

#WeekendSpotlight

Project Lead the Way

The Project Lead the Way (PLTW) aims to build a strong foundation for high school, college, and careers. Its mission to "empower students to thrive in an evolving world" is achieved by allowing students to engage in different pathways through exploratory challenges.

Severna Park High School is one of only 13 high schools in Maryland, out of the more than 900 schools and districts nationwide, to earn a **2022-2023 PLTW Distinguished Program Recognition Award.**

Thank you to Brad Hill and Steve Cahoon, and all the staff at Severna Park for your dedication to the growth and success of this program. SPHS has an exemplary program, and you should all be proud of this accomplishment.
