

## Parent Portal Mobile App

The Student/Parent Portal App is available on iOS (iPhone/iPad) or Android mobile devices and can be used to track your child's academic progress, grades and attendance. Students in grades 6-12 have access to the Portal using their AACPS credentials.

**NOTE:** Parents must first create an account from a web browser before installing and using the mobile App.

- In the App Store search for PowerSchool and locate the app titled **PowerSchool Mobile**.
- Install the app on your device. Upon first opening the app, you will be asked to enter the District code.
- Enter **LTDJ** in the boxes that appear on the screen as shown and click **Continue**.
- At the Sign In screen, enter the **Username** and **Password** you created when you established your Parent Portal account. Click **Go**.

If you have more than one child attached to your account, you can switch students clicking on the down arrow to the right of the picture in the upper right-hand corner of the screen and clicking on a different student.

For further assistance with the app, click **More** in the lower right-hand corner and click **Help**.

As with any mobile app, your child's privacy is limited to the user's ability to protect their device. If you log out of the app after every use, there is no way for another person to view your child's account without the proper login information.

To logout, click **More** in the lower right-hand corner and click **Account**. Once on the account menu, click **Sign Out** in the upper right-hand corner.
