

MINORITY & SMALL BUSINESS PROGRAM

Accomplishment related to Value #3, Indicator #17

The MSBE program's goals are to increase contract awards to minority and small businesses and to increase minority and small business participation in total expenditures. There was an 8.2% increase in total value of awards for construction and maintenance contracts in Fiscal Year 2018 compared with Fiscal Year 2016. Our increases in construction and total expenditures can be attributed to many variables, including changes to the State MBE regulations, as well as communications and partnerships between the school district, prime contractors, and subcontractors. Enhanced accountability provisions and outreach efforts have also contributed to the increase.
