The Office of School Security collaborates with a variety of agencies to implement prevention and awareness programs and assist students if emergency incidents occur. The safety and well-being of students, staff, and visitors is paramount at Anne Arundel County Public Schools.

AACPS Training

- The Office of School Security recently provided safety and security professional development to staff at several elementary schools.
- As well, our staff continues to provide individual school-based professional development in schools at all levels.
- School Security team members provided consultative input for annual Student Handbook/Code of Conduct revisions.

Community

- Security staff attended the Anne Arundel County Office of Emergency Management Cyber Incident Coordination Plan seminar.
- Team members completed a Threat Evaluation and Reporting Course from the U.S. Department of Homeland Security and hosted by the Anne Arundel County Police Department.
- The Office worked with the Anne Arundel County Government Office of Information Technology to facilitate Public Safety Radio Testing at all school locations.

Collaboration

As always, our security team continues to work closely with police and fire investigators to provide evidence and information for incidents occurring on school properties.
