

STEM VALUES

Using all of your knowledge, resources & skills to solve problems and create opportunities in the world.

DESIGN & SYSTEMS THINKING

Through discovery, interpretation, ideation, experimentation and evolution our children can both understand and transform the systems they are a part of.

RADICAL CURIOSITY & REVOLUTIONARY IMAGINATION

Make believe, create your own rules, improvise, and imagine the possibilities.

PASSIONATE ABOUT PLAY

Play allows children to develop executive functioning skills for a lifetime, gives them a chance to move and shake, and underlies the experiences with the power of fun.

EMPATHY & MINDFULNESS

Enhancing the ability to understand others and respond in a positive way allows children to build truly meaningful relationships with each other and the world.

MAKING & CHANGEMAKING

Capitalizing on their innate power to tinker, invent, & design allows for the child to "develop new solutions, mobilize others, and improve of society."

ETHICS & INTEGRITY

Honesty, honor, respect, authenticity, social responsibility, and the courage to stand up for what you believe is right.
