

#WeekendSpotlight

Magnet Programs

AACPS offers magnet programs for county middle and high school students.

Students explore their interests, talents, and abilities within each program in hands-on, highly specialized, and rigorous instructional settings. They learn the skills, techniques, and current and relevant issues within their field of study.

Magnet programs allow students to be involved and build relationships within their career interests. Students take ownership of their learning, take pride in their work, and become prepared to be future leaders.

The last day to apply for Magnet Programs is **November 21, 2022, at noon.**
