

REACH FOR THE BADGE!

The Systems Thinking Explorer badge is earned by completing **seven** modules: **four** mandatory and **three** choice. Micro-credential modules are self-paced, so there are no deadlines or due dates. The program is designed work with YOUR schedule! You can find descriptions of the modules and registration links under the Micro-Credentials tab on Unified Talent: Learn, Grow, Succeed.

Where do I start? After perusing the module descriptions on Unified Talent-LGS, select the three purple ones that interest you the most. You will need to complete all four in the light blue circles, and any three in the purple rectangles in order to earn the Explorer Badge. Modules may also be taken a la carte for credit if you are not pursuing the badge.

Complete all four modules in the blue circles (Required)*

*What is
Systems
Thinking?

*Surface your
Mental Models

*Friday Night
at the ER

*Culminating
Reflection

Complete any three modules in the purple rectangles (Choice)
