommodations of differing schedules shall be subject to the recommendation of the Supervisor of Transportation and the approval of the Chief Operating Officer. Transportation will be approved on a first-come, first-served basis while space is available. If a bus becomes overcrowded, exceptional transportation request students will be removed to reduce loads. Transportation will be provided from an established bus stop location only.

Video Cameras & Audio Recording Devices

Many school buses are now equipped with video cameras and/or audio recording devices. These tools monitor the passenger area of the bus. As such, you could be subject to audio and video surveillance. The objective is to provide an important additional tool to assist the driver and administration in managing student conduct on school buses, an important safety consideration that benefits all.

Unauthorized Entry Onto a Bus

School buses are the proprietary use of Anne Arundel County Public Schools with the purpose of safely transporting students to and from school or school-sponsored activities. No one other than eligible students may board school buses without the consent of Anne Arundel County Public Schools or its authorized agent. Doing so may constitute a violation of Maryland Education Article, Sections 26–101, Disturbing activities at school or college, and 26–104, Obstruction, hindrance, or interference with school bus driver during official duties.

Safety Around the School Bus

Young children are most likely to be hit by the school bus because they:

- hurry to get on or off the bus.
- act before they think and have little experience with traffic.
- assume motorists will see them and will wait for them to cross.
- do not always stay within the bus driver’s sight.

If you have a concern about a bus stop, please talk with your child’s school principal or the school system’s Supervisor of Transportation.

Keeping Children Safe: www.safekids.org/safetytips/field_risks/school-bus-safety
Walking to School
Parents/guardians, together with the child, should develop a walking route to and from the school bus stop or school which minimizes the exposure of the child to traffic. Shortcuts through isolated fields and woods, or across streams or railroad tracks can often be dangerous. Entering abandoned houses or deserted buildings on the way to or from school bus stops or school should not be condoned. The route should be direct and uninterrupted.

Crossing Guards
The Anne Arundel County Police Department and the Annapolis City Police Department are responsible for the training, placement, and supervision of school crossing guards in their respective jurisdictions. All requests for school crossing guards are to be made in writing through a school’s PTA or Citizen Advisory Committee and forwarded to the Transportation Division for processing and evaluation by the appropriate police and traffic agencies.

Traffic Signs & Crosswalks
Local traffic agencies are responsible for school zone signs, pedestrian crosswalks, and traffic control signs. Requests for any of these items may be directed to the local agency or to the AACPS Transportation Division.

Tips to Keep Children Safe
• Children should leave home early enough to arrive at the designated school bus stop 10 minutes before the scheduled arrival time of the school bus. This enables the bus operator to account for students upon approaching the bus stop. Bus operators activate red flashing lights when the bus comes to a complete stop at the school bus stop. Motorists must stop for these lights. Tardy passengers cause motorists to become impatient, and some will ignore the lights. For this reason, bus operators are generally instructed not to wait for persistently late passengers.
• Walk with younger children to and from the school bus stop or make arrangements for another trusted adult such as another relative or neighbor to accompany the children. Supervise children to make sure they get to the stop on time, they wait a safe distance from the roadway, and they avoid rough play. Please respect private property.
• Teach your child to ask the driver for help if they drop something near the bus. If a child stoops to pick up something, the driver cannot see them. Storing items in a bookbag or backpack helps keep loose items together.
• Make sure clothing has no loose drawstrings and backpack straps are short so they do not get caught in the handrail or bus door. Although all drawstrings have a risk of snagging, those with buttons at the end of the drawstring are particularly dangerous. The NHTSA suggests that drawstrings be cut.
• Encourage safe school bus loading and unloading.
• Work with your child to develop a safe walking route to and from the school bus stop or school that is direct and uninterrupted.

Maryland Bus Laws
Maryland law prohibits a vehicle from overtaking or passing a stopped school bus that is operating its alternatively flashing lights. Legislation empowers local law enforcement agencies to collaborate with county boards of education to install and operate school bus monitoring cameras on school buses, to record images of vehicles overtaking or passing stopped school buses, and to impose civil penalties on vehicle owners. Under a Memorandum of Understanding between AACPS, Anne Arundel County Government, and the Anne Arundel County Police Department, BusPatrol America, LLC operates the School Bus Stop Arm Program on AACPS buses. All potential violations generated by BusPatrol are approved by the Anne Arundel County Police Department, and all decisions to issue a notice of violation are exclusively made by authorized law enforcement personnel. AACPS has no role in determining validity of potential violations or imposing notice of civil violations.
Get Involved with Your Child’s School

Involved parents/guardians have a direct impact on increased student achievement. We hope you will stay involved in your child’s education. Be a guest reader, speak about your job for Career Day at school, help with class events, chaperone a field trip, become a mentor, read the school newsletter, visit your child’s class during scheduled activities, and meet your child’s teachers.

Communicating With Your School

Your interest and involvement in your child’s education are key to academic success. Please call first to make an appointment with a teacher, school counselor, or administrator.

You are encouraged to attend the Back-to-School night at your child’s school; to attend scheduled conferences with teachers; to make appointments for conferences to review the educational progress of your child; to learn how to navigate Brightspace to monitor of your student’s progress in every class; to volunteer in your child’s school; and to join some of the many groups at the school, including the PTA or PTO, Citizen Advisory Committee (CAC), School Improvement Team, and Human Relations Committee.

Parents/guardians can also keep informed about school system news, events, and programs through Family Link and Curriculum & Instruction Family newsletters. The monthly Family Link newsletter and quarterly elementary level Curriculum & Instruction Family newsletters can be accessed through each school’s website.

We take pride in our work to build relationships with students, families, and partners. To help our students develop into caring, competent, and contributing citizens, every member of the AACPS family has a role to play in making meaningful contributions to student growth. Volunteers are an important part of the AACPS school community. By offering their time and talent, volunteers can enrich the education of our students, support our staff, and serve families in our community.

Family and community members, as well as local businesses, are welcome as volunteers in AACPS. Both short-term and full-year opportunities are available. Contact your school’s Volunteer Liaison to learn more about opportunities and become a volunteer.

As Anne Arundel County Public Schools is committed to providing safe and secure learning environments for all students and employees, successful completion of a background check is required before any person has access to students, either on or off school property. The Office of Investigations has continued to work closely with the Office of School Security to review AACPS protocols for conducting background checks.

Background investigations are divided into two categories: Commercial Background Checks and Fingerprint-Supported Background Checks. Anyone applying to be a chaperone or volunteer must be at least 18 years of age.

For details on Commercial Background Checks and Fingerprint-Supported Background Checks, including how to apply, go to www.aacps.org/chaperone.

Parent & Community Involvement

Parent and community involvement provide strong, positive forces in the academic success of students in Anne Arundel County Public Schools. Research has shown that students benefit when parents/guardians, schools, and community members work together collaboratively. As a parent/guardian, there are many ways to be involved in your child’s education. Here are a few:

Join your PTA/PTO, PIAC, CAC, SECAC, School Improvement Team, or Human Relations Committee. Contact your school for meeting times and dates.

Volunteer in your child’s school. You can be a guest reader, speak about your job for Career Day at school, help with class events, chaperone a field trip, become a mentor, and much more. Talk to your school’s Volunteer Liaison to find out about volunteer opportunities.

Communicate with your child’s teacher about your child’s progress. Use Brightspace for Parents/guardians to monitor your child’s daily progress, attend parent-teacher conferences, request a meeting when you have concerns, and attend Back-to-School night to learn about your child’s academic program. Support your child’s academic success at home by talking about the value of education, creating a place for your child to do homework and study, monitoring homework to be sure it is completed, getting extra homework help if needed, and limiting screen time.

Learn about what is happening in your school and in schools across the county by visiting your child’s school during American Education Week, reading the school newsletter, or visiting the AACPS website.

The Board of Education is committed to providing students with a safe and orderly learning environment that is free from bullying, cyberbullying, harassment, sexual harassment, intimidation, and bias behavior and language. Processes for handling these behaviors are clearly defined in the Board of Education Policies and Regulations of Anne Arundel County Public Schools JCC-Student Conduct, JCCA/JCCA-RA-Bullying, Cyberbullying, Harassment, and Intimidation, and JO/JO-RA-Bias Behavior and Language, and JP-Student Sexual Harassment and Misconduct and in the Anne Arundel County Public Schools Student Handbook.

The Board of Education of Anne Arundel County Public Schools delegates authority to the Superintendent to develop guidance and regulations for ensuring that all schools follow Section 7-424.1 of the Education Article of the Annotated Code of Maryland. The Superintendent shall designate the principal of each school to ensure that clear guidance and enforcement of rules related to bias behavior and language, bullying, cyberbullying, harassment, intimidation, and sexual harassment and misconduct occur at the local school level. To support these policies and regulations, reprisal or retaliation against individuals (targets, witnesses, or bystanders) who report acts of bias behavior and language, bullying, cyberbullying, harassment, intimidation, and sexual harassment and misconduct is prohibited.

Bias behavior and language, bullying, cyberbullying, harassment, intimidation, and sexual harassment and misconduct are unsafe behaviors that do not reflect the mission of AACPS and respect for others as defined by the Code of Student Conduct. If a student is a target of one of these behaviors, parents/guardians, close relatives, and students can report this using the Bullying, Harassment, or Intimidation Reporting Form, available on the website, in the back of this handbook. Students should also be encouraged to report directly to a staff member or administrator, in the school’s main office, or the school counseling office.

Bias Behavior & Language
A Guide for Parents of Students Who Have Been Victims of Bias Behavior and Language (sometimes referred to as prejudice or intolerance) is a brochure that defines and explains school system procedures and legal concerns as they are described in Board of Education of Anne Arundel County Policy and Regulation JO/JO-RA-Bias Behavior and Language. It also addresses common feelings and behaviors your child may experience, suggestions on ways to help your child overcome any changes in behavior, and information on how the district can help. We encourage you to share this brochure with your child and to contact members of the Student Services team (school administrator, school counselor, school psychologist, school social worker, pupil personnel worker, or school health staff person) at your child’s school for assistance. We care about the well-being of your child and stand ready to assist you and your family.
Bullying
Unwanted, demeaning behavior among students that involves a real or perceived power imbalance. To be considered bullying, the behavior must be intentional, repetitive, that includes an imbalance of power.

It is important to understand the difference between bullying behavior and normal peer conflict.

Bullying is not
- unkind words that occur once.
- rough play that is not intended to hurt.
- a physical attack that is not part of a pattern of behavior.
- behavior that may be inappropriate to someone else, but that the student to whom it is directed does not see as hurtful; for example, name-calling that all are participating in on an equal basis.

Cyberbullying
Cyberbullying is bullying that takes place over digital devices like cell phones, computers, and tablets. Cyberbullying can occur through texting, applications, or online via social media, forums, or gaming where people can view, participate in, or share content. Cyberbullying includes sending, posting, or sharing negative, harmful, false, or hurtful content about another student. It can include sharing personal or private information about someone else causing embarrassment or humiliation. (See also Bullying)

Harrassment
Harassment includes actual or perceived negative actions that offend, ridicule, or demean another individual with regard to race, color, ethnicity, national origin, marital status, sex, sexual orientation, gender identity, gender expression, religion, ancestry, physical attributes, socioeconomic status, homelessness, familial status, and physical or mental ability or disability.

Intimidation
Is any communication or action directed against another student that threatens or induces a sense of fear or inferiority. Retaliation may be considered a form of intimidation.

Sexual Harassment and Misconduct
Sexual harassment and misconduct include any unwelcome sexual advances, requests for sexual favors, other physical or verbal conduct, or any conduct of a sexual nature which substantially interferes with a student’s educational benefits, opportunities, or performance.

Title IX
The federal Title IX law prohibits sex, sexual orientation, and gender identity discrimination in AACPS. This includes sexual harassment and sexual assault. AACPS must respond to Title IX complaints in a certain manner to ensure that every complainant receives appropriate support. Respondents are treated as responsible only after receiving due process and fundamental fairness, and school officials serve impartially without bias for or against any party. Schools must offer free supportive measures to every alleged victim. Supportive measures are individualized services to restore or preserve equal access to education, protect student and employee safety, or deter sexual harassment. Supportive measures must be offered even if a complainant does not wish to initiate or participate in a grievance process. The law also respects complainants’ wishes and autonomy by giving them the clear choice to file a formal complaint, separate from the right to supportive measures.

Title IX also provides a fair and impartial grievance process for complainants and protects complainants from being coerced or threatened into participating in a grievance process. Complainants and respondents must have strong, clear procedural rights in a predictable, transparent grievance process designed to reach reliable outcomes.

AACPS Response to Title IX Final Rule
Any of the following conduct based on sex constitutes a Title IX violation: Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the school’s education program or activity.

Sexual assault, dating violence, domestic violence, or stalking. AACPS must respond when:
- the school has actual knowledge of sexual harassment;
- that occurred within the school’s education program or activity; and
- against a person in the United States.

AACPS must investigate every formal complaint, which may be filed by a complainant or by a school’s Title IX Coordinator. If the alleged conduct does not fall under Title IX, then a school may address the allegations under the school’s own code of conduct and provide supportive measures.

What You Can Do:
If you or someone you know is a target of one of these behaviors, you can report it using the Bullying, Harassment, and Intimidation Reporting Form, available in the back of this handbook, on the AACPS website at www.aacps.org, from the main office, or the school’s counseling office. You can also tell a staff member, who will respond quickly and provide a practical, private, and safe place to report.

- If you are being bullied, report early and often, tell a parent/guardian, a teacher, a counselor, or another staff member. Calmly tell the student to stop or say nothing and walk away and try not to show anger or fear.
- If you know someone who is being bullied, report early and often. If you feel safe, tell the bully to stop. If you don’t feel safe, say kind words to the student being bullied. Be a friend! Don’t encourage the bully by laughing or joining in. Tell other bystanders how to
help stop bullying. Tell an adult. Encourage the bullied student to talk to someone.

**Reporting an Incident**
When a student reports to a staff member that the student is the target of bias behavior and language, bullying, cyberbullying, harassment, intimidation, or sexual harassment and misconduct, the staff member will respond quickly and appropriately to investigate and intervene, making every effort to provide the student with a practical, safe, private, and age-appropriate way of reporting. Reports will be handled by the school administration in a timely manner and, if verified, will be followed up by support from student services personnel for both the target and the student engaging in these behaviors to ensure that all students feel safe and supported. The students involved will receive support from a school counselor, school psychologist, school social worker, pupil personnel worker, or school health staff person to be sure everyone involved feels safe and supported and understands how to avoid these situations in the future.

Parents/guardians, close relatives, and students can submit the **Bullying, Harassment, and Intimidation Reporting Form** electronically via the Anne Arundel County Schools website at www.aacps.org or by utilizing the form located on page 51 to report instances of these behaviors.

This form is also available in several locations in the school, including the main office and the professional school counseling office.

**Child Abuse & Neglect [BOE]**
All educators, other school system employees, and volunteers with Anne Arundel County Public Schools who have reason to believe that a child has been subjected to physical abuse, sexual abuse, mental abuse, grooming, human trafficking, or neglect are required by law to immediately report such suspicions to the Department of Social Services at 410-421-8400 or to the police.

All school system employees and volunteers receive training to recognize the signs of child abuse and neglect and what their responsibilities are under the law.

**Medical & Health Issues**

**The School Health Room**
Each school is assigned a School Health Professional, who is a Registered Nurse, and a Health Assistant, who is certified by the Maryland Board of Nursing as both a Certified Nursing Assistant and a Medication Technician and works under the supervision of the School Health Professional. The School Health Professional may be shared between or among two to three local schools.

If your child needs to use the health room, he or she will be assessed for illness or injury.

The care provided will be based on the **School Health Services First Aid Manual**.

- Most health room visits are minor and are handled with basic first aid and comfort measures.
- If the health room staff feel that the student is too ill to remain at school, the parent/guardian will be contacted to pick up the student.
- Health room staff will contact parents/guardians whenever students request that their parents/guardians be called due to a health concern. If emergency transportation is needed, 911 will be called, and the parents/guardians notified.
- The goal of the School Health Services team is to return students to class as soon as possible.

**Administering Medication**
To request that medication, prescription or over the counter, be administered to your child during the school day at school, you must complete a Parent’s Request to Administer Medication form at School, which includes several stipulations and a signed order from a physician. The term medication refers to both prescription and over-the-counter medication. Prescription medication must be brought in a pharmacy-labeled container; over-the-counter medication must be brought in the original, sealed container. Medication cannot be administered to students without this completed paperwork. For your child’s safety, all medications must be brought to school by an adult.

The Parent’s Request to Administer Medication form at School can be obtained from your school health professional or downloaded from the website below.

**EpiPens, etc.**
Stock auto-injectable epinephrine (EpiPen) has been and continues to be available in all Anne Arundel County Public School health suites for administration to students experiencing signs and symptoms of anaphylaxis while at school. Anaphylaxis is potentially life threatening and may occur as a result to insect stings, insect bites, foods, medications, and other allergens.

Stock EpiPens are not sent on field trips. Parents/guardians of students with prescribed auto-injectable epinephrine must continue to provide the prescribed auto-injectable epinephrine for use at school and school-sponsored activities.

Please contact your school nurse with any questions or concerns.
**School Security**

All visitors must enter through the main doors and report directly to the main office before going to any area of the school building or grounds. Visitors may be required to request building access via an audio/intercom phone, state the nature of the visit, and provide photo identification prior to being granted entry. Once in the main office, all visitors are required to present a government issued photo ID (driver’s license, passport, military ID, etc.) and be entered into our visitor accountability system.

If you are picking your child up early from school, you must complete the sign-out process in the main office. Only parents/guardians may pick a child up from school. In the event of an emergency or with prior written permission, those listed as emergency contacts may also pick a child up from school. School personnel will require photo identification from anyone who comes to school to pick up a child. Your cooperation will help us provide a safe and orderly environment for children and staff.

As required by law, public notice is posted for buildings equipped with any form of public video surveillance (i.e.: entrance cameras, hallway cameras, exterior cameras, parking lot cameras, etc.). Access to students or school buildings may be temporarily limited during security exercises or events.

**Suicidal Thoughts & Gestures**

If school employees become aware that your child has implied, stated, written about, or discussed (including through electronic communications) possible suicide or has made suicidal gestures, they will immediately report this information to the principal as well as a student services staff person, who will talk with your child immediately and assess the seriousness of the situation. You will be asked to discuss the course of action to be taken and may be asked to take your child to be seen by a mental health provider or the emergency room. You will be provided with resources for additional guidance and information to help you in seeking assistance.

**School Wellness & Health**

Anne Arundel County Public Schools and Anne Arundel County Department of Health collaborate on a unified approach to support the Centers for Disease Control model of School Health and Wellness. Together a systematic approach is designed to connect health (physical, emotional, and social) with learning. That connection improves children’s health and their capacity to learn through the support of families, communities, and the schools working together. Parents/guardians are in a unique position to influence the health of their children and they set the stage for healthy behaviors, provide reinforcement for such behavior, and serve as emotional support in the behavior change process.

The components of the Policy AE—Wellness with activities in AACPS, as well as suggested activities which can be done at home, are on page 15.

<tr>
<td>Caring for students with acute and chronic health conditions. Providing first aid, administering medications, and teaching and promoting health education</td>
<td>Attend routine well-visits with your child’s primary care physician. Contact the school nurse if your child has a health condition that could interfere with their education.</td>
<td>The undisputable evidence shows that the more active students are, the better they perform academically. Teachers integrate “Brain-Boost” activities into instruction and call upon kinesthetic learning opportunities to enhance student achievement. Students receive at least 30 minutes of physical education twice a week in elementary schools, at least 50 minutes in middle schools, and must graduate with one full credit from high school.</td>
<td>All new and replacement schools are constructed to meet LEED silver certification. The most notable features in our LEED schools are an increase in natural daylight, lighting controls, bike racks, and rainwater management. Recycling, pest management, and green cleaning assist with keeping a safe and comfortable learning environment. Natural outdoor instruction and recreation opportunities are provided at many of our schools.</td>
<td>Encourage your students to participate in the school meals program. Talk to them about the meal offerings at school and what they choose. Encourage your students to try new food items both at school and at home. Be a role model and encourage your child to eat a variety of foods. Plan a meal together. Discuss what a healthy meal looks like and the ingredients you will need to create the meal. Shop, prepare, and eat the meal together.</td>
<td>Classroom, small group, and individual instruction and/or counseling provide students with the attitudes, knowledge, and skills that support mental wellness and positive behaviors for school success.</td>
<td>Encouraging students in community service projects that encourage physical activity. AACPS offers family workshops in multiple topic areas which support student and family wellness.</td>
<td>Establishing partnerships with community members, businesses, and organizations to support healthy initiatives for students and staff within the school and outside of the school building.</td>
<td>School wide programming supports a positive school climate. Through the use of advisory lessons, community building circles, cultural events, and whole school initiatives, schools cultivate a safe and supportive learning environment for all students.</td>

Beginning the School Year

Student Information
It is important to keep the school up to date on information related to your child, including work, cell, and home telephone numbers, emergency contacts, and procedures for an unexpected early dismissal. If any of the information changes during the course of the school year, including those people with permission to pick your child up from school, please contact the school office immediately. School personnel will require photo identification from anyone who comes to school to pick up a child.

Emergency Card Verification Report
Contact one will receive an Emergency Card Verification Report via email containing the information we have on file for your child. Read the information carefully and make any necessary changes.

A section of the Emergency Card Verification Report is to inform parents/guardians about activities for which the school system needs permission. Generally, this section includes information about the Youth Tobacco and Risk Survey, Release of Information to Military Recruiters, Use of Social Media, and a Media Release. Detailed explanations of this section will be sent home along with the report. Specifically with regard to the media release section, during the school year, we receive many inquiries from various media outlets looking to do stories about our schools, students, employees, and programs. You can indicate whether you wish to allow your child to be interviewed, videotaped, or photographed for stories done by AACPS and outside media. Please note that this section includes the use of your child’s name including honor rolls, photograph, other likeness, interview comments, and student artwork to be published in locations utilized by AACPS, and other media outlets.

Additionally, the Emergency Card Verification Report asks parents/guardians how to dismiss their child in the event of an emergency.

Emergency School Closings, Early Dismissals, Late Openings & Special Operational Delays
Changes to school schedules caused by inclement weather or other emergency conditions are announced by voice, email, and text message through the Connect-ED automated telephone notification system; posted on the school system’s website (www.aacps.org), Facebook page (www.facebook.com/aacps), Twitter page (@AACountySchools), and Instagram page (aacountyschools); and broadcast on major area radio and television stations, including AACPS-TV (Channel 96/996 on Comcast; 96/496 on Broadstripe, and Channel 36/1961 on Verizon). Notices are also posted on the Twitter pages for all county schools.

Phone numbers and email addresses used by the Connect-ED system are pulled from the district’s student information system. It is critical to keep emergency contact numbers and email addresses up to date at your child’s school.

The “Schools Today” and “Important Message” pop up on the AACPS website, www.aacps.org, are also places where parents/guardians can find out about situations such as cancellations of after-school activities, bus delays, and single-school closures.

Communication avenues operated by AACPS, as listed above, are the most accurate sources of information regarding school operations.

Federal Parent/Pupil Survey
Every year at the end of September, the school system requests information on each student in order to apply for federal funds under the Impact Aid Law. While the results of the Parent/Pupil Survey forms provide approximately $2 million annually in revenues to the school system in support of the instructional program, we know that additional funds would be available if we had a higher student filing count. This would greatly enhance our school system’s quest to move from good to great. The Federal

School Closing Announcements
The school system’s website, Facebook, Twitter, Instagram pages, and AACPS-TV remain the best places to check for accurate, up-to-date information on school closings.

The permissibility of virtual instruction on inclement weather days means there are four realistic possibilities for alterations to the start of the school day.

Code Red—
All school offices and central offices are closed.

Schools closed, virtual recorded instruction—
School buildings will be closed but students must engage in virtual recorded instruction by 2 p.m. Students should access lessons through their Brightspace accounts. Except for certain Unit III personnel, employees will work remotely.

Schools closed, virtual real-time instruction—
School buildings will be closed but students must engage in virtual real-time instruction with their teachers. Students will receive a specific message from their schools with the schedule for the day. Except for certain Unit III personnel, employees will work remotely.

Schools open two hours late—
Students will engage in in-person instruction and school hours will be adjusted to begin two hours later than normal but end at their normal time. There will be no morning, half-day ECI programs.

No Announcement
School hours are not being adjusted.
Parent/Pupil Survey will be sent electronically to all families to complete and submit.

The U.S. Department of Education has requested that each survey form be signed and dated by the parent/guardian. Multiple children may be claimed on a single form.

Elementary Schools and Special Centers will distribute the Parent/Pupil forms to the students via email with instructions to have their parents/guardians complete and submit the survey to the school on the next school day. Secondary Schools, Home and hospital teaching, Non-Public, and Infant/Toddler programs will distribute the forms to all students with instructions to have their parents/guardians complete and return the survey by U.S. Mail to Anne Arundel County Public Schools in the self-addressed, stamped envelope provided.

School Meals

School Meals are offered to all students beginning August 28, 2023. Students are charged for meals according to the student’s meal eligibility. If you qualify for free or reduced-price meals, both school breakfast and lunch are free. Meal Benefit Applications are available beginning August 2023. Meal Benefit Applications do not carry over year to year. If you believe you qualify for free or reduced-price school meals complete a new meal benefit application. To complete a Meal Benefit Application for SY 2023-2024, visit https://aacps.org/nutrition/apply-for-free-reduced-price-meals/.

Food & Nutrition Services (FNS) supports a healthy lifestyle for all students in Anne Arundel County Public Schools. To assist with student academic achievement, FNS provides delicious, nutritious meals at affordable prices, in a safe, friendly, and attractive environment within a self-supporting operation. All schools offer breakfast and lunch daily.

Breakfast is usually served 15 minutes prior to the start of the school day. The time of lunch service varies at each school. School lunch is served between the hours of 10:00 am and 2:00 pm.

Additional site-specific programs and services may also be available which include after-school meals.

FNS provides students without lunch money a meal, charged to the students’ account. Repayment of this charged meal is due to the cafeteria. Phone calls to parents/guardians occur nightly until payment is received.

Breakfast and Lunch

The breakfast meal includes:
• a half pint of fat free or low-fat milk.
• 100% juice and/or fruit.
• one or two servings of whole grain rich foods such as a muffin, cereal, or a granola bar.
• one serving of a protein food such as yogurt or a cheese stick.

The lunch meal includes:
• a half pint of fat free or low-fat milk.
• multiple servings (up to two cups) of fruits and vegetables.
• one or more servings of whole grain rich foods.
• one serving of a protein food such as poultry, beef, cheese, or beans.

Pre-Pay for Meals at School or Online

For your convenience, FNS offers the option of pre-paying for breakfast and lunch. Pre-payments may be made directly to the school cafeteria or via the MyPaymentsPlus Online Pre-Payment System. At no cost, MyPaymentsPlus allows families to:
• create a free, secure account.
• check your child’s current account balance.
• monitor the food and beverage items your child purchases.
• create settings to receive email notifications when the account reaches a low balance.

For a small MyPaymentsPlus program fee per deposit, it also allows families to:
• make a prepayment into your student’s account using an electronic check, credit card, or debit card at www.MyPaymentsPlus.com or by calling 877-237-0946.
• create settings to automatically replenish your child’s account when it reaches a low balance.

Pre-paying is encouraged as it:
• increases speed of service to students, allowing more time to eat.
• eliminates the need for students to carry money to school every day.
• provides a record of all purchases.
• allows for deposits on a weekly, monthly, or yearly basis.

All prepaid account balances remain on the student’s account while the student is enrolled in Anne Arundel County Public Schools.

Money remains in the student account as they advance to a higher grade or transfer to a different school in Anne Arundel County. Refunds for withdrawing and graduating students will be completed at the school cafeteria upon request.

Balances that remain on account after withdrawal or graduation will be available for refunds up to one calendar year after withdrawal or graduation. After such time, all monies remaining on account will revert to AACPS in support of school breakfast and lunch programs.

Creating a MyPaymentsPlus account:

Visit the website below and follow the onscreen directions to register your child using their student ID number (available from your child’s school). Contact the MyPaymentsPlus support center at 877-237-0946 if you need additional assistance.

Free & Reduced-Price Meals

Anne Arundel County Public Schools offers meals to students at full-price, reduced-price, and at no cost, depending upon eligibility standards established by the federal government. Confidentiality is always protected as all students access their accounts with a six-digit student account number.
identification number.

If you believe your child qualifies for free or reduced-price meals, you are encouraged to complete a Meal Benefit Form to avoid any interruptions in meal benefits while new applications are being processed. Student eligibility is carried over temporarily from the previous school year until the new application is processed. You will be notified when the application is approved or denied.

All children are treated the same regardless of ability to pay. No child will be discriminated against because of race, sex, color, national origin, age, economic status, or disability.

How to Apply
You may apply for free and reduced-price meals any time during the school year.

Online: Go to the online application at the webpage below. Once the online application is submitted and validated, eligibility status will be sent home.

Paper Application: Request a paper application from your school. Return the completed application to your child’s schools for processing. Once validated, eligibility status letters will be sent home.

Student Accident Insurance
Anne Arundel County Public Schools does not purchase blanket accidental medical or dental insurance for sports, school-sponsored, or student activities while school is in session. However, AACPS has made arrangements with a private insurance carrier to offer accident coverage to all enrolled students at a modest premium. Through this program parents/guardians have the opportunity to purchase accident insurance protection for their child. The Student Accident Insurance information that the student in your household brings home at the beginning of the school year will provide more details about this insurance.

For further information contact the Insurance and Safety Management Office at 410-222-5223.

During the School Year

Attendance
To be successful, students must attend school regularly. Parents/guardians can encourage proper attendance by ensuring that their child:
- gets enough rest.
- eats a healthy breakfast.
- has adequate time to get to school.

All schools use an automated notification system that sends messages to families. Currently all children who turn five by September 1 must be enrolled in public or non-public kindergarten. If you believe that your child is not developmentally ready for kindergarten, you may write a letter to the Superintendent requesting a one-year waiver. The local school system must approve home instruction and be notified by parents/guardians of alternative kindergarten decisions.

There are lawful reasons for absence from school. Whenever your child is absent, you must provide a note of explanation to the school within three days of your child’s return to school. Absences due to illness in excess of five consecutive days require a physician’s note. School counselors and pupil personnel workers are available to assist families in situations where students are having difficulty with school attendance.

A student who is lawfully absent will be allowed to make up work within a reasonable number of days and will receive credit for that work. A student who is unlawfully absent will not be allowed to make up work. In certain cases, where extenuating circumstances exist, the principal may recommend awarding credit for those assignments.

If your child is going to be out of school for an extended time, you should call the school immediately to make plans for instruction. Students who are out of school for an extended time may be eligible to receive home and hospital teaching.

Lawful Causes of Absence
- Behavioral Health Needs
- Death in family
- Illness
- Religious holiday
- Court appearance
- Suspension
- State of emergency
- Hazardous weather conditions
- Work approved or sponsored by the school
- Lack of authorized transportation (excluding students suspended from bus for disciplinary reasons)
- A visit with a parent/guardian who is an active duty member of the uniformed services and has been called to duty for, is on leave from, or immediately returned from deployment to a combat zone or combat support posting
- Other emergencies or circumstances approved by the Superintendent
- Pregnant and parenting student needs

Home and Hospital Teaching
Home and hospital teaching services are provided to a student who is temporarily unable to attend school for certified medical or emotional reasons. Home and hospital teaching is a short-term, itinerant instructional service with specific guidelines. Home and hospital teaching is provided to a student who is convalescing or receiving treatment at home, in a therapeutic center, or in a hospital for four weeks or more. Requests must be submitted to the school counseling office.

Complaint Procedures [boe]
Each school will accept and consider reasonable individual and group complaints. A complaint is a claim that there has been a violation or
misapplication of a written provision of school policy, regulation, or law. If formal legal advice is deemed necessary by either party or if the case alleges a violation of law that may lead to litigation, the complaint will proceed immediately to the Superintendent. Please refer to Regulation JCH-RA-Student Complaints Related to Policy, Regulation or Law.

Informal Levels of Complaints
A student or parent/guardian with a complaint will first discuss the problem with the person who made the decision which is alleged to be an error.

If the student or parent/guardian is not satisfied or does not receive a decision within 10 school days, a conference should be arranged between the student and/or the parents/guardians and the principal or principal’s designee. The conference shall take place within 10 school days.

Neither the Board, nor any member of the administration or faculty, will make reprisals affecting any party by reason of participation in the complaint procedure.

Making a Formal Complaint
1. Put your complaint in writing. Before a problem can be solved, it must be expressed in words so that it can be understood.
2. If you feel you have exhausted all other avenues open to you without finding a satisfactory solution, file your written complaint with the school’s principal.

Formal Levels of Complaints
Level I
If the student or parent/guardian is not satisfied with the decision rendered at Level I, or if the decision is not rendered within 10 school days, the student or parent/guardian will file the complaint to the appropriate Regional Assistant Superintendent within 10 school days. Such complaints and appropriate records will be forwarded through the principal’s office. The appropriate Regional Assistant Superintendent will render a decision in writing within 10 school days.

Level III
If the student or parent/guardian is not satisfied with the decision rendered at Level II, or if no decision is rendered within 10 school days, the student or parent/guardian will file the complaint to the Associate Superintendent for School Performance. The Associate Superintendent for School Performance will, within 10 school days, render a written decision.

Level IV
If the student or parent/guardian is not satisfied with the decision rendered at Level III, or if no decision is rendered within 10 school days, the person will refer the complaint to the Superintendent within 10 school days. The Associate Superintendent of School Performance will forward all complaints and appropriate records to the Superintendent. The Superintendent will, within 10 school days, render a written decision.

Level V
If the student or parent/guardian is dissatisfied with the decision rendered at Level IV, or if no decision is rendered within 10 school days, the student or parent/guardian will file the complaint to the Board within 30 calendar days.

Fundraising
Fundraising projects by students or parents/guardians must be planned in advance and be approved by the principal. The decision of the principal will be based on three factors—the educational value for students, the benefits for students, and the safety of students. Funds raised for, donated to, or transferred to a school are the sole property of the school, subject to AACPS policies, regulations, and guidelines.

Home Communications
A policy adopted by the Board of Education limits the number of agencies and organizations from which material can be sent home with students. The policy allows only flyers and other material from Anne Arundel County Public Schools; federal, state, and local governments; PTAs, PTOs, etc., operating within AACPS; clubs directly affiliated with AACPS; and the Education Foundation of Anne Arundel County.
Material from other Anne Arundel County groups, such as for-profit businesses, recreation sports teams, dance schools, etc., may be displayed on a table, rack, or other suitable area designated by the school, but not sent home with students. Parents/guardians should note the materials placed in these areas are neither sponsored by, endorsed by, nor the result of any other affiliation with, AACPS. Materials that are defamatory, obscene, lewd, encourage criminal behavior, or are not age-appropriate will not be displayed in these areas. However, parents/guardians should be aware that court decisions interpret broadly the content acceptable to be displayed in these areas. That material, in some instances, may include religious material.

Pest Management

Integrated Pest Management (IPM) Program
Anne Arundel County Public Schools was the fourth school system in the country to achieve IPM STAR certification. The IPM Institute of North America, Inc. recognizes AACPS for its standout comprehensive school pest management program. Anne Arundel County Public Schools manages pests (animals, plants, or microorganisms) which may interfere with human use of the school site, cause loss or damage to school structures or property, or diminish the quality of life for students, staff, and others. To deal with most pest issues, the school system utilizes Integrated Pest Management. This program controls pests by stressing occupant education, zone monitoring and establish action thresholds, improved sanitation, structural controls and repairs, and universal notification to all parents/guardians, and staff. Chemical pesticides are used as a last resort in this effort and are selected by the least hazardous material capable of controlling the pest.

Licensed pesticide applicators are utilized whenever pesticides are applied. Applications made inside schools are scheduled when classrooms are vacant. Pesticides applied on school athletic grounds will be applied as field use schedules, weather, and wind conditions (<10 mph) permit. Other outside applications are scheduled when children are not in the immediate vicinity and when weather and wind conditions (<10 mph) permit.

Universal Written Notifications
AACPS goes beyond its legal mandate and will provide written universal notification to all parents/guardians of children and staff members in elementary schools, middle schools, and high schools whenever chemical pesticides are to be applied in school buildings or on school property. This information will be posted on a centrally located pesticide information board. Notifications will be in accordance with Maryland law and, except for emergencies, will include a minimum of 24 hours advance notice, and will include the location of the area(s) to be treated, date and time, the chemical name, and potential health effects. Please note that exterior applications must include an anticipated timeline rather than an exact date as wind and weather conditions must be factored into the application schedules. All treatment sites will be posted prior to applications.

A listing of the common chemical pesticides that might be applied in AACPS school buildings or on school grounds can be found at the webpage below. Those parents/guardians or staff members who do not have access to the internet, or email, and wish to receive the common chemical pesticide listing via non-electronic formats, may do so by contacting the Environmental Health and Safety Office at 443-770-5950.

Bait Stations
When bait stations are necessary, a sign or notice will be posted on the door of the room or at the primary entrance to the treatment area.

Notification Lists—Middle and High School Only
In conjunction with the described universal written notification procedures, Maryland law allows parents/guardians of children and staff in middle and high schools the opportunity to be placed on a separate pesticide application notification list. If you desire to be on this separate list, please check the appropriate box regarding pesticide notification on your child’s Emergency Card Verification Report and return it to your child’s school.

Copies of the Safety Data Sheet, labels for any pesticide being applied, pesticide application records, IPM inspection records and/or answers to specific questions regarding the Integrated Pest Management Program may be obtained by contacting the Facilities Division, Environmental Health and Safety Office at 9034 Fort Smallwood Road, Pasadena, MD, 21122 or by calling 443-770-5950.

Reducing Energy Use
Anne Arundel County Public Schools is continually working on energy reduction by upgrading building equipment, replacing lights with LED technology, maintaining existing equipment in good working order, as well as renovating existing schools with new equipment, or constructing new schools to exceed the latest energy efficiency codes. AACPS also actively participates in the BGE Smart Energy Savers program and has historically captured over $3.6 million dollars in rebates as part of these building upgrades and renovations and is pursuing $2.1 million more. AACPS has an agreement with Enel X, North America to review and analyze real-time energy usage in our 50 largest schools. Through this agreement we are able to provide feedback to the schools on their energy consumption and support energy competitions over the holiday breaks. Participating schools are ranked on their energy reduction during the current holiday break as compared to previous holiday breaks; the winners are recognized.

among elementary, middle and high school levels. Through this agreement we are also rewarded for reducing our electricity during times of peak grid stress where brownouts or blackouts may be imminent. This energy reduction is achieved by limiting HVAC loads as well as unnecessary lighting and miscellaneous plug loads in the schools. These actions help avoid higher energy costs, stabilize the regional power grid, and protect the environment. AACPS also participates in two solar power purchase agreements that support local renewable energy, regional air quality, and lower our cost of electricity.

For more information call the Facilities Energy Conservation Office at 443-770-5282.

**School Improvement Process**

All public schools in Maryland are striving to meet the Maryland College and Career Readiness Standards.

Each school in Anne Arundel County has a School Improvement Plan (SIP) that is developed and modified regularly by the School Improvement Team (SIT), consisting of teachers, administrators, other school staff, parents/guardians, and at the high school level, students. The SIP identifies school needs and lists specific efforts that will be undertaken to reach the AACPS goal to elevate all students and eliminate all gaps.

Each school will review the AACPS Strategic Plan, the components in the Maryland Every Student Succeeds Act (ESSA) and review their own school’s data to determine their own data story to clarify the focus of their individual SIP. For more information on your school’s SIP or the process used to create and implement it, please contact the principal.

**Social Media** [boe]

The Board of Education has approved two policies and two regulations regarding the use of social media by employees and students for instructional purposes in Anne Arundel County Public Schools.

The policies and regulations define a “social media site” as “any online or Internet based platform that allows interactive communication between persons or entities on social networks, blogs, websites, application software, Internet forums, and wikis.” Other sites, such as Edmodo and Schoolnetworks.com, are currently being utilized by AACPS.

Under the policies and regulations, parental acknowledgment and consent are required before any AACPS student can access social media sites for instructional purposes on school system devices. Students who do not have parental approval will be given alternate instructional activities during times when social media is being accessed by students on school system devices for instruction.

A list of approved sites for students to access will be reviewed at least annually, differentiated by school levels, and published on the AACPS website. The consent form is contained on the Emergency Card Verification Report.

Permission to grant access to social media through this format does not extend to student use of personal electronic devices.

If a student becomes a victim of inappropriate social media content that are not posted on AACPS-provided social media sites, parents/guardians are advised to contact the social media provider directly to have these posts removed and investigated, if warranted.

**Important Note:** The Emergency Card Verification Report contains two permission questions regarding social media. Permission for your child to access social media for instruction is independent of permission for your child to be interviewed, photographed, or videotaped for AACPS and other media ventures (which may include posting on social media). A parent/guardian can give permission for their child to be photographed without giving permission for that child to access social media in the classroom.

**Student Equity**

*The Office of Equity and Accelerated Student Achievement (OEASA)* provides multiple levels of support to empower offices, schools, families, and the AACPS community to achieve our collective goal—*Elevate All Students, Eliminate All Gaps.* OEASA promotes achievement for ALL students using an approach that supports schools in developing and maintaining a responsive, equitable school culture, and facilitates the implementation of engaging, culturally responsive and relevant, research-based, differentiated instruction. OEASA’s mission is to serve and support students, offices, schools, and families in a manner that is positive, purposeful, and proactive.

**Our Focus**

Elevate all students and eliminate all gaps by collaborating with appropriate AACPS offices; administrators and teachers to create an equitable school culture, developing and implementing research-base equitable practices and instruction; and supporting active family involvement.

**Our Objectives**

- Facilitate professional development for Equity Leads designed to offer concrete strategies to create a positive, equitable culture and improve the quality of instruction.
- Facilitate professional development to support both new and experienced administrators in building leadership capacity within themselves and their staff.
- Share resources and research-based best practices to all AACPS employees via professional development via the OEASA 365 site.
- Collaborate with partners to create additional opportunities to support school initiatives and increase parent/guardian involvement
- Generate awareness of county-wide and OEASA initiatives, facilitate discussion, provide resources, and recognize the efforts of schools via the OEASA Twitter account and other public venues.
**Student Records** [BOE]

As a parent/guardian of a minor, you have the right to review and inspect your child’s education records. If you wish to review your child’s education records, you should make an appointment with your child’s administrator or school counselor. If you have concerns about the content or accuracy of the education records, please contact your school principal. You may request copies of materials from the Student Records Office for a fee of $.25 per page. The first high school transcript shall be provided at a cost of $2.00 each when available through the high school counseling office.

**Release of Student Information**
The federal No Child Left Behind Act requires high schools to provide to military recruiters, upon request, access to names, addresses, and phone numbers of high school students unless it is requested that the information not be released to military recruiters using the form available. Similarly, Board policy also requires schools to release information to colleges or other higher education institutions upon request. If you do not want AACPS to disclose this information to either military recruiters or higher education institutions without your prior written consent, please complete the “Opt-Out Form” available at high schools or on the Emergency Card Verification Report.

**Access to Official Student Records**

Your rights under the Family Educational Rights and Privacy Act (FERPA) and state and local policies and regulations regarding access to, confidentiality, and release of these student records.

A student record is maintained in the student’s school or by school staff who provide services to the student. These records are confidential. Parents/guardians or eligible students have the right to consent to disclosure of any personally confidential information contained in them.

**Directory Information**

In accordance, with State and federal laws, directory information includes student’s:

- Name
- Address
- Schools attended

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school system as an administrator, supervisor, instructor, or support staff member (including health or medical and law enforcement unit personnel); a person serving on the Board of Education; a person or company with whom the school system has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent/guardian or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing their tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibility.

The complete student record will be sent, upon request, when a student transfers to another school, public or private. Schools are required to keep a list of every person obtaining information from a student record other than those specifically authorized in Anne Arundel County Public Schools. Questions regarding the types and locations of records maintained should be directed to the principal of the student’s school.

Parents (custodial or non-custodial), guardians, and other authorized representatives of the parent/guardian or student, or eligible students have the right to inspect and review the student record within 45 days of the day the school or school system receives a request. Parents/guardians or eligible students should submit a written request to the school principal or the principal’s designee identifying the record(s) they wish to inspect. The principal or designee will make arrangements for access and notify the parent/guardian or eligible student of the time and place where the records may be inspected. Parents/guardians may also request a copy of the student’s record. A predetermined per-copy cost and any necessary postage will be charged unless such a fee would preclude the parent/guardian from having access to the record. In the absence of a legal document stating otherwise, either parent/guardian of a student has the same rights as the other concerning access to the student’s records.

Parents/guardians or eligible students may also ask school officials to amend a record that they believe is inaccurate or misleading or in some other way violates the student’s rights or privacy. They should write to the school principal clearly identifying the part of the record they want changed and specify why it is inaccurate or misleading. If the record is not amended as requested by the parent/guardian or eligible student, the parent/guardian or eligible student will be notified of the decision and advised of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent/guardian or eligible student at that time.

**Directory Information**

Please note that each student record contains personally identifiable information about the student, including directory information.

Directory information may be disclosed without consent. In addition, AACPS is authorized to release student directories to certain entities, such as military recruiters or institutions of higher education.

However, parents/guardians of eligible students have the right to refuse to permit any or all of the above categories of information to be included as directory information in the student record. This request can be made within the Emergency Card Verification Report or in writing to
the school’s principal. To request the withholding of directory information, go to the website below, complete the form, and return it to the principal at your child’s school. If you do not have Internet access, a form can be obtained from your child’s school.

**Resolving Issues**
The school may attempt to resolve any other issue regarding records with an informal meeting. If a mutually agreeable solution is not reached, the parent/guardian or eligible student has the right to a formal hearing. A written request for such a hearing must be addressed to the principal. The hearing shall be held within 15 working days of the receipt of the written request. Parents/guardians may file complaints with the U.S. Department of Education, Family Education Rights and Privacy Office at 400 Maryland Avenue SW, Washington, DC (District of Columbia) 20202.

**For More Information**
Parents/guardians desiring more detailed information should refer to Regulation JH-RA-Student Records, which is available for review at the school or by visiting www.aacps.org. If you have any questions concerning this matter or wish to have this information translated into a primary language other than English, please contact the principal of the school in which your child is enrolled.

**Students & Technology [BOE]**

**Acceptable Internet Use**
Your child will have the opportunity to use the Anne Arundel County Public Schools’ network and devices, which includes access to the Internet. Using the Internet is permitted at all grade levels and in compliance with Administrative Regulation DI-RA. Consequences for inappropriate use of technologies or the internet are addressed in regulations JCC-RAA—Technology Use by Students and DI-RA—Technology Use and Security, and in the Code of Student Conduct (pp. 16–21 Technology Misuse) The Internet provides limitless instructional resources available for teacher and student use. Anne Arundel County Public Schools has implemented a content-filtering system to ensure that students access information consistent with the goals of our instructional program.

**Note:** While AACPS stays vigilant and uses blocking and restriction devices or services; however, the school system cannot guarantee comprehensive control of, or censor, illegal, defamatory, inaccurate, obscene, or potentially offensive materials that may be transmitted via the Internet or through the network.

Any attempt to bypass the content filtering system is a violation of Board Policy DI—Technology Use and Security and strictly forbidden. Your student is responsible for appropriate behavior while using the school’s computer network or using an AACPS device or AACPS account or application. Accessing the Internet in the school or at home requires appropriate adult supervision (i.e., staff members, parents/guardians or their approved adult designees, must be present to actively monitor student access to the Internet).

**Note:** While AACPS is committed to providing safe and quality instructional opportunities for all students. Students who have permission and are connected to the AACPS network shall be subject to the AACPS regulation regarding technology use by students. The student is responsible for appropriate behavior while using technology-related resources and may be disciplined for failure to act accordingly, consistent with the Student Handbook and Regulation JCC-RAA Technology Use by Students.

**Students will be:**
- Using computer devices and other technologies in the school to develop the following skills in a digital environment: defining, accessing, managing, evaluating, creating, communicating, critical thinking, and problem solving.
- Communicating with others using appropriate language in a courteous and respectful manner.
- Using only AACPS-approved tools and electronic or cloud-based resources (i.e., E-Learning, Microsoft Office 365, Microsoft Apps, Google Workplace for Education, Google Apps, Brightspace, Adobe Creative Cloud, etc.) in accordance with Board Policy DI—Technology Use and Security.
- Maintaining the privacy of their personally identifiable information such as name, address, phone number, account passwords, social security numbers, and respect the same privacy of others.
- Using only their assigned AACPS authorized account and password for school related activities and schoolwork. Do not use AACPS account for personal use.
- Using the provided school network account and devices in an ethical, responsible, and legal manner for school related tasks only.
- Complying with and respect copyright law, fair use guidelines, as well as intellectual property rights of others.
- Using personal technology assisted devices in schools, if approved for instructional purposes only (i.e., headphones, adaptive technologies for students with IEPs).
- Reporting a lost, damaged, or stolen device immediately to the principal/designee at your school.
- Using precautionary measures.
- No food or drink with or around the device; they must remain free of writing, drawings, stickers/labels; heavy objects should never be placed on top of the device.
- Device screens may be damaged if subjected to rough treatment, cleaning solvents, and liquid; do not store with screen open; make sure nothing is on keyboard before closing.
- Properly transport the device to prevent it from bending or torquing. Do not lift it by its screen or carry it with the screen open.
• Only clean screens with soft, dry microfiber cloth or anti-static cloth.
• Take appropriate steps to prevent theft, loss, damage (except for damage attributed to normal wear and tear as determined by AACPS), or misuse of the device.
• Be responsible for loss, theft, or damage to the device and power adapter. The cost of replacement or repair of this device is based on the current model used by AACPS and is determined at the time of incident.
• Returning all assigned technology devices to their enrolled school upon graduation or withdrawal from AACPS.

Students will not:
• Use any AACPS network account for non-school related activities.
• Conduct unauthorized copying or storage of licensed software, download, or copy files without permission or install personal software on computers.
• Remove or damage hardware, software, applications, or components.
• Attempt to override or bypass security restrictions on computer devices, networks, or Internet access.
• Knowingly access unauthorized technology-related hardware, application, and software to tamper with or destroy data.
• Create, access, or distribute offensive, obscene, bullying, or inflammatory materials on AACPS technology-related resources or tools (including hardware, software, approved mobile devices, applications, cloud drives, and websites).
• Connect non-AACPS approved personal computing devices such as laptops or mobile devices to the AACPS production network whether wired or wireless. However, students and staff may connect personal devices to the AACPS Hotspot guest wireless network.
• Use electronic or cloud-based resources for commercial, personal purchasing, or illegal purposes and in any other manner that would violate AACPS Board policies or state or federal laws or regulations.
• Share user account information or passwords with others.
• Loan or transfer ownership of assigned technology devices to others.
• Sell assigned technology devices, bags, or peripherals.

Consequences for violations are listed in the Student Handbook under the Technology Resource Use Regulations and are addressed in the Code of Student Conduct.
Academics

College & Career Readiness, Grading, Credit, Homework, Report Cards, etc.

Special Education

Anne Arundel County Public Schools is committed to ensuring all students with disabilities have access to appropriate services and educational opportunities to which they are entitled under federal and state laws, so they are prepared to succeed in college, career, and community life. The AACPS Department of Special Education supports this commitment adhering to our mission to prepare each child from birth through 21 to contribute to their communities in meaningful and positive ways, to provide specially designed instruction that allows for individual differences and learning styles, and to develop student independence.

Additionally, the vision for the Department of Special Education reflects that all staff are united in a common commitment and are accountable for ensuring that students are able to work independently and are college, career, and community ready. With high expectations for student achievement, all students who struggle will have environmental and instructional access to the general education curriculum.

This vision is the establishment of a dynamic and responsive learning community of general and special education for students with disabilities where:

- All educators are united in a common commitment and are accountable to ensuring that all students succeed;
- Access to general education curriculum and standards is prioritized with high expectations;
- Best practices and proven, researched-based strategies are incorporated in instruction and monitored for effectiveness; and
- All stakeholders are valued as partners in the decision-making process.

Decisions for how eligible students are to receive their special education and/or related services are made within the Individualized Education Plan (IEP) team process and are based on the services needed to implement a student's IEP. Services are provided in the least restrictive environment (LRE) in the home school to the maximum extent appropriate alongside students without disabilities. A continuum of services in the LRE is offered to students with disabilities.

For families of students attending an AACPS school, if you suspect that your child may be experiencing learning difficulties due to a disability, you may request a referral through the school principal.

For students attending a private/parochial school, if there is a concern or belief that a school-age child may have a disability, contact the Compliance Office Technician at 410-222-5479.

For more information, please call the Director of Special Education at 410-222-5410.

English Language Development

The English Language Development (ELD) program delivers asset-based linguistic and academic support to English learners in order to provide equitable access and opportunity to meaningfully participate in a comprehensive education grounded in the needs of the whole child.

ELD instructional services foster the development of academic language skills in listening, speaking, reading, and writing across the content areas. ELD teachers provide linguistically focused instruction aligned to grade-level content and standards, including the Language for Language Arts, Language for Science, Language for Mathematics, Language for Social Studies, and Language for Social and Instructional Purposes. Based on individual school needs, elementary ELD teachers may implement instructional models on a continuum from focused small group instruction to integrated language development within the grade-level classroom setting. Middle and high school English learners take specific ELD courses, and/or receive instruction with an ELD teacher within the content classroom setting.

Decisions about a student’s level of ELD instructional support are evaluated on an ongoing basis and are informed by data such as WIDA English language proficiency assessments, ELD teacher and counselor recommendations, progress toward grade-level academic standards, and high school credit accumulation.

Student Eligibility for English Language Development Instructional Services

The English Language Development program provides instruction to English learners (ELs) at all schools K–12. Upon registration in AACPS, a home language survey is completed by all enrolling families to determine potential eligibility for EL screening. Based on the English Language screening results, students may be identified for ELD instructional services. For more information, please contact the Office of English Language Development at 410-222-5416.

English Language Development Program Goals

- To encourage a system-wide asset-based approach to language which supports the development of linguistically diverse students as multilingual participants in global society.
- To build language proficiency among middle school English learners in order to foster the development of academic literacy,

Academics: www.aacps.org/academics
The International Student and Family Welcome Center (IWC)

The IWC is the first point of contact for international students entering Anne Arundel County Public Schools. Staff at the IWC welcome and can support international families through the registration process and obtaining information about community services and resources. The IWC team supports international students and families by:

- registering students for an AACPS school,
- administering screenings for English Language Development, and
- sharing information about community services and resources.

Which students should register at the IWC?

Students who are new to the United States, including those who have attended school in another country, should register at the IWC.

Which students should register at their home school?

- All new kindergarten students, including those whose home language is not English.
- All new students in Grades 1–12 who are transferring from another school system in the United States including those whose home language is not English.

How do students register at the IWC?

The registration process includes verification of documents such as birth records, proof of residency in Anne Arundel County, immunization records, proof of tuberculosis testing, and an evaluation of prior school transcripts. At the time of registration, students are screened for English language proficiency in order to determine eligibility for ELD services.

The IWC is located at 1411 Cedar Park Road, Annapolis, MD 21401. Please call 410-263-6420 or email IWC@aacps.org for an appointment. For more information visit aacps.org/iwc.

College & Career Readiness

The mission of Anne Arundel County Public Schools is to educate all of our students to be well-prepared for college and the workforce.

Grading — Overview [80E]

The Grading Regulation II-RA-Grading ensures consistency among schools and clearly defines how schools will work with students to increase academic achievement and mastery of content. Per Regulation II-RA-Grading, teachers will indicate the number of qualifying assignments (3) per marking period for which students may have an additional opportunity to improve their scores. The Grading Policy II-Grading indicates that teachers will provide the penalty for work submitted after the due date.

Expectations and Communication

At the beginning of a grade or course of study, secondary school teachers shall provide to students and make available to parents/guardians a written course outline, syllabus, or overview of grade/course expectations detailing the content, skills, and standards students are expected to master. It shall also include the grading processes to be applied consistently, including information regarding the weighting of various types of assignments and assessments and the consequences of work submitted after the due date; the frequency and types of assessments; the teacher’s availability for reteaching and reassessment; the types of assessments which do and do not qualify for reassessment; the procedures parents/guardians can use to contact the teacher for missed and late assignments; the process for obtaining make-up work; the means by which parents/guardians shall receive student progress and grades; and any additional information for parents/guardians and students. All course syllabi are to be approved by the school principal.

In addition, each secondary course syllabus shall include the following language: Per AACPS regulation, students may redo up to three assessments and/or assignments each quarter. Students are encouraged, but not required, to participate in teacher-led reteaching. All redo items must be completed within ten days of receiving the original grade and may only be redone one time. The higher of the two grades will be used for calculating the student’s quarter grade. The teacher may choose to have the student redo all of an assessment or assignment or may have student only redo specific items or parts of the work. Students may not redo homework, the quarterly/district assessment, or a large project. However, students may redo parts of a large project, if graded separately by the teacher, with each part counting as a separate redo. Assessments or assignments due during the last week of the quarter are not eligible.

Because parents/guardians are partners in the education of their children, communication between teachers and parents/guardians is vital to student success. Written notes, telephone conversations, email messages, the online parent portal, and face-to-face conferences are all excel-
Grades or codes are given to elementary students to document progress toward and mastery of skills, concepts, and standards. Guided practice, assigned before mastery is expected, shall not be graded.

Grades shall be weighted differently according to the nature and complexity of the assignment.

**Pre-K and Kindergarten**

Pre-K and kindergarten progress reports are used to report student progress to parents/guardians. When completing the Progress Report, a teacher shall use grade codes to indicate *consistently demonstrates, progressing, or needs development* for each skill, for each expected student behavior.

**Grade 1**

In Grade 1, all teachers shall keep a record of each student’s performance in each area of the report card. These entries shall be representative of the student’s performance over time rather than the student’s performance on a single task.

In Grade 1, report cards shall indicate *consistently demonstrates, progressing in the development of the skill, emerging in the development of the skill, or needs development for specific skills in Art, English Language Development, expected student behavior, Math, Music, Physical Education, Reading, Science, Social Studies, and Writing.*

**Grades 2–5**

For Grades 2, 3, 4, and 5, the teacher shall make an entry every five to eight school days as an assessment of the student’s performance for each indicator in Reading, Writing, Mathematics, Social Studies, and Science. Each entry shall be dated, and a notation of the activity observed, evaluation, and/or task shall be included in the record.

In Grades 2–5, report cards shall indicate student achievement by a letter grade for Reading, Writing, Math, Science and Social Studies. Each letter grade on the report card shall be based upon a compilation of the grades recorded during the marking period.

In Grade 2–5, report cards shall indicate *consistently demonstrates, progressing in the development of the skill, emerging in the development of the skill, or needs development for specific skills in Art, Chorus, English Language Development, expected student behaviors, Health, Instrumental Music, Music, and Physical Education.*

Each grading code on the report card shall be representative of a student’s performance over time rather than the student’s performance on a single task.

---

**Elementary School Grading**

**Grade Codes for Pre–Kindergarten & Kindergarten**

| CD—Consistently Demonstrates Skills Behaviors Independently |
| The student exhibits the skills independently with minimal teacher intervention. |

| PR—Progressing in Development of Skills/Behaviors with Teacher Guidance and Support |
| The student exhibits the skills with teacher guidance and support. |

| ND—Needs Development |
| The student exhibits the skills in isolated or rare instances, or with a great deal of support. The performance is inconsistent and below the normal range of expectancy for a student at that grade level. |

**Grade Codes for Grade 1**

| CD—Consistently Demonstrates Skill |
| (100%–87%) |

| PR—Progressing in the Development of the Skill |
| (86%–73%) |

| EM—Emerging (72%–60%) |
| The student exhibits the skill in isolated or rare instances, or with a great deal of support. The performance is inconsistent and below the normal range of expectancy for a student at that grade level. |

**Reading Level Codes for Grades 1–5**

3 — Above Grade Level
2 — On Grade Level
1 — Below Grade Level

**Letter Grades for Grades 2–5**

A letter grade for the marking period shall be established using the following scale:

A = 100%–90% (Excellent)
B = 89%–80% (Good)
C = 79%–70% (Average)
D = 69%–60% (Below Average)
E = Below 60% (Unsatisfactory)
Grading — Middle School

Grades are given to middle school students to document progress toward and mastery of course content, skills, and standards.

Teachers shall use points to evaluate individual assignments and assessments. The marking period grades, based upon the final percentage of points earned divided by possible points, shall be calculated to the tenths place, and then rounded to a whole number (.5 and higher rounds up), and shall appear on the report card.

Final middle school grades shall be determined by the duration of the course. Yearlong courses shall receive a final percentage grade determined by the average of the four marking period grades. The percentage and the letter grade shall appear on the report card as the final course grade. Single semester courses shall receive a final percentage grade determined by the average of the two marking period grades. The percentage and the letter grade shall appear on the report card as the final course grade.

Single marking period courses shall receive a final percentage grade equivalent to the percentage grade earned during that marking period. The percentage and the letter grade shall appear on the report card as the final course grade. In core subjects (English Language Arts, Social Studies, Science, Mathematics, and Level I or higher World Languages), students shall take a quarterly/district assessment. These assessments are aligned to course standards and are used to monitor student progress. Some of the quarterly assessments are traditional pencil and paper assessments, while others are projects or technology-enhanced assessments. For students in Grades 6 and 7 the score on the quarterly assessment counts as 5% of the quarter grade; for students in Grade 8 the score on the quarterly assessment counts as 10% of the quarter grade.

Assignments shall have a due date. Assignments that are submitted within 5 school days of the due date shall be counted as being submitted on time. Assignments that are submitted more than 6 school days after the due date shall receive a grade of at least 50%, and these assignments will not receive teacher feedback. All assignments must be submitted prior to the end of the marking period. Assignments that are not submitted shall receive a grade of zero.

Credit Classes

Maryland State Department of Education regulation determines the requirements for students earning high school credit for a course taken in middle school. The Code of Maryland Regulations (COMAR) 13A.03.02.04 states that credit toward high school graduation may be earned by middle school students if the student has taken a high school level course meeting the local school system curricular objectives.

As a result, middle school students in Anne Arundel County Public Schools must earn a final passing course grade in order to earn high school credit for Algebra 1, Geometry, Algebra 2, and Levels 1B, 1, and 2 of American Sign Language, Arabic, Chinese, French, German, Italian, Spanish, or Turkish taken while in middle school.

Additionally, according to AACPS Board Policy II and Regulation II-RA, Grading, credit will be awarded upon entering ninth grade. The grade for the course will be calculated in the student’s grade point average (GPA) in the same manner as other high school courses, including courses with weighted grades. Failure to pass the course will negatively impact a student’s high school GPA. If a student is struggling with the high school course and is not earning at least a grade of C, the student and parent/guardian are encouraged to meet with the principal’s or designee to discuss appropriate options.

Transfer Students

Students transferring from a public school, a Maryland Department of Education (MSDE) approved nonpublic school (Grades 6–12 or Grades K–12), or from an out-of-state nonpublic school (credits accepted by the state’s public high schools) will have their course history evaluated by content coordinators to determine if AACPS will acknowledge/accept the credit.

Students enrolling from an MSDE non-approved nonpublic school (church exempt) or a home school program (including online, correspondence, virtual, and distance learning high schools) will be awarded credits based on an evaluation of documentation (transcripts, report cards, curriculum content, etc.). A Transition Plan developed by the High School Transition Liaison may require that the student test for credit to determine course proficiency. Elective course credit will be determined through documentation without assessment. Courses for which credit has been assigned will receive a “Satisfactory” (S) grade without impact on the grade point average (GPA).

Please see the Home Instruction website for details (www.aacps.org/homeinstruction) or call the Home Instruction office at 410-222-5457.

Grading — Middle & High School

Teachers shall help prepare students for college and careers by providing opportunities for cooperative learning. However, teachers shall provide an individual grade for each student’s work when the student is performing in a cooperative setting.

Teachers will indicate 3 qualifying assessments, activities, or assignments that demonstrate knowledge of course content, skills, and standards per marking period for which students may have an additional opportunity to improve their scores. To qualify, students must have completed and submitted the original assessment, activity, or assessment by the due date. Teacher-facilitated reteaching is recommended (before, during, or after school). Within ten school days of receiving the returned
original graded work, students must complete and submit the new assessment, activity, or assignment. The higher grade shall be the grade of record. Work that may not be reassessed includes homework, quarterly assessments, multi-component research projects or written papers (components of the project or paper that are graded separately may be a qualifying assignment), assessments, activities, or assignments completed during the last week of the marking period.

Late Assignments
Assignments shall have a due date. Assignments that are submitted within 5 school days of the due date shall be counted as being submitted on time. Assignments that are submitted more than 6 school days after the due date shall receive a grade of at least 50%, and these assignments will not receive teacher feedback. All assignments must be submitted prior to the end of the marking period. Assignments that are not submitted shall receive a grade of zero.

If a teacher believes a student has stopped working during any grading period, the student’s record shall be thoroughly evaluated to determine whether a passing grade will be given. There must be thorough documentation, evidence of opportunity for parental input, and approval by the principal to override a numerical average.

Academic Dishonesty
A student who exhibits academic dishonesty, as determined by the teacher and administrator, shall receive a zero on the assessment or assignment in question. Violations of the Academic Integrity Policy and Regulation IN/IN-RA—Academic Integrity may result in disciplinary action. Consequences for violations may vary according to the severity of the violation and shall follow the progressive interventions and discipline as outlined in the Student Code of Conduct.

Middle & High School Grading
Calculating Grades Course and marking period grades are based on the following scale:

- 100% – 90% = A
- 89% – 80% = B
- 79% – 70% = C
- 69% – 60% = D
- Below 60% = E

Weighted Grading for Honors, Advanced Placement, Post AP, and International Baccalaureate Classes

<table>
<thead>
<tr>
<th>Unweighted</th>
<th>AP, Post-AP, IB</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>E</td>
<td>0</td>
</tr>
</tbody>
</table>

The additional quality point will be awarded to students in Advanced Placement (AP), Post AP, and International Baccalaureate courses who earn grades of A, B, or C.

Grading — High School
Marking period grades are based on the final percentage of points earned divided by possible points in each weighted gradebook category. Marking period grades shall be calculated to the tenths place and then rounded to a whole number (.5 and higher rounds up).

High school course final grades shall be determined by averaging two percentage grades. Each of the two marking period grades of a semester course shall equal 50%. Quarterly assessments shall count for 10% of each marking period’s grades.

The final grade for each semester in high school shall appear on the report card as both a percentage and a letter. Only final letter grades shall appear on student transcripts.

Some courses such as work-based learning, independent study, special inclusion classes, and alternative credit programs, etc., produce a grade of “S” (satisfactory) or “U” (unsatisfactory). The grade is recorded on the transcript as “S” or “U.” An “S” earns credit; a “U” does not. For calculation purposes when an “S” or “U” grade is used there are no quality points issued; therefore, there is no credit attempted factored into the GPA calculation.

Any course a student repeats for grade improvement or to build prerequisite skills and for which credit has been previously granted cannot receive credit again. The highest grade earned for a repeated course shall be calculated into the GPA.

Earning Credit
- Each high school credit-bearing course will have a quarterly assessment for each quarter. Quarterly assessments measure student progress towards mastery of course objectives and standards. Quarterly assessments, when not provided by the district, will be teacher-made and might be a pencil/paper assessment, a computer-based assessment, or a performance-based assessment, including projects or portfolios and actual performances. All quarterly assessment grades, regardless of the format, will be worth 10% of the student’s quarter grade.
- For graduating seniors enrolled in an Advanced Placement (AP) or International Baccalaureate (IB) course who take the corresponding AP or IB examination, will be exempt from the quarterly assessment for the fourth quarter. If a graduating senior who has taken the AP or IB course chooses not to take the quarterly assessment for quarter four, the student’s grade will be determined without a quarterly assessment grade.
- Students unable to take a quarterly assessment due to an emergency may, with the principal’s approval, be permitted to take a make-up exam.
Parents/guardians can, however, evaluate homework assignments. Teachers shall maintain precise records to document the grades earned for homework assignments. In elementary school, homework is reflected in the code given for expected student behaviors.

Middle school and high school courses differ in design and content. Homework shall be assigned and evaluated in Language Arts/English, Mathematics, Science, Social Studies, and World Languages courses. Homework grades shall count for 10% of the grade for the marking period. In all other middle school courses, homework shall be assigned at the teacher’s discretion.

Honor Roll [BOE]
The honor roll is published each marking period. Anne Arundel County Public Schools Honor Roll certificates are awarded to secondary students at the end of the marking period.

Time Guidelines for Homework

<table>
<thead>
<tr>
<th>Homework Level</th>
<th>Time Guidelines</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pre-Kindergarten–Kindergarten</td>
<td>20 minutes per night, two to three times per week</td>
</tr>
<tr>
<td>Grades 1–2</td>
<td>30 minutes per night, three to four times per week</td>
</tr>
<tr>
<td>Grades 3–5</td>
<td>45 minutes per night, three to four times per week</td>
</tr>
<tr>
<td>Grades 6–8</td>
<td>60 minutes per night, four to five times per week</td>
</tr>
<tr>
<td>Grades 9–12</td>
<td>90 minutes per night, four to five times per week</td>
</tr>
</tbody>
</table>

Advanced Courses
Courses identified as Honors, Advanced Placement, International Baccalaureate Diploma Programme, Post AP, and Advanced Programs of Choice may require additional time commitments. Expectations may include pre-course assignments which may count as a homework grade toward the marking period grade.

Homework [BOE]
Homework is an important and required component for student achievement. A teacher’s evaluation of and feedback regarding homework shall be reflected in the grade or the code given. Students are expected to dedicate focused time outside of school hours toward the completion of homework. Parents/guardians shall not be expected to play a “formal teaching role” in homework. Parents/guardians can, however, support this aspect of their children’s education by establishing regular times for homework completion and identifying specific places in the home where students can work with minimum distractions.

Teachers shall provide feedback for the homework assigned. Some homework assignments may be evaluated for completeness, while others may be evaluated for accuracy. Teachers shall maintain precise records to document the grades earned for homework assignments.

In elementary school, homework is reflected in the code given for expected student behaviors.

Middle school and high school courses differ in design and content. Homework shall be assigned and evaluated in Language Arts/English, Mathematics, Science, Social Studies, and World Languages courses. Homework grades shall count for 10% of the grade for the marking period. In all other middle school courses, homework shall be assigned at the teacher’s discretion.

PowerSchool Parent Portal
Anne Arundel County Public Schools offers an easy-to-use secure website that allows parent/guardian in Grades K–12 to engage in their child’s academic success. PowerSchool Parent Portal provides parents/guardians with a range of useful information. PowerSchool Parent Portal can be accessed from any computer with Internet access. Gradebook data is available in PowerSchool Parent Portal in real time as teachers enter in assignments and scores. Please be aware that the site may be down from time to time for maintenance.

Establishing an Account
Any person who has legal rights to view their child’s school records is eligible to receive a user account. Generally, parents/guardians have one household account; however, more than one parent/guardian can obtain a user account.
Parents/Guardians New to PowerSchool Parent Portal
Parents/guardians who do not have an account can request a letter from their child’s school with account creation information. Once you have this letter, you may create an account online.

Adding Additional Children to an Active Account
All your AACPS students can be added to your existing PowerSchool Parent Portal account. Only one account is needed. Once you have obtained the student credentials from each school, it is easy for you to link to all your students and view their grades online.

Using PowerSchool Parent Portal
Parents/guardians can access the Parent Guide to Using PowerSchool Parent Portal in English and Spanish from the AACPS website. The PowerSchool Parent Portal mobile app district code is LTDJ.

Parent/Teacher Conferences
November 20 & 21, 2023, May 23 & 24, 2024.

For parents/guardians, the conference provides an opportunity to:
• get to know your child’s teacher(s).
• learn about the school and curriculum.
• discuss your child’s strengths and weaknesses.
• work with the school in setting goals and plans.
• share with the teacher what the school can do to improve your child’s program.
• learn ways you can support your child.
• communicate your concerns to the school.

Report Cards
The report card is one method of communication between home and school regarding a student’s academic performance. Report cards are issued four times a year at the end of each marking period for students in grades 1–12. Pre-K and kindergarten progress reports are issued at the end of each semester. PowerSchool Parent Portal is the main source for reviewing your students’ progress and attendance for students in grades K–12. Report Card Distribution (Grades 1–12)
Report cards will be distributed on:
- November 10, 2023
- January 30, 2024
- April 18, 2024
- End of school year

Progress Report Distribution (Pre-K and Kindergarten)
- January 30, 2024
- End of school year

Weather-related closings may affect these dates. All report cards and progress reports will be emailed to contact one with an e-mail address on file at the end of each marking period.

Service Learning
The Maryland State Department of Education requires that students in public schools earn 75 hours of service learning as part of their graduation requirements. In Anne Arundel County Public Schools, students complete the requirements by participating in curriculum-based projects in fifth through eleventh grade.

The goal of the service learning requirement in our school system is to help students become an integral part of their community and to help them understand and appreciate the role of service for citizens in a democratic society.

Students who enter AACPS in fifth through eighth grade will not be held accountable for the service learning requirements that preceded their grade level entry. A student who enters in ninth through twelfth grade must have documentation for 40 hours of service learning from their previous school(s) or complete the balance for a total of 40 hours on a prorated scale:
• Grade 10: 30 hours
• Grade 11: 20 hours
• Grade 12 (1st semester): 10 hours
• Grade 12 (2nd semester): 5 hours

For more information about service learning, please refer to your child’s high school website or the AACPS Service Learning website, which can be found under the Academics tab.

The AACPS Virtual Academy
The AACPS Virtual Academy is a virtual-only learning solution for a limited number of students entering Grades 3–12. Virtual Academy students receive real-time, synchronous instruction 4.5–6.0 hours per day from AACPS educators and participate in AACPS curriculum and assessments as well as all in-person Maryland state assessments. Students are also provided with time during the school day for academic coaching and co-curricular clubs.

Interested students interested students with health, social, or emotional concerns, or unique family challenges must complete an annual application to be considered based upon seat availability, and if accepted, must commit to a full-year enrolment in the Virtual Academy. For important information, please see www.aacps.org/virtualacademy.

Alternative Education
Alternative Education programs in Anne Arundel County Public Schools offer high quality educational and social-emotional support services for students and their families. These unique programs will produce
academic, behavioral, and attendance gains for students who are not achieving success in the traditional school setting.

Alternative Education Programs offer educational options which are child-centered, family-driven, community-based, and culturally competent. We believe everyone deserves a safe, supportive, and orderly learning environment. We encourage appropriate behaviors by teaching, guiding, directing, and providing opportunities for new learning to occur. We create opportunities for students to practice and succeed in making responsible and effective choices to reach their academic potential and contribute to the school community.

AACPS operates on the simple philosophy that all students can learn. We believe that students learn in different ways through different means, and it is the schools’ responsibility to diagnose barriers and prescribe interventions which address those differences. For more information, please call the Director of Alternative Education at 410-222-5193.

**Charter/Contract Schools**

The Maryland Charter School Act of 2003 established an alternative means within the existing public school system to provide innovative learning opportunities and creative educational approaches to improve student achievement. Maryland’s law emphasizes a focus on innovation and student achievement and in so doing places a premium on the relationship between the school system and the public charter school operator.

Public Charter Schools are independent, tuition-free, publicly funded schools that are open to all students on a space available basis. If there are more applicants than seats available, a lottery is required by law. Charter schools follow the same laws, policies, and regulations as all public schools. However, charter schools provide families with additional educational choices so that parents/guardians can choose to send their child to a school that has an instructional approach that fits their child’s learning needs or academic interests.

Currently, AACPS authorizes three public charter schools—Chesapeake Science Point Public Charter Middle/High School, Chesapeake Science Point Public Charter Elementary School, and Monarch Academy Public Charter School—and two Public Contract Schools—Monarch Global Academy and Monarch Annapolis Academy Public Contract Schools.

**Chesapeake Science Point Public Charter Elementary School (Grades: K–5)**

Chesapeake Science Point Public Charter Elementary School, in partnership with students, parents/guardian, and the community, will attain educational excellence by providing a rigorous and quality education for elementary school students with a special focus on science, technology, engineering, and mathematics while specifically teaching students in the areas of coding, robotics, and virtual reality.

**Chesapeake Science Point Public Charter Middle/High School (Grades: 6–12)**

Chesapeake Science Point Public Charter Middle/High School, in partnership with students, parents/guardian, and the community, will attain educational excellence by providing a rigorous and quality education for middle and high school students with a special focus on science, technology, engineering, and mathematics while preparing them to excel in an increasingly technological and global society.

**Monarch Academy Public Charter School (Grades: K–8)**

Monarch Academy Public Charter School aims to educate its students to be self-motivated, creative, critical thinkers and lifelong learners who are productive contributors to the global community in the 21st century. At Monarch Academy, children are encouraged to think critically, question, reflect, and participate in a rigorous, highly interactive instructional program that integrates arts and technology across the curriculum.

Monarch Academy is a unique collaboration of two innovative, proven models for excellence: the Transformation Education (TranZed) child-serving organization model and the Expeditionary Learning model.

**Monarch Global Academy Public Charter School (Grades: K–8)**

The mission of Monarch Global Academy Public Charter School is to prepare students in Grades K–8 for world citizenship by harnessing a student’s natural curiosity, developing their critical thinking skills and capacity to utilize a cross discipline approach to creative problem solving; and developing self-discipline, awareness, and a commitment to service in an interconnected, dynamic, global economy. This will be accomplished through a unique collaboration of two proven models for excellence, the International Baccalaureate (IB) Primary Years Programme (PYP) at the elementary level and Project Based Learning (PBL) and Information Technology at the middle school level. Both programs will overlap with the Transformation Education child-serving organization model.
Monarch Annapolis Public Contract School (K–5)
Monarch Academy Annapolis blends Transformation Education with the International Baccalaureate Primary Years Programme. Monarch Academy Annapolis is guided by the belief that the school culture is integral to creating a sense of caring, commitment, and critical thinking in our students. Monarch Academy Annapolis utilizes these proven methods and tailors them to the uniqueness of the Annapolis community, one rich in diversity and cultural heritage.

Evening High School
Anne Arundel Evening High School is a high school instructional program which gives students who desire an alternative setting for completing high school the opportunity to do so. Students between the ages of 16 and 21 may transfer into Anne Arundel Evening High School to complete requirements for their high school diploma. Day school students can also take courses in Evening High School for original or remedial credit. There is a tuition/registration fee for enrolling in evening high school. For more information, see high school counselors or call the Evening High School office at 410-222-5384.

Secondary Summer School
The Secondary Summer School program offers middle school and high school students the opportunity to make up courses during the summer in which they were unsuccessful during the school year. There is a tuition fee for each course.

For more information see your school counselor or call the Secondary Summer School office at 410-222-5384.

Twilight School
Twilight School is offered after school at high schools in the spring for the remediation of fall courses in which first time 9th graders have been unsuccessful and for spring graduating seniors who may have a class to make up to meet graduation requirements. There is a tuition fee for each course. Twilight School is not offered at all high schools. Consult your school counselor regarding the availability of this program.

Mary Moss at J. Albert Adams Academy
Mary Moss at J. Albert Adams Academy is an innovative educational option for up to 160 students in Grades 6–9 (80 students in Grades 6–8 and 80 students in Grade 9) who are experiencing barriers to learning. Based on the values of compassion and personalization, creativity, collaboration, communication, student voice, and choice, critical thinking—and a grit and growth mindset—Mary Moss at J. Albert Adams Academy provides a dynamic and engaging learning environment with transformative teaching methods, and a Project Based Learning (PBL) curricular framework. AVID (Advancement Via Individual Determination) strategies are also incorporated into the program to ensure each student develops deeper learning competencies and the critical thinking and questioning skills required for success in college and beyond.

To ensure a safe and nurturing environment, students and families will also receive social and emotional services designed to support students to gain and practice skills needed to be a successful member of their school community.

At Mary Moss at J. Albert Adams Academy, we seek to find the key to every student’s passion, while unlocking opportunities aligned with their strengths and skills, empowering them to achieve and contribute to the greater good. For additional information call 410-222-1639.

Phoenix Academy
The Phoenix Academy is a K–12 special education public separate day school and a Grade 10–12 Alternative Education School. The Phoenix Academy provides a supportive environment designed to meet the needs of students who have experienced barriers to learning in the comprehensive school environment, while also ensuring a continuum of special education provisions.

The school’s mission and vision include building a sense of community and connecting with community partners to ensure that every student meets with academic success—no exceptions! While offering smaller class sizes and an increased level of academic and behavioral support, the Phoenix Academy offers a wide array of courses. This includes access to Honors and Career and Technology Education (CTE). The three in-house CTE completer programs at Phoenix include: Food and Beverage Management (Prostart), Print and Design, and Curriculum for Agriculture Science Education (CASE). For more information about the Phoenix Academy, please call the school at 410-222-1650.

Restorative Interventions and Supports for Elementary Students (RISE)
The RISE program is a therapeutic program designed for small groups of K–5 students who experience behavioral barriers to learning. The setting will provide a learning environment that puts trauma-informed and restorative practices at the forefront while also implementing diagnostic and evidenced based interventions aimed at preparing students for a successful experience in a comprehensive educational setting.
While attending Anne Arundel County Public Schools, your child will participate in state-mandated assessments, assessments required for high school graduation, and assessments related to advanced course work and college admissions.

Your child’s academic performance is based on more than assessment scores; however, assessment results are vital to monitor student progress and evaluate and improve instruction and curricula to ensure student success.

The Maryland Comprehensive Assessment Program (MCAP) covers state and federally mandated assessments in English Language Arts/Literacy (ELA), Mathematics, Science, Social Studies, English Language Proficiency, and Kindergarten Readiness. MCAP also includes Alternate Assessments for selected students.

A brief description follows for each state-mandated and national assessment. Schools will notify parents/guardians with specific testing information as each date approaches. Specific questions about any of the assessments can be directed to the School Testing Coordinator at your child’s school. (See link below)

### The Maryland Comprehensive Assessment Program

The ELA assessments are end-of-course exams given to students in Grades 3–8 and 10. For the ELA assessments, students will read literary and informational passages from published texts and engage with multi-media such as video or audio clips. Students will demonstrate their mastery of ELA standards through written responses and computer enhanced items. The ELA 10 assessment is a graduation requirement for all students enrolled in the course during the 2023–2024 school year. The assessment results are one component of a student’s College and Career Readiness determination.

The mathematics assessments are given in Grades 3–8, and once in high school. Middle school students taking high school credit bearing mathematics courses (Algebra 1) will take the test aligned with that course. The mathematics assessments require students to solve multi-step problems that require reasoning and address real-world situations. Students will demonstrate their ability to reason mathematically, make sense of quantities and their relationships in order to solve and show their understanding through real-world problems. The Algebra 1 assessment is a graduation requirement for all students enrolled in the course during the 2023–2024 school year. The assessment results are one component of a student’s College and Career Readiness determination.
component of a student’s College and Career Readiness determination.

**Science**
The Maryland Integrated Science Assessment (MISA) is aligned with the Next Generation Science Standards and will require students in Grades 5 and 8 to demonstrate their ability to ask questions and define problems, plan, carry out investigations, construct explanations and design solutions, and obtain, evaluate, and communicate information.

The Grade 5 MISA will address performance expectations identified in Grades 3, 4, and 5. The Grade 5 MISA will predict a student’s readiness for middle school science courses.

The Grade 8 MISA will address performance expectations identified in Grades 6, 7, and 8. The Grade 8 MISA will predict a student’s readiness for high school Science courses.

The Life Science (LS) MISA will be given at the end of the Biology course, typically in 9th or 10th grade. Students enrolled in Biology in the 2023–2024 must participate in the end of course assessment as a requirement for graduation. Each student’s score will be calculated as 20% of their final course grade. A passing grade in the course is required for graduation.

**Social Studies**
The 8th Grade Social Studies assessment is designed to measure student knowledge of United States History from 1763–1890.

US Government is an end-of-course exam that provides students with the opportunity to demonstrate mastery of the US Constitutional framework and democratic process that structures the state and national political system. Students enrolled in US Government in the 2023–2024 school year must participate in the end of course assessment as a requirement for graduation. Each student’s score will be calculated as 20% of their final course grade. A passing grade in the course is required for graduation.

**Kindergarten Readiness Assessment (KRA)**
KRA measures a child’s readiness for kindergarten. It may be used by your child’s kindergarten teacher to measure what your child knows and can do in the early learning areas of social foundations, language and literacy, mathematics, and physical well-being and motor development. (This assessment does not determine whether your child can be enrolled in kindergarten.) Kindergarten teachers will administer the KRA during the testing window established by the Maryland State Department of Education at the beginning of the school year.

**ACCESS for English Learners (ELLS)**
ACCESS for English Learners (ELLS) is the English Language Proficiency Test that is designed to determine a student’s proficiency in English when they are identified as an English Learner. The test is administered annually to EL students in Grades K–12. Students are assessed in four domains: speaking, reading, writing, and listening. Results are reported to parents/guardians annually.

**Alternate ELA and Mathematics (Alt-ELA/Math), and Alternate Maryland Integrated Science Assessments (Alt-MISA)**
Students with significant cognitive disabilities who meet eligibility criteria, as determined annually by the student’s IEP team, will take the Alternate ELA and Mathematics, and the Maryland Alternate Science Assessments. These assessments allow students to demonstrate their reading, math, and science abilities in a format best designed for students with special needs and skills.

**Alternate ACCESS for English Learners**
The Alternate ACCESS for ELLs assessment is designed for English Learners with significant cognitive disabilities who cannot meaningfully participate in the standard ACCESS for ELLs assessment, even with accommodations. In order to participate in the alternate assessment, the English Learner student must meet certain eligibility criteria. The Alternate ACCESS for ELLs assessment is available for the 1–2, 3–5, 6–8, and 9–12 grade clusters.

**Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT), SAT, ACT, & AP (Advanced Placement) Exams**
In addition to the state mandated assessments, high school students may opt to take several tests offered by the College Board and ACT. AACPS will administer the PSAT to all juniors in October of 2023. AACPS will also administer the SAT to all juniors in spring of 2024. Both the PSAT and SAT will be administered to juniors during the regular school day and will be free of charge for students.

The PSAT is typically taken prior to the SAT and designed to measure critical reading, mathematics, and writing. Students will demonstrate their ability to understand and analyze written material, solve mathematical problems, interpret data, reason quantitatively, and demonstrate their ability to recognize and conform to the conventions of standard written English. Students who take the PSAT in their third year of high school can qualify for scholarships through the PSAT/NMSQT program.

Many colleges use the SAT as one of several admissions requirements. It is normally taken by college-bound students in Grades 10, 11, or 12. The redesigned SAT measures a student’s ability to read, analyze, evaluate, and comprehend challenging texts, revise and edit extended texts for
expression of ideas, grammar, and punctuation, use and cite textual evidence as they read and write, demonstrate skill in analyzing data, and solve real world mathematical problems. The skills, knowledge, and understanding assessed on the SAT are used as a prediction of student success in college and workforce training programs.

The SAT Subject Tests indicate a student’s readiness to take college-level courses in specific subject areas. There are 20 SAT Subject tests in the areas of English, history, science, mathematics, and world languages. Some colleges use subject tests to place students into appropriate courses and as an additional data point when determining college admissions.

The ACT is an achievement test with four core sections (English, Math, Reading, Science) and an optional Writing section. See your school counselor for additional information.

Community Colleges, including Anne Arundel Community College (AACC), may use the ACCUPLACER to determine student placement in English and Mathematics courses, which students may take independently through AACC.

### Advanced Placement (AP) Exams

Students enrolled in AP courses are prepared to sit for the corresponding exams in May. Colleges and universities use the AP results to determine college preparedness, student motivation, and placement.

Students may have the opportunity to earn credit or advanced standing at many of the nation’s colleges and universities. High school students are urged to take the AP exams in specific subjects such as English, world languages, chemistry, biology, physics, economics, computer science, environmental sciences, statistics, and fine arts.

Except AP Studio Art, a portfolio assessment, each AP exam contains a free response section (either essay or problem solving) and a section of multiple-choice questions. The world language exams also have a speaking component, and the AP Music Theory Exam includes an optional sight singing task. Each AP Exam is given an overall score of 1, 2, 3, 4, or 5, with 5 indicating a student who is extremely well-qualified to receive college credit and/or advanced placement.

Check with the colleges and universities to which your child is applying for credits they may award. A fee is required to take each exam. Financial assistance may be offered based on student need. Check with the School Testing Coordinator at your child’s school for information on the exams and associated fees.

### International Baccalaureate (IB) Exams

The IB is an internationally recognized program of study that leads to university recognition and global certification for students. Students enrolled in IB courses take the corresponding exams in May. Colleges and universities recognize participation in IB classes and IB exams as an indicator of college preparedness and their potential for success. Students may have the opportunity to earn credit or advanced standing at many of the nation’s colleges and universities as well as universities across the world. Students can take IB courses and exams in a wide variety of content areas including English, world languages, social and lab sciences, history, mathematics, economics, computer science, environmental sciences, visual and performing arts, and media.

IB assessment procedures measure the extent to which students have mastered advanced academic skills such as analyzing and presenting information, evaluating and constructing arguments, and solving problems creatively. In addition to academic skills, IB assessment encourages an international outlook and intercultural skills, wherever appropriate. Student results are determined by performance against set international standards. IB exams vary in format and may include brief and extended response questions, structured problems, data and text response questions, case-study questions, and infrequently selected response. IB exams are offered at the Higher (HL) and Standard (SL) level and are scored on a scale of 1–7 with 4 or higher indicating a student who is extremely well-qualified to receive college credit and/or advanced placement.

Check with the colleges and universities to which your child is applying for credits they may award. A fee is required to take each exam. Financial assistance may be offered based on student need. Check with the School IB Program Coordinator at your child’s school for information on the exams and associated fees. IB courses are offered at Annapolis, Meade, and Old Mill high schools. Please visit www.aacps.org/ib to learn more about how your child can participate in IB coursework.
Advanced Studies & Programs (ASP)/
Programs of Choice

ASP’s Programs of Choice provide students with specialized curricular, instructional, and co-curricular activities that meet their specific intellectual interests and needs. Each program is designed to give students choice in their education and provide increased opportunities for students to engage in problem and project-based learning to solve real-world problems.

Primary Talent Development (Primary PTDs) & Advanced Learner Programs (Intermediate (ALPs))

The Primary Talent Development (PTDs) program offers Pre-K–2 students opportunities to explore learning challenges that tap into their creative and cognitive strengths. Advanced Learner Programs (ALPs) implemented in Grades 3 through 5 deliver highly challenging curriculum to gifted and talented (GT) and advanced learners daily while also ensuring all students have access to more advanced instructional opportunities. ALPs Single-Subject instruction is presented by a classroom teacher trained in using the advanced curriculum for a minimum of one hour daily. Through participation in ALPs Single Subject instruction in language arts/reading and/or mathematics, students identified as GT or Advanced learners experience learning at greater levels of depth and complexity.

Also, AACPS’s curriculum integrates learning extensions and explorations so that all students can engage in advanced learning strategies and more rigorous instructional activities.

Blended with grade-level standards, students explore complex materials, develop higher level thinking skills, and nurture untapped potential.

Middle School Advanced Learner Programs/DALI

The Differentiated Advanced Learning Initiative (DALI) and Middle School ALPs programs are designed to advance the quality of learning for all students while recognizing the unique academic needs of highly able, Advanced, and GT students. In mathematics, identified Advanced and GT students are enrolled in the Accelerated Math classes. The use of pre-assessments guide teachers in compacting these already accelerated math courses. Advanced and Gifted students then engage in the DALI Extended Learner Tasks, which are open-ended real-world applications aligned to class standards.

Middle school students identified as Advanced and Gifted in Reading are enrolled in the Advanced Language Arts courses. Through an ongoing collaboration between the Offices of Secondary Reading, English, and Language Arts, and Advanced Learner Programs, extensions and lessons are designed to with Advanced and Gifted students in mind. In grade 6, a newly revised Advanced Language Arts 6 course will be implemented during the 2023–2024 school year. This new course looks at various genres of literature across multiple time periods that center on the concepts of change and power while developing the student’s literary analysis, speaking, listening, and writing skills. In 7th and 8th grades, students refine their ability to analyze various texts, view real world problems from multiple perspectives, and utilize writing as a platform for initiating change. This is done through engagement in the DALI Extensions that are fully integrated into the Advanced Language Arts 7 and Advanced Language Arts 8 courses. These extensions provide more complex and challenging opportunities in reading materials or texts and writing assignments.

Advanced Placement Courses (AP)

Advanced Placement courses are demanding and challenging courses intended for students who demonstrate potential for college level work. The College Board sponsors the Advanced Placement Program. It also develops instructional guides and unit resources for use by our educators. AP exams are designed, administered, and evaluated by the College Board. Many universities and colleges grant advanced standing and/or college credit based on how well a student performs on the Advanced Placement test. Information regarding advanced placement courses and examinations is available from the counseling office in each high school. Students, however, are not required to take an Advanced Placement course to be eligible to sit for an Advanced Placement examination. It should be noted that a student’s report card grade for an Advanced Placement course is determined by the classroom teacher. It is not a reflection of the results of the Advanced Placement test.
AVID
Advancement via Individual Determination (AVID)
Advancement via Individual Determination (AVID) is an accelerated academic program that prepares students for a rigorous course of study which will enable them to meet the requirements of four-year university enrollment. AVID is an elective course offered to students in Grades 6–12. In order to participate in the AVID elective course, students must apply, interview, and be accepted into the AVID program. Students who are accepted into AVID commit to earning good grades, maintaining a rigorous course schedule, and excellent behavior and attendance. The AVID elective provides a strong relevant writing, and reading curriculum, study skills, assistance with organization and time management, and in-class tutorials to support rigorous coursework.

AVID Cord Requirements
To earn an AVID Cord at graduation, a student must:
- Take an AP/IB exam or earn verified college credit
- Take the SAT or ACT
- Submit AVID senior data on time
- Successfully participate in AVID for at least 3 high school years, including entire senior year
- Apply and be accepted into at least one 4-year college
- Maintain an unweighted GPA of at least 2.75

International Baccalaureate
Primary Years Programme (IB PYP)
The IB Primary Years Programme, for students ages 4 to 11 excites and engages students by building on their innate curiosity for the world around them! At the heart of the program’s philosophy is a commitment to the development of the whole child as an inquirer, both in the classroom and in the world outside. Our youngest IB learners engage in a second language, ask questions about and take action in the world around them, and learn

Advanced Co-Curricular Programs
The Advanced Co-Curricular Programs Office supports programs that provide an enriching complement to a student’s regular educational experience. These programs may be offered before school, during school, after school, on weekends, and/or during the summer. Some take place with face-to-face contact while others are online, requiring remote access.

Participation in these activities, contests, or competitions affords students additional opportunities to enrich their current program of studies. The number of co-curricular activities varies at each school location; however, system offerings are also facilitated annually. In addition, adjunct programs, or partnerships with organizations in the community, offer unparalleled resources for students.

Centers of Applied Technology (CAT)
The Centers of Applied Technology are dedicated to preparing students for high-skill, high-demand, and high-wage careers. The hands-on environment allows students to perfect technical and academic skills, while building an understanding of workplace expectations and professional work ethics. Students have an opportunity to earn Industry certifications, college credit, and/or apprenticeship steps.

High school students can attend one of the Centers as part of their regular daily schedule and earn credits required for their high school graduation. CAT offers an extension of comprehensive high school courses with an in-depth study of 25 technical programs.

Advanced Co-Curricular Activities & Adjunct Programs
Co-Curricular Programs
- 24 Game Competition
- Anne Arundel County Spelling Bee
- AVID Club
- BMHA Club
- Continental Math League
- Triple E Based Co-Curricular Clubs
- FIRST Robotics/Robotics Club
- VEX Robotics
- Humanities Approved Co-Curricular Clubs/Activities
- Integrated Fine Arts Clubs
- MESA (Mathematics, Engineering, Science Achievement)
- Mock Trial
- Model United Nations
- NASA BEST Aerospace Engineering Club
- National History Day
- On-Line Book Clubs
- SEAPerch Underwater Robotics
- Signature-Based Co-Curricular Clubs/Activities
- STEM Approved Co-Curricular Clubs/Activities
- World Language and Culture Clubs

Adjunct Programs
United States Naval Academy—STEM Outreach
- Advanced Studies Courses and Saturday Demonstration Physics Labs.

Anne Arundel Community College
- EXPLORE K–5
- Middle School Scholars
- High School Programs

Chesapeake Arts Center
- Art, Theater, & Dance Programs

Destination ImagiNation (DI)
- Non-Competitive Challenges
- STEM and Humanities Challenges

Maryland Hall for the Creative Arts
- Art, Theater, & Dance Programs

St. John’s College
- Seminars for Honors/AP English and Social Studies Students

to collaborate and communicate with their peers.

The following schools currently offer the IB Primary Years Programme as authorized IB World schools: Eastport, Germantown, Hebron-Harman, Jacobsville, Manor View, Monarch Academy Annapolis, Monarch Global Academy, Overlook, South Shore, Southgate, Sunset, Tracey’s, and Waugh Chapel Elementary Schools. IB PYP schools are community (not Magnet) schools.

### Middle School Magnet Programs

Online applications are required for Magnet Programs. See www.aacps.org/magnet for details.

### International Baccalaureate Middle Years Programme (IB MYP)

In the middle schools, the IB MYP offered at Annapolis, MacArthur, and Old Mill North is a three-year program designed to meet the educational requirements of students in Grades 6–8. Offering a teaching methodology that connects school subjects to the world outside of the classroom, it challenges students to consider their role in global and local communities and to take action based upon what they are learning. The IB MYP offers a balanced education where students engage in eight MYP subject groups each year: Language and Literature (English), Language Acquisition (World Language), Individuals & Societies (Social Studies), Mathematics, Sciences, The Arts, Design, and Health & Physical Education.

### Apex Arts (Formerly PVA)

The Apex Arts middle school program is offered at Bates and Brooklyn Park middle schools for students interested in reaching their maximum artistic and academic potential through advanced coursework in all disciplines and arts-intensive performance extension opportunities. Students can choose to study in one of five Prime Arts Areas (creative writing & drama, dance, instrumental music, visual arts, or vocal music) and will receive instruction from qualified teachers and Artists-in-Residence to develop the skills needed to be a well-rounded artist or performer.

### STEM: BioMedical Allied Health (BMAH)

The STEM BioMedical Allied Health program is offered at Glen Burnie High School for students interested in exploring fields in the health-care industry while pursuing a rigorous course of study. Through partnerships with major hospitals, and institutions in the Baltimore-Washington Professional Corridor and partnerships with local colleges and universities BMAH students participate in regular job shadows and internship opportunities to gain real-world experience in the biomedical and allied health fields.

### High School Magnet Programs

Online applications are required for Magnet Programs. See www.aacps.org/magnet for details.

### 2023 Magnet Information Sessions

Please attend any or all of the 2023 Fall Magnet sessions. A full list is found at www.aacps.org/magnet.

### International Baccalaureate Middle Years, Diploma, and Career-related Programme (IB MYP, DP, and CP)

Annapolis, Meade, and Old Mill high schools offer the IB Program for students aspiring to become competitive and innovative leaders in their area of study or interest including Science, Mathematics, Liberal Arts, Technology, Visual and Performing Arts, and Language. IB students engage in creative and innovative problem solving by taking an active role in their local and global communities and connecting their education with the world around them. Through the internationally recognized IB program, known for its academic breadth and depth, students will learn to prepare for success in post-secondary education and as 21st century visionary frontrunners.

The IB MYP prepares students in Grades 9 and 10 for the IB Diploma Programme (DP) in Grades 11 and 12. Students who successfully complete the requirements of the DP will be eligible for the IB Diploma, recognized by colleges and universities around the world. These 3 high schools, additionally, are all authorized to offer the IB Career-related Programme (CP). The IB CP is a 2-year program for students in Grades 11 and 12 that combines a career focused program.

### IB Diploma Requirements

To earn an IB Diploma, a student must:

- study and take IB Exams in six subjects
- complete the interdisciplinary Theory of Knowledge course
- write a 4,000 word Extended Essay
- complete 150 hours of Creativity, Action, and Service
of study with 2 or more IB DP courses and the core IB CP courses.

Junior Reserve Officers’ Training Corps (JROTC)
Anne Arundel County Public Schools offers three Junior Reserve Officers’ Training Corps (JROTC) programs focusing on student leadership, citizenship, and service to the community. Through partnerships with the United States Army (Meade HS), Navy (Annapolis HS), and Marines (Northeast HS), instructors from all three branches prepare students in Grades 9–12 for leadership roles while making them aware of their rights, responsibilities, and privileges as American citizens through rigorous instruction and hands-on activities.

JROTC prepares students for life, and they are not under any obligation to join the military. However, if they choose to further their interest in the military, satisfactory completion of the JROTC program can lead to advanced placement credit in the Senior ROTC program (college level) or advanced rank in any of the Armed Forces.

Apex Arts (Formerly PVA)
The Apex Arts high school program is offered at Annapolis High School, Broadneck High School, and Studio 39. The program is designed to provide serious artists who demonstrate artistic ability, interest, and potential, with a curriculum of rigorous training that emphasizes the creative process through collaborative opportunities. In Apex Arts students build their artistic skills and gain real-world experiences to prepare for higher education or a career in the arts. Through an arts-intensive curriculum, Apex Arts students have the opportunity to foster their artistic passions both in front of an audience and behind the scenes through premiere arts venues and exhibitions.

Students can choose to study in one of the following Arts Primes: creative writing; drama, dance, film and new media, technical design/production, acting, visual arts, instrumental music (including piano), and vocal music through the lens of composition.

Science, Technology, Engineering, and Mathematics (STEM)
The STEM high school program, offered at North County and South River high schools, is for students interested in a problem/project-based and hands-on education focused on the fields of Science, Technology, Engineering, and Math. Through partnerships with local colleges, universities, and STEM professionals, STEM students will develop strong research skills, explore STEM careers, and gain real-world experience through internship opportunities.

Signature Programs
A Signature is a theme chosen by a school and its surrounding community to connect classroom instruction with real-world situations and workforce-relevant skills. A Signature brings together educators with local businesses and community leaders to make classroom instruction relevant, interesting, and challenging for students, with opportunities that connect to the 21st Century workplace. Unlike Magnet Programs, which draw students from around the county to a specific Magnet School, Signature Programs provide rich, thematic opportunities for students already attending their home school. Students can choose to enroll in individual Signature-related courses, or they can take multiple courses in their school’s Signature Pathway for the opportunity to earn specialized certificates or college credit while still enrolled in high school. Each of the 13 comprehensive high schools in Anne Arundel County offer a unique Signature Program.

High school Signature Program themes:

- Annapolis—Change Engineering
- Arundel—Community Development & Global Citizenship
- Broadneck—Environmental Literacy
- Chesapeake—Information Management
- Crofton—Safety and Security in the Digital Age
- Glen Burnie—Public Service
- Meade—Homeland Security
- North County—International Trade, Transportation, & Tourism
- Northeast—Human Performance
- Old Mill—International Economics & Finance
- Severna Park—Business, Innovation, & Leadership
- South River—Global Communication & Public Affairs
- Southern—Design: Preservation & Innovation

Early Childhood Services (Birth–Kindergarten)

The Early Childhood Program in Anne Arundel County Public Schools blends the developmental needs of the unique young learner with the Maryland College and Career Readiness Standards. Teachers follow the county curriculum for Reading/Language Arts, Mathematics, Science, and Social Studies. Students also receive instruction in Physical Education, Health, Art, Music, and Technology. A child-centered environment is designed to help each student reach their learning potential.

Special Education Services

Early Intervention Services (Ages Birth–5)

Your baby, toddler, or young child may be eligible for special education or other services prior to entering Kindergarten. Free home, school, or community based services are available beginning at Birth until your child enters kindergarten. If your child is having difficulty meeting developmental milestones or has a disability, they may qualify for early intervention services through Anne Arundel County Public Schools. These services will be documented and implemented through an Individualized Family Service Plan (IFSP) or an Individualized Education Plan (IEP).

Infants and Toddlers (ITP) (Ages 0–3)

ITP is designed for babies and toddlers from birth through age two. If your child is eligible, they will receive intervention services from one or more trained ITP professionals in your home, daycare, or community setting, such as a library or park. Our family-centered coaching will help you guide your child as they learn and grow. If your child continues to need services at age three they will transition through Child Find.

Child Find (Ages 3-5)

If your young child seems delayed or you have concerns about their development, their eligibility for services will be determined through a Child Find evaluation. If your child is eligible for special education, they will receive specialized instruction based on their individual needs. These services may be provided in classrooms, community-based settings, or in homes. These services will be documented and implemented through an Individualized Family Service Plan (IFSP) or an Individualized Education Plan (IEP).

For more information on Early Childhood Services, please contact:

- Infants & Toddlers Program
  410-424-3260

- The Child Find Program
  410-424-3281

- Pre-K and kindergarten
  410-222-5441

Early Childhood Continuum of Services (Ages 3–5)

Related Services or Single Service Therapy

Instruction offered individually in the community, home, or small group. For Speech as a Single Service Articulation services could be provided in the home school.

Community Based Services

Instruction within a community pre-school or group setting. Direct services in addition to Reflective Coaching adult learning principles employed to support community pre-school instruction in the areas of communication, early learning skills, social/emotional skills.

Early Childhood Intervention (ECI) Classes

Instruction within a self-contained AACPS Early Childhood Special Education setting outside of general education. Opportunities for inclusion can take place in the general education prekindergarten program to maximize instruction and participation with same age peers. Early Childhood Intervention is designed to meet the needs of students with severe intellectual, physical, emotional, hearing, vision, health, and/or learning disabilities.

Special Education: www.aacps.org/specialed | Early Childhood Programs: www.aacps.org/earlychildhood | Child Find: www.aacps.org/childfind
The focus of elementary school is to provide a firm educational foundation so that students progress through school with confidence to learn skills and strategies in all content areas. Teachers provide opportunities for students to learn independently and work together to solve problems as they apply new learning to novel situations. Throughout the elementary years, students develop a variety of strategies to learn new material, increase their organizational skills, and learn increasingly more complex information. A major goal of elementary school is to develop the whole child intellectually, emotionally, socially, and physically for success in middle school, high school, college, careers, and beyond.

**Elementary Assessments**

To help teachers monitor individual students’ reading progress, teachers administer the Fountas and Pinnell (F&P) Benchmark Assessment System and the Dynamic Indicators of Basic Literacy Skills (DIBELS) assessment two to three times throughout the school year. Teachers use the assessment to identify each student’s strengths and opportunities for growth in the area of reading. Teachers use these results of the assessment to personalize and tailor their literacy instruction to meet the individual needs of each reader.

In these early grades, students also take district assessments in math, as well as the second grade Cognitive Ability Test (CogAt). These assessments are used to help identify each student’s strengths and to support their individual instructional needs. As early as Pre-K, students take district assessments in reading, math, science, and social studies. These assessments, as well as teacher-made assessments, are used to monitor student learning. Each spring, students in Grades 3–5 will take the Maryland Comprehensive Assessment Program (MCAP) that will assess math and literacy skills. In fifth grade, students take the Maryland Integrated Science Assessment (MISA). All data from these assessments are used to guide future instructional decisions needed to support student academic growth.

All students take an i-Ready diagnostic assessment two to three times a year. The i-Ready Diagnostic is a computer adaptive tool and, like Goldie Locks and the Three Bears, works to find the spot that is “just right” for students. When a student answers a question correctly, the
program gives the student a harder question and when a student answers a question incorrectly, the computer gives the student an easier question. From this diagnostic assessment, personalized learning pathways are created for students to engage in literacy and mathematics content that is individualized to meet their individual needs.

**Promotion & Retention**

All decisions regarding the promotion or retention of students are the shared responsibility of the principal and parent/guardian. Communication between the school and the home is an expectation to ensure opportunities for the sharing of information. In the event the school recommends retention and the parent/guardian disagrees, the student will be retained. The parent/guardian will have the opportunity to appeal this decision.

**Title I Schools**

Under the latest reauthorization of The Elementary and Secondary Education Act, the Every Student Succeeds Act (ESSA), requires that all schools receiving Title I funds must inform parents/guardians of their right to ask schools about the qualifications of their child’s teachers and qualifications of any paraprofessional serving their child. If your child attends a school that receives Title I funding, you have the right to request the following information, which will be provided to you in a timely manner:

- whether the teacher has met Maryland’s qualification and licensing criteria for the grade level(s) and subject matter they teach;
- whether Maryland has decided that the teacher can teach in a classroom without being licensed or qualified under state regulations because of special circumstances;
- the teacher’s college major; whether the teacher has any advanced degrees and, if so, the subject of the degrees; and
- whether any paraprofessional educators provide services to your child and, if they do, their qualifications.

If you would like to receive any of the above-mentioned information, please make the request in writing to your school’s principal.

**Triple E**

**Enhancing Elementary Excellence, (Triple E),** is an AACPS Elementary School initiative that promotes student engagement and team collaboration through hands-on exploration. In Triple E, students begin to take ownership in their education by actively engaging in student-led, project-based learning. The result is transdisciplinary connections to life. Each school chooses from one of four themes:

- **STEM (Science, Technology, Engineering, & Math) in Society**
  - An environment that allows students to study challenging and meaningful questions through Science, Technology, Engineering, and Mathematics. Students take risks, explore new ideas and become problem-solvers and innovators.

- **Global Studies**
  - An interdisciplinary perspective that connects students to the world around them. Students develop a sense of responsibility as global citizens—caring about issues, assessing perspectives, and reflecting on world connections.

- **Arts & Humanities**
  - An exploration of how people process and record the human need to respond to life through the arts and literature. Students are nurtured through qualities of intelligence and imagination. Students explore through dance, music, theatre, and visual arts.

- **World Cultures and Language**
  - An igniting of passion in the study of culture and language (German, French, Spanish, Italian, etc.) within a student-inquiry environment (PYP (Primary Years Programme)).

Through this theme, students engage in inter-related questions and student-centered problem-oriented learning that recognizes the whole child.

Triple E is currently available in schools in the Annapolis, Broadneck, Chesapeake, Glen Burnie, Meade, North County, Northeast, and Southern clusters. The program will expand to other regions as the budget allows.

A major goal of elementary school is to develop the whole child intellectually, emotionally, socially, and physically for success in middle school, high school, college, careers, and beyond.
Middle School (Grades 6–8)

In middle schools, a team of Language Arts, Math, Science, and Social Studies teachers is responsible for the educational progress of a group of students. This team plans the instructional day, coordinates activities, teaches interdisciplinary topics, and meets with parents/guardians. This approach promotes a sense of community among students and staff and gives teachers more time to work individually with students based on their specific needs. Students meet with counselors through scheduled guidance activities.

Scheduling

All middle school students take English/Language Arts, Mathematics, Science, and Social Studies daily for the entire year. Physical Education/Health is also a required course and is offered on a rotating day basis in all three grade levels. Sixth and seventh grade students may take a World Language course on an alternating day basis, while eighth grade students may choose a daily World Language course. Magnet program and AVID (Advancement Via Individual Determination) students participate in a variation of this schedule. (See page 37 for more information about Programs of Choice).

The six-period day schedule provides two instructional periods for Encore courses each day. Each middle school student must take at least one Fine Arts class (Art, Band, Chorus, Dance, General Music, Orchestra, or Project Runway) every year. New Encore courses have been designed to include workforce and life skills to equip learners with the tools they need to succeed in the 21st century. Students recommended for additional reading or mathematics support will receive intervention instruction during Encore periods.

Co-curricular programs augment instruction outside the regular school day. The availability of Encore courses and co-curricular programs may differ from school to school, depending on student demand, teacher expertise, and teaching resources.

Students use technology within the various subject areas throughout the school day. English Language Acquisition courses are offered for eligible English learners.

Extracurricular Activities

Students participate in extracurricular activities such as intramural sports, chorus, instrumental music, dance, yearbook, drama, newspaper, and other activities that are offered to meet student interests in the various schools. Some after school programs are closely linked to a student’s instructional program and require enrollment in specific classes. Please check with the advisor of the activity for the published guidelines.

Middle School Assessments

To monitor and gauge student progress in the specific subject areas, the district and state administer a limited number of assessments to middle school students. Students take quarterly district assessments in English/Language Arts, Mathematics, Science, Social Studies, and World Languages. These assessments and teacher-made assessments are used to monitor student learning. Each spring, all students take the Maryland Comprehensive Assessment Program (MCAP) English Language Arts and Mathematics assessments. In the eighth grade, students take the MCAP Maryland Integrated Science Assessment (MISA) and the MCAP Social Studies assessments. All data from these assessments are used to guide future instructional decisions needed to support student academic growth.

Preparing for High School

In middle school, students learn about high school graduation requirements and begin the process of planning a program to meet those requirements. Parents/guardians should meet with their child and school counselor to discuss this six-year plan, which helps their child select the appropriate high school courses to prepare for a college education, future employment, or both.

Students who are interested in our high school Magnet Programs, including BioMedical Allied Health (BMAH), Centers of Applied Technology (CAT), International Baccalaureate Middle Years and Diploma Programme (IB MYP/DP), Apex Arts (APEX), or Science, Technology, Engineering, & Math (STEM), should reference the descriptions for those programs on page 38 and 39, or visit the website below.

Promotion of Students [BOE]

In order for a middle school student to be promoted to Grade 7, they must pass three of four Core courses (English/Language Arts, Mathematics, Science, and Social Studies). In addition, if a student takes fewer than four Encore courses, they may fail no more than one Encore course. If a student takes four or more Encore courses, they may fail no more than two Encore courses.

In order for a middle school student to be promoted to Grade 8, they must pass three of four Core courses (English/Language Arts, Mathematics, Science, and Social Studies). If a Core course is failed, it must not be in the same subject failed in a previous year. In addition, if a student takes fewer than four Encore courses, they may fail no more than one Encore course. If a student takes four or more Encore courses, they may fail no more than two Encore courses. If the student
fails a core course, it may not be in the same subject failed in a previous year.

In order for a middle school student to be promoted to Grade 9, they must pass three of four Core courses (English/Language Arts, Mathematics, Science and Social Studies). If a Core course is failed, it must not be in the same subject failed in a previous year. In addition, if a student takes fewer than four Encore courses, they may fail no more than one Encore course. If a student takes four or more Encore courses, they may fail no more than two Encore courses.

**Skipping a Grade/ Grade Acceleration**

For information on the procedures to have a child skip a grade, please contact your school principal.

**Summer School**

The secondary summer school program offers students the opportunity to make up courses which they unsuccessfully completed during the school year.

**High School (Grades 9–12)**

There are 13 comprehensive high schools in Anne Arundel County. A comprehensive high school serves all students who reside in a given attendance area. At the heart of the high school program is a core of subjects which address the skills and knowledge that all students need. In addition, the program includes a wide range of specialized, elective courses and extracurricular activities. English Language Development courses are offered for eligible English Learners.

Anne Arundel County Public Schools has one scheduling model for high schools. Most students take 8 classes, each approximately 80 minutes long, on an A-day/B-day rotation each year.

To meet the goal of accelerated achievement for all students, all high schools offer an Advanced Placement Certified High Schools Program (APCHS). The APCHS recognizes the high school for conducting a high quality and rigorous Advanced Placement Program. This program offers a defined number of core AP courses, provides program support, provides for initial and ongoing teacher preparation/professional development, and encourages and recognizes student participation in AP courses.

Anne Arundel County Public schools offers five high School Magnet Programs—the BioMedical Allied Health Program, the Centers of Applied Technology, the International Baccalaureate Programme, the Apex Arts Program, and the Science, Technology, Engineering, and Mathematics Program (STEM). For information on these programs see page 39.

The two Centers of Applied Technology serve the county by providing specialized instruction in career and technical education, including Computer Technology, Construction Management, Automotive Technology, Health Occupations, and more.

In addition to the regular day program, six evening high school centers provide an opportunity for students to earn original or review credits. There is a fee of $300 per course for concurrent students.

An alternative high school program is provided for students who have either committed offenses that may result in expulsion or who have repeatedly violated the Code of Student Conduct in the comprehensive high schools. The program aims to minimize the time a student spends outside a traditional educational program while increasing the student’s opportunity for a successful return to the home school.

**Early College Access Program**

The Early College Access Programs (ECAP), which includes all Anne Arundel Community College courses—including Dual Credit and Non-Dual Credit courses, allows authorized high school students the opportunity to explore college level coursework in a variety of academic areas. These college-level courses can complete the academic day for approved high school students who are progressing toward high school graduation or provide opportunities in subject areas that interest the student.

**Selecting & Changing Courses**

It is the student’s responsibility to evaluate and select courses carefully, obtaining help from teachers, school counselors, and administrators. Parent/guardian approval of course selections is required for all students under 18 years of age. Students have the right to participate in any part of the curriculum in accordance with nondiscriminatory practices.
After referencing the following list of Schedule Corrections, a student who requests a course transfer for a schedule correction within ten school days of the start of a course may be granted the transfer upon approval of the principal and the parents/guardians guardian if there is space available in the requested class.

### Schedule Corrections

The following reasons may be accepted by the principal to make schedule corrections:

1. Adding courses for seniors who need a specific course to meet graduation requirements.
2. Correcting courses for sequential order.
3. Inserting courses to deal with failures from the previous school year or semester.
4. Deleting courses previously taken and passed.
5. Adding new courses to replace those made up in summer school.
6. Adding academic subjects recommended by colleges or employers (must be certified in writing by the college or employer).
7. Correcting courses for health reasons (must be certified in writing by a physician).
8. Changing courses because of a course correction in another subject.
9. Changing courses as a result of teacher recommendation.
10. Other reasons as determined by the principal.

### Senior Status

Students who have successfully completed three years of high school, earned a minimum of 18 appropriate credits by September 1 and who are enrolled in a program that allows them to meet all graduation requirements by June of the same academic year may be considered seniors.

### Summer School

The summer school program offers students a number of secondary courses and provides students the opportunity to make up work in which they were unsuccessful, to improve grade averages in sequential subjects.

### Extracurricular Activities

Students may participate in extracurricular activities in high school. Students pursue interests through a variety of school-sponsored clubs and activities in a supervised setting.

Some after-school programs are closely linked to a student’s instructional program and require enrollment in specific classes. Please check with the advisor of the activity for the published guidelines.

### Academic Eligibility for Extracurricular Programs [BOE]

The Anne Arundel County Board of Education has established standards of academic eligibility for student participation in interscholastic athletics. To be eligible to participate in interscholastic athletics, grades nine through twelve, a student-athlete must maintain a 2.0 Athletics Eligibility Score or greater in the marking period preceding the start of that season as defined below. A student-athlete may earn a maximum of one “E” or “U” grade in courses taken during that eligibility period. Athletics Eligibility Scores, which are different from the GPA documented on report cards, are calculated by summing the value of each letter grade on the weighted scale and dividing by the total number of different classes registered for.

At the end of each academic eligibility period, the Athletic Director or sponsor of each activity will notify the principal or the principal’s designee of those students who have failed to meet academic eligibility requirements and are on academic probation or are academically ineligible. A high school student on academic probation must attend academic assistance sessions monitored by the athletic academic advisor. Academic assistance sessions will consist of a minimum of eight sessions for a minimum of six hours spread evenly throughout the 14-day probationary period.

A student who is academically ineligible may not play in games or wear any part of a team uniform at games during the 14-day probationary period.

The student may participate in interscholastic athletic practices during the probation period. The student must attend a conference with the athletic academic advisor to review his or her eligibility status on the 14th day of probation.
The student may resume participation in interscholastic athletics on the last day of the academic probation period, provided the athletic academic advisor notifies the principal that the student has met all probationary requirements and is academically eligible.

The academic probation period for each sport season will be established by the Office of Athletics and communicated to schools in advance of each school year.

If a student with disabilities receiving special education services fails to meet academic eligibility standards to participate in interscholastic athletics or extracurricular activities, the student and/or the students parent/guardian may contact the principal of the school and request the convening of an Individualized Education Program (IEP) Team meeting to assess if IEP revisions are required to support the student in meeting academic eligibility standards. To be eligible to participate in interscholastic athletics at the high school level, a student shall also meet the eligibility requirements and standards established in the current edition of the Maryland Public Secondary Schools Athletic Association Handbook and the Anne Arundel County Athletic Handbook.

With the exception of state, county, and school elected and/or appointed officers of the student government, this policy’s academic eligibility requirements will not apply to student participation in student government activities.

State policy dictates that to be eligible to participate in interscholastic athletics at the high school level, a student must be officially registered and attending the school at which it is anticipated the student will complete graduation requirements and that the student is not 19 or older as of August 31st.

For more detailed information regarding residency requirements, please see page 5.

Service Learning
Service Learning provides students with a means to give back to their community in a meaningful way. Maryland State Department of Education requires students to complete 75 hours of Service Learning for graduation. Anne Arundel County Public Schools integrates this requirement into existing subjects or courses starting in Grade 5. Students complete service-learning projects and activities from Grades 5 through 11 so that each student, upon completion of Grade 11, should have met the service learning graduation requirement.

Graduation Requirements
A Maryland High School Diploma
A Maryland high school diploma is awarded to students who fulfill minimum enrollment, credit, and competency requirements. A student must complete four years of approved study beyond the eighth grade. Competency requirements include taking the required high school assessments.

### Credits Required for Graduation

<table>

• Honors Engineering Design & Development 1 | Music, Art, Dance, & Theatre Arts courses | 0.5 credit in Global Community Citizenship (beginning with the class of 2023) | Any elective course may count. | 2 credits of a world language  
(2 years of the same language) or  
2 credits of American Sign Language  
2 credits of advanced technology education  
A state-approved career and technology program |

See the High School Program of Study about the World Language or Advanced Technology requirement for University System of Maryland Completer.
Students must also fulfill a student service-learning requirement, beginning in fifth grade. The service-learning requirement is part of their regular program of study.

All students participate in the comprehensive environmental education program through their regular program of study to meet their graduation requirement in environmental literacy.

The Code of Maryland Regulations requires students to participate in four content specific assessments for graduation. They include Algebra 1, English 10, U.S. Government and LS MISA (Life Science Maryland Integrated Science Assessment—given at the end of each student’s Biology course). Algebra 1 and English 10 are also used to determine a student’s College and Career Readiness. Assessment results for the US Government and LS MISA will be calculated as 20% of each student’s final course grade.

All four assessments are given at the completion of the corresponding course(s). Please check with your school counselor or the School Testing Coordinator to discuss the specific requirements for your child. Additional information about these tests can be found on page 34 and 35 of this handbook.

The School Test Coordinator can assist with the requirements to determine which state assessments students are required to take for graduation based upon the year the student will graduate and the courses the student will take.

Students must earn a minimum of 26 credits. They must pursue one of three program options. The College Completer prepares students to enter post-secondary educational programs both in and outside of Maryland. The Career Technical Completer prepares students with the skills for immediate employment upon high school graduation or with the technical preparation to continue their education. Students may pursue a dual completer which encompasses both College and Career Technical Completers. More information can be found in the High School Program of Study.

Courses that meet graduation requirements may include approved dual credit courses taken at the community college. The district has procedures for approving early college access programs and interested students should see their school counselor for more information. Program requirements are located on the AACPS webpage under the academics tab.

Maryland High School Certificate
This certificate may be awarded to students with disabilities who do not meet the requirements for a diploma but who meet one of the following criteria:
- The student is enrolled in a special education program for at least four years beyond Grade 8, or its age equivalent, and is determined by an Individualized Educational Program Team, with agreement of the student’s parents/guardians, to have developed appropriate skills for the individual to enter the world of work, act responsibly as a citizen, and enjoy a fulfilling life. The world of work includes gainful employment, supported employment, or sheltered workshops.
- The student has been enrolled in a special education program for four years beyond Grade 8, or its age equivalent, and has reached age 21.

Anne Arundel County High School Certificate [boe]
An Anne Arundel County Public Schools citation for completion of a 4-year high school program may be awarded at graduation ceremonies, if approved by the IEP team, to students with specific developmental disabilities who have not completed their individual high school program of studies and will be leaving the high school and entering an alternative AACPS program (i.e., Vocational Citation Program, O-Campus Transition Program). The student will be awarded the Maryland High School Certificate upon completion of the alternative program.

Graduation Ceremonies
Maryland High School Diplomas and Maryland High School Certificates will be awarded at graduation ceremonies only to those students who have met all requirements by that date.

Participation in Senior Activities [boe]
The culmination of a student’s high school career is a special time for families across our county and beyond. The memories our children make in their elementary, middle, and high school years will last them a lifetime.

However, poor decisions in the days leading up to high school graduation can ruin those memories. The Board of Education has adopted a policy stipulating that students who violate the Code of Student Conduct regarding alcoholic beverages, controlled dangerous substances, or other intoxicants during the last 4 weeks of school prior to the last scheduled day for graduating students be prohibited from participating in senior activities including prom and graduation.

Students and their parents/guardians are reminded of this issue multiple times during the school year, including acknowledgement of the policy and regulations by signing the form in the front of the Student Handbook.

Please refer to Policy IID-Graduation Activities and Regulation IID-RA-Graduation Activities and JCC-RAC-Alcoholic Beverages, Controlled Dangerous Substances, or Other Intoxicants for more specific information about this issue.
Latin Honors

Each high school shall annually honor graduating students who qualify for Anne Arundel County Public School’s Latin Honors.

A student must have the following GPA at the end of the seventh semester of high school, in the student’s senior year, in order to achieve the specified Latin Honor:

- **Summa cum laude** (the highest honor)—greater than or equal to a 4.3 weighted GPA
- **Magna cum laude** (with great honor)—greater than or equal to a 4.0, but less than a 4.3 weighted GPA.
- **Cum laude** (with praise)—greater than or equal to a 3.4 unweighted cumulative GPA.

For more information

For more detailed information regarding high school course offerings and graduation requirements, students and parents/guardians should request a High School Program of Study booklet from the school counseling office.

The culmination of a student’s high school career is a special time for families across our county and beyond. The memories our children make in their elementary, middle, and high school years will last them a lifetime.
# Board Policies and Administrative Regulations [BOE]

Many of the topics in this handbook are covered by Board of Education Policies and Administrative Regulations. It is important to note that Board of Education Policies and Administrative Regulations are periodically updated. Accordingly, in the event of a conflict between this handbook and a Board Policy or Administrative Regulation, the Board Policy or Administrative Regulation shall prevail. Sections with specific references to Policies and/or Regulations are marked with [BOE]. To view those listed in the handbook (as well as others), visit www.aacps.org/boardpolicies.

Anne Arundel County Public Schools prohibits discrimination in matters affecting employment or in providing access to programs on the basis of actual or perceived race, color, religion, national origin, sex, age, marital status, sexual orientation, genetic information, gender identity, or disability ethnicity, gender expression, or homeless status.

For more information, contact: Anne Arundel County Public Schools Division of Human Resources 2644 Riva Road, Annapolis, MD 21401 410-222-5286 • 410-222-5500 www.aacps.org

**Board Policies:** www.aacps.org/boardpolicies
The Bullying, Harassment or Intimidation Reporting Form should be used to report alleged incidents of bullying, harassment, or intimidation that occurred during the current school year on school property, at a school-sponsored activity or event off school property, on a school vehicle, on the way to and/or from school, or through electronic communication on or off school property. School staff will address incidents that occur at school or have a connection or nexus back to the school setting that create a risk of harm to other students while they are at school or interfere with the educational environment. If you are a student, the parent/guardian or caregiver of a student, a close adult relative of a student, a school staff member, or a bystander and wish to report an incident of alleged bullying, cyberbullying, harassment, or intimidation, please complete this form, and return it to the school principal. Contact the school for additional information or assistance at any time.

#### 5. Place an ‘X’ next to the statement(s) that best describes what happened (choose all that apply):

- Actions/comments related to the student's race/ethnicity
- Actions/comments related to the student's national origin
- Actions/comments related to the student's religion
- Actions/comments related to the student's sex
- Actions/comments related to the student's Immigration status
- Actions/comments related to the student's family/parental or marital status
- Actions/comments related to the student's socio-economic status
- Actions/comments related to the student's academic performance
- Actions/comments related to the student's perceived sexual orientation
- Actions/comments related to the student's gender expression
- Actions/comments related to the student's gender identity
- Actions/comments related to the student's disability
- Actions/comments related to the student's physical appearance
- Demeaning behavior to impress others
- Demeaning behavior just to be mean
- An act or threat of retaliation
- Gang related/gang recruitment
- Human trafficking/prostitution recruitment
- Any bullying, harassment, or intimidation that involves physical aggression
- Cyberbullying (social media, text messages, etc.)
- Teasing, name-calling, making critical remarks
- Demeaning or making the student the target of jokes
- Making rude and/or threatening gestures
- Excluding or rejecting the student
- Intimidating, extorting, exploiting the student
- Getting another person to target or demean the student
- Spreading hurtful rumors or gossip
- Racial/ethnic harassment
- Sexual harassment
- Other: (Please Specify) _____________

*Will be collected unless specifically excluded by local board policy*
Bullying is unwanted, demeaning behavior among students that involves a real or perceived power imbalance. The behavior is repeated, or is highly likely to be repeated, over time. In order to be considered bullying, the behavior must be intentional and include: 1) An imbalance of power (students who bully use their physical, emotional, social, or academic power to control, exclude, or harm others), and 2) Repetition (bullying behaviors happen more than once or are highly likely to be repeated based on evidence gathered).

Cyberbullying is bullying that takes place over digital devices like cell phones, computers, and tablets. Cyberbullying can occur through texting, apps, or online via social media, forums, or gaming where people can view, participate in, or share content. Cyberbullying includes sending, posting, or sharing negative, harmful, false, or hurtful content about another student. It can include sharing personal or private information about someone else causing embarrassment or humiliation.

Harassment includes actual or perceived negative actions that offend, ridicule, or demean another student with regard to race, ethnicity, national origin, immigration status, family/parental or marital status, sex, sexual orientation, gender identity, gender expression, religion, ancestry, physical attributes, socioeconomic status, physical or mental ability, or disability.

Sexual Harassment and misconduct include any unwelcome sexual advances, requests for sexual favors, other physical or verbal conduct, or any conduct of a sexual nature which substantially interferes with a student’s educational benefits, opportunities, or performance.

Intimidation is any communication or action directed against another student that threatens or induces a sense of fear and/or inferiority. Retaliation may be considered a form of intimidation.
