

PVA INTERNSHIPS

The Mission of the Performing and Visual Arts Magnet programs is to provide students who demonstrate artistic ability, interest and potential a curriculum of rigorous training that emphasizes the creative process through collaborative opportunities.

Internships are an important element of the career development process. Internships can expand your knowledge of yourself and provide you with insight to the career fields that interest you. You will also gain marketable skills related to the field and make important contacts. Internships allow you to apply your classroom knowledge in the workplace. You can find out what you like (or don't like) about various types of jobs while determining the best fit for your career preference and interests. Internships can be paid or unpaid.
