About the Program

Secondary Summer School offers a limited number of courses for high school and middle school students, which provide students the opportunity to:

- makeup work in which they were unsuccessful.
- improve grade averages in sequential subjects.
- earn credits to meet high school graduation requirements.

All high school course offerings are for remedial credit ONLY (for high school students who have taken the course before and are repeating it in summer school).

All middle school course offerings are limited to those students who have previously taken the course(s).

Each course is highly concentrated and reviews the course content. A minimum of 12 students must be enrolled in a class to be offered. All classes will have one-hour final assessments on the last day of the summer school session.

*Secondary Summer School is a concentrated, fast-paced learning environment. Thus, learning profiles and differences should be examined carefully in the recommendation process as the goal is a successful engagement with performance outcomes.
