Creating Connections Between Home and School

PowerSchool Parent Portal is a powerful, easy-to-use, secure communication tool connecting parents/guardians and schools. Online access to grades, attendance, and assignments makes it easier for parents to monitor student progress in grades 1 through 12, in real time.

PowerSchool Parent Portal will allow parents/guardians with more than one child to access all their children at one time with one username and password. We recommend that you keep your username and password private.
