  - The Lipper Leaders Rating System is a mutual fund rating system that uses investor-centered criteria, such as capital preservation, expense and consistent return.
  - Funds are rated on a numeric scale of 5 to 1, with '5' representing funds with the highest rating (Lipper Leaders) and '1' representing the lowest rated funds.
  - The Lipper Ratings are derived from formulas that analyze funds against defined criteria. Funds are compared to similar funds within a peer group.
  - Each fund is ranked against its peers based on the metric used (such as Total Return or Expense), and the highest 20% of funds in each peer group are named Lipper Leaders, the next 20% receive a rating of 4, the middle 20% are rated 3, the next 20% are rated 2, and the lowest 20% are rated 1.
  - While Lipper Leader Ratings are not predictive of future performance, they are designed to provide context and perspective for making knowledgeable fund investment decisions.
  - The ratings are subject to change every month and are calculated for the following periods: three-year, five-year, ten-year, and overall.
  - The overall calculation is based on an equal-weighted average of percentile ranks for each metric over three-, five-, and ten-year periods (if applicable).
