This handbook can be found online (www.aacps.org/students) and is also available in Spanish.
Please review the Student Handbook: Rights & Responsibilities (Handbook) with your child. Your child’s teacher has discussed it in class, as the Code of Student Conduct (Code) (pp. 5–21) and the policies and regulations it references are an important part of daily student life and supporting a safe and secure learning environment. It is so central to success in school that there will be periodic reviews of important sections of the Code during the year, including sections related to:

- **Academic Dishonesty** (p. 27)
- **Bias Behavior & Language, Bullying, Cyberbullying, Harassment, Intimidation, and Sexual Harassment** (p. 39)
- **Due Process and Appeal** (p. 25)
- **Participation in Senior Activities** (p. 26)
- **Technology Resource Use by Students** (p. 28)

It is essential that the school and home work together to ensure that all students meet the high expectations for behavior established in the Code of Student Conduct. This enables students to succeed in school and the community. Your support is vital in this process.

**Please note:** This form should be accessed and signed online within your PowerSchool Parent/Student Portal at [www.aacps.org/parentportal](http://www.aacps.org/parentportal) (click the “Forms” link in the left side panel).

For families who are unable to access PowerSchool, please complete this page and return it (or a copy) to your child’s school. A fillable PDF is available at [www.aacps.org/handbookacknowledgement](http://www.aacps.org/handbookacknowledgement).

As the parent/guardian of the above student, I have read and discussed the Student Handbook: Rights & Responsibilities including the Code of Student Conduct, the Participation in Senior Activities, Academic Integrity, Technology Resource Use by Students, Bullying, Cyberbullying, Harassment, and Intimidation information with my child.

I understand that the Student Handbook and the policies and regulations it references apply to all students at all times on all Board of Education of Anne Arundel County (Board) property, including in school buildings and on school grounds; in all school vehicles; and at all school, school-related, or Board-sponsored activities, such as Magnet, Specialty, and Career and Technology Programs, school field trips, international trips, and school sporting events, whether such activities are held on school property or at locations off school property, including private business or commercial establishments.

I understand that graduating seniors who violate Board policies and regulations on alcoholic beverages and other controlled dangerous substances shall be prohibited from participation in all senior activities, including prom, graduation, and others (p 26).

Anne Arundel County Public Schools prohibits discrimination in matters affecting employment or in providing access to programs based on actual or perceived race, ethnicity, color, religion, national origin, sex, age, marital status, sexual orientation, genetic information, gender identity, gender expression, disability, or homeless status.

The goal of Anne Arundel County Public Schools is to ensure that every student meets or exceeds standards as opportunity gaps are eliminated.

School safety and academic success are created and strengthened when students are effectively and actively engaged in their learning. These outcomes are enhanced when positive relationships exist between students and school staff, and when families, communities, and school staff work collaboratively to support positive student outcomes.

In Anne Arundel County Public Schools, students have rights and privileges as well as responsibilities. While the school system has an obligation to provide an education for all students, we have set high standards for students to conduct themselves in a way that is respectful and helps to build a climate conducive for learning.

Students, parents/guardians, teachers, school administrators, and community leaders have developed this Handbook, which outlines appropriate, responsible student behavior. It is intended to inform students of the expectations for behavior that will result in a school atmosphere that promotes excellence in teaching and learning.

It is the policy of the State of Maryland that all public and publicly funded schools and school programs may not:

• Discriminate against a current student, a prospective student, or the parent or guardian of a current or prospective student on the basis of race, ethnicity, color, religion, sex, age, national origin, marital status, sexual orientation, gender identity, gender expression, disability, genetic information, or homeless status;

• Refuse enrollment of a prospective student, expel a current student, or withhold privileges from a current student, a prospective student, or the parent or guardian of a current or prospective student because of an individual’s race, ethnicity, color, religion, sex, age, national origin, marital status, sexual orientation, gender identity, or disability; or

• Discipline, invoke a penalty against, or take any other retaliatory actions against a student or parent or guardian of a student who files a complaint alleging that the program or school discriminated against the student, regardless of the outcome of the complaint.

(Title VI of the Civil Rights Act of 1964; and Title 26, Subtitle 7 of the Education Article of the Maryland Code)
At Anne Arundel County Public Schools, diversity is invited, nurtured, and celebrated!

At Anne Arundel County Public Schools, we continue to strive to elevate all students and eliminate all gaps. We are committed to providing all students and employees with access to safe, equitable, and engaging environments to learn and work. As Anne Arundel County’s residents grows more diverse, we increase our attention and dedication to making our schools and offices places where all may thrive. Students and staff bring a wide range of traditions and cultures from their homes into our schools and workplaces. We respect and honor this diversity and work purposefully to make all feel they can grow to great heights where their success will ultimately be celebrated and rewarded.

Expected Character Traits

Equally important to sharing what is expected of students is that school and district policies and practices support character development, the development of self-control, and positive behavior choices. Developing positive and effective student behaviors requires collaborative efforts from school, home, and community organizations and agencies. Students in an effective learning community are expected to demonstrate the following character traits: responsibility, respect, trust, citizenship, and care.

Responsibility is demonstrated by always doing your best, thinking about consequences, being accountable for choices, and doing what you are expected to do. Respect is shown by treating others the way you wish to be treated, using good manners and appropriate language, dealing peacefully with anger, insults, and disagreements, and accepting differences among people. Trust is built by keeping promises, telling the truth, being reliable, practicing academic integrity, and building a good reputation. Citizenship has to do with making your school and community a better place, obeying laws and rules, and respecting authority. And finally, care is displayed by showing concern for the well-being of others around you.

Appropriate Behaviors

Our schools support appropriate student behaviors that facilitate learning and minimize disruption in several ways. One way is the Social Emotional Foundations of Early Learning (SEFEL), embedded in the primary years’ curriculum. SEFEL is a framework for teaching social emotional development and school readiness skills so that children can problem solve, recognize their own feelings and those of others, refrain from impulsive behavior, and manage their anger. Positive Behavioral Intervention & Supports (PBIS), within in our Multi-Tiered Systems of Support (MTSS), is a proactive approach to school-wide discipline. It focuses on creating and sustaining strategies for achieving positive social and learning outcomes while preventing problem behaviors. PBIS uses a collaborative team approach to analyze and respond to discipline-related behavioral patterns.

The focus of this Handbook is to guide student behavior, to link interventions to improve student behavior, and to inform others that will assist school staff in creating safe and orderly environments. The rules and expectations outlined have been developed so that a combination of consistent and fair strategies will be implemented in every school.
The Code of Student Conduct applies to all students, at all times, on all Board of Education property, including:
in school buildings, on school grounds, in all school vehicles, at all school, school-related, or Board-sponsored activities whether such activities are held on school property or at locations off school property, including private business or commercial establishments.

When I make positive behavior choices, I will be successful. If I do not make positive behavior choices, I will receive interventions to help me learn to make better choices.
Anne Arundel County Public Schools use a Multi-Tiered System of Supports (MTSS) that emphasize proactive and preventive strategies for defining, supporting, and teaching appropriate behaviors to create a positive school climate, both socially and academically. The MTSS approach emphasizes proactive and preventive strategies for supporting appropriate behaviors, both social and academic. Behavioral supports and interventions are implemented using a three-tiered prevention and intervention approach to student behaviors. Maintaining and changing student behaviors involves a continuum of acknowledgements, supports, and intervention [Center for Positive Behavior Intervention Supports, University of Connecticut].

The MTSS framework consists of three tiers:

- **Tier 1**
  - 80% successful with universal support.

- **Tier II**
  - 10–15% or less require additional targeted support.

- **Tier III**
  - 5% or less require intensive support.

This continuum of supports is available to students as a need arises.

The MTSS model includes Positive Behavioral Intervention and Supports (PBIS), Restorative Practices (RP), and various other proven interventions and supports. All AACPS staff are committed to create positive school climates that teach students how to engage, connect, and succeed in their school community.

### AACPS Three Tiers of Support

#### Tier 1

**All students receive Tier 1 supports, which include:**

- Core curriculum
- Social Emotional Foundations of Early Learning (SEFEL)*
- Differentiated and culturally responsive practices
- Universal Design for Learning (UDL)
- Clearly stated behavioral expectations for various school settings (PBIS)
- Acknowledgment of positive behaviors (PBIS)
- Consistent Community-Building Circles (RP)*
- Social, emotional learning curriculum (Second Step and Community Wellness)
- Home-school communication *if trained

#### Tier 2

**Small groups of students may receive these targeted interventions as determined by social emotional and behavioral data:**

- Social skills groups
- Social/emotional Counseling Groups
- Check-in/check-out (CICO)
- Check and connect*
- Behavior intervention teacher support
- Alternative one teacher support
- Responsive Circles (RP—student group conflicts)*
- Topic Circle Series (RP)*

- Other evidence or research-based strategies *if trained

#### Tier 3

**Few**

**Some**

**All Students**

1. All Students
2. Some
3. Few

- Other evidence or research-based strategies

*if trained

Anne Arundel County Public Schools embraces Restorative Practices in response to violations of the Code of Student Conduct. The expectation is to repair harm done, restore relationships, and create a pathway back to the classroom and the school.

Supports, Interventions, and Consequences

As with any incident of student behavior, school staff must exercise informed judgment as to whether a student’s actions constitute a violation of Board policy or regulation. Tiers of Intervention & Supports and Levels of Consequences, shown on the following pages, list the many progressive responses to help students to change their behaviors. Interventions include a continuum of evidence-based activities, supports, and programs to support students’ social, emotional, academic, and behavioral health. Interventions are aimed at reducing continuing or escalating behaviors that harm the school community or violate the Code of Student Conduct.

The school staff may always choose an intervention from a lower level as long as a consequence from one of the prescribed levels is also employed.

Consequences are actions taken by school staff in response to student behavior that harms the school community or violate of the Code of Student Conduct. Interventions and consequences may be used simultaneously.

When a behavior is deemed a criminal offense by local authorities, the student may also be subject to legal action by the Department of Juvenile Services.

Tiers of Interventions and Supports and Levels of Consequences for progressive discipline follow. An imminent threat of serious harm to students and staff, and repeated chronic and disruptive or cumulative offenses may require higher levels of consequences. For serious violations, consequences may begin at a higher infraction level.

Implement Code of Student Conduct as appropriate

For students with disabilities, suspension from transportation services that are identified as related services on a student’s Individualized Education Program (IEP or 504 Plan) is the same, in effect, as a suspension for an entire school day. Therefore, suspension from transportation is counted, for the purposes of the 10-school day consideration, as a suspension from school. Additionally, if a School Vehicle Suspension results in the student not being able to access their education, it is considered a day of suspension even if it is not on the student’s IEP or 504 Plan.

School administrative staff is authorized to secure restitution for vandalism caused by students to school vehicles, using the same procedure available for recovery of damages to school property.

Video/Digital Cameras and Audio Recording Devices

All school vehicles are now equipped with video/digital cameras and audio recording devices. These tools monitor the passenger area and exterior area of the school vehicle. As such, you could be subject to video and audio surveillance. The objective is to provide an important additional tool to assist the driver and administration in managing student conduct on school vehicles, an important safety consideration that benefits all.

*Board Policy/Administrative Regulation*
School Vehicle Behavior Expectations & Safety Requirements for All Students
Students are expected to observe the following rules for safety and courtesy on the school vehicle. Parents/guardians are responsible for the supervision and safety of students from home until they board the school vehicle, and from the school vehicle stop to home.

1. At the School Vehicle Stop
- Exercise safe pedestrian practices while on the way to the waiting area for the school vehicle stop.
- Students need to be in line ready to board the school vehicle 10 minutes before the scheduled pickup. Do not sit in vehicles until the school vehicle arrives.
- Wait in a quiet and orderly manner and respect private property.
- Stay on the side of the roadway controlled by the school vehicle warning lights.
- Where same side service is provided, do not cross the roadway for any reason. Please remain at the designated school vehicle stop on the same side of the road where you live.
- Be aware, cautious, and respectful of traffic.
- Wait in a safe place, clear of traffic, and away from where the school vehicle stops.

2. When the School Vehicle Arrives
- Remain at the waiting area until the school vehicle comes to a complete stop.
- Check traffic from all directions, then check again.
- Before walking from the waiting area to the entrance of the school vehicle, be certain that the school vehicle warning lights are activated and that all traffic in all directions has stopped.
- When safe to board, do so promptly.
- When boarding, be aware of and avoid the “danger zone,” the 12-foot area immediately surrounding the stopped school vehicle.
- Be sure that you can see the school vehicle driver's eyes when near the school vehicle.
- If crossing a street controlled by school vehicle warning lights is necessary, cross promptly after checking that all traffic in all directions has stopped. Only cross in front of the school vehicle.
- Upon entering the school vehicle, proceed directly to an available or assigned seat.

3. On the School Vehicle
- Follow instructions of school vehicle personnel.
- Be respectful of all people, including all school vehicle personnel.
- Use language appropriate for the school setting.
- Keep the school vehicle neat and clean.
- Do not eat or drink.
- Talk quietly and politely.
- Students must sit in their assigned seat, if one has been assigned by school vehicle personnel or school staff.
- Stay seated while the school vehicle is in motion; keep aisles and exits clear.
- Carry-on items are limited to those that can be held in your lap only (including some musical instruments).
- No hazardous materials, nuisance items, or animals are permitted on the school vehicle.
- Be respectful of the rights and safety of others.
- Do not extend head, arms, or objects out of school vehicle windows.
- Appropriate use of electronic devices, including cell phones and tablets, that does not jeopardize the safe operation of the school vehicle or the safety of the school vehicle occupants is permitted.
- Remember that school rules apply to the school vehicle. For example, use or possession of tobacco, vaporizers, alcohol, and other drugs is not allowed.

4. Exiting the School Vehicle
- Remain seated until the school vehicle comes to a complete stop.
- Exit the school vehicle at the school vehicle stop area in an orderly manner.
- Exit at your designated school vehicle stop.
- Check traffic from all directions, then check again.
- Before exiting the school vehicle, be certain that all traffic in all directions has stopped.
- When safe to exit, do so promptly.
- Be aware of and avoid the “danger zone,” the 12-foot area immediately surrounding the stopped school vehicle.
- Be sure that you can see the school vehicle driver’s eyes while near the school vehicle.
- If crossing a street controlled by school vehicle warning lights, cross promptly after checking that all traffic in all directions has stopped. Only cross in front of the school vehicle.
- Exercise safe pedestrian practices while on the way from the school vehicle stop to your home.
A public-school student has legal rights guaranteed by the Constitution of the United States and Maryland State law. In addition, students have privileges provided by Board of Education policies and administrative regulations. AACPS encourages students to exercise these rights and enjoy these privileges. In doing so, students should not interfere with the rights or privileges of others or the schools’ responsibilities to provide a safe and orderly school. AACPS encourages each student to balance the expression of rights by honoring individual responsibilities outlined in this Handbook.

**Right to Freedom of Religion**
The First Amendment to the United States Constitution protects religious freedom and liberty against government interference or encroachment. Religious freedom will be subject to limitation in the event of acts that endanger health and safety, damage property, or disrupt the educational process. Students are not required to participate or attend any religious programs, prayers, or devotional instruction as part of a course of study. Being religiously neutral, the schools will not promote any religion, will not express opposition or hostility to religion, and will not show preference for one religion over another. Students and staff are free to exercise and recognize their religious beliefs and the beliefs of others.

A student absent for documented religious reasons will not be subjected to denial of credit provided the total number of non-religious absences are not excessive. [IFI/IFI-RA | JB/JB-RA]*

**Right to Participate in Patriotic Exercises**
Maryland education law provides that the love of freedom and democracy, shown in the devotion of all true and patriotic Americans to their flag and country, shall be instilled in the hearts and minds of the youth of America. Accordingly, a county board of education is required to display an American flag at each building and classroom as well as ensure a program to salute the flag and other patriotic exercises. However, participation in a flag salute or other patriotic exercises is not required of any student. [IKA/IKA-RA]*

This section includes only a summary of laws, policies, and regulations that affect students. It is not a definitive statement of student rights in any situation. For additional information, please read the specific laws, policies, and regulations referenced throughout this Handbook. AACPS policies and regulations are available on the school system’s website at www.aacpsschools.org/boardpolicies/.

In addition, the student’s school administrators have copies of these documents.

*[Board Policy/Administrative Regulation]*
The Code of Student Conduct

Right to Conduct Activities in School Buildings
Board policy and administrative regulation provide that all student organizations desiring to conduct activities in public school buildings or on public school grounds shall be permitted to conduct these activities only if authorized to do so and shall thereafter be subject to the supervision of the administration and faculty of the school.

Any secret, exclusive, or self-perpetuating organization which seeks to organize and perpetuate itself by taking in members from among the students enrolled in the public schools in which they are students, upon the basis of decision of the membership of the organization, rather than from the free choice of any students in the school who are qualified to fill the special aims of the organization, shall be prohibited from conducting its activities in public school buildings or on public school grounds.

No organization which officially represents the school in any capacity and no curricular or extracurricular activity which is organized with or by the school may deny or segregate participation or award or withhold privileges based on race, color, religion, national origin, sex, age, marital status, sexual orientation, gender, gender identity, genetic information, or disability except where the purpose of the activity requires qualifications.

Right to Freedom from Unreasonable Search and Seizure of Property
A student has the right to freedom from unreasonable search and seizure of their person and property. School officials, however, have a right under the law to search students or their property whenever there is a reasonable suspicion that a student has an item in their possession of which endangers others. Searches may include the student and their locker, desk, automobile, AACPS owned computing resources including all data stored on the AACPS network, or personal belongings. Students shall not be asked nor required to disrobe. Accordingly, strip searches are not permissible.

Right to Due Process and Appeal
When students are alleged to have violated a policy or regulation, they have the right to certain due process protections. This right means students are entitled to notice of the allegations against them and the opportunity to respond to the allegations.

If a student is suspended for 10 or fewer school days or believes that an action taken by the school is a violation of policy or regulation, the parent/guardian may use the student complaint process, Board of Education Policy JCH and Administrative Regulation JCH-RA – Student Complaints Related to Policy, Law, or Regulations to initiate an appeal in writing to the principal who will forward the appeal to the Regional Assistant Superintendent.

If a student is suspended for more than 10 school days, the parent/guardian may use the procedures set forth in Board of Education Policy JD and Administrative Regulation JD-RA – Student Suspension and Expulsion. Section 7-305 of the Education Article of the Annotated Code of Maryland also sets forth the appeal rights in these circumstances.

Right to Freedom from Harassment, Sexual Harassment, and Discrimination
AACPS is governed by federal, state, and local anti-discrimination laws. AACPS complies with and enforces the aforementioned laws. To address these, AACPS has adopted policies and guidelines that forbid discrimination in educational opportunities based on race, ethnicity, color, religion, national origin, sex, age, marital status, sexual orientation, gender, gender identity, gender expression, disability, or homeless status. AACPS also complies with Title IX of the Education Amendments Act of 1972. Pursuant of Title IX, a Title IX Coordinator has been designated by AACPS and listed on the website. AACPS provides a fair and equitable process to all parties involved. If a student or parent/guardian believes that a student has been discriminated against on this basis, the parent/guardian or student may file a complaint with the Title IX Coordinator or pursuant to the standards set in Administrative Regulation JCH-RA.

Right to Freedom from Corporal Punishment
State law prohibits employees of Anne Arundel County Public Schools from administering corporal punishment.

*[Board Policy/Administrative Regulation]
STUDENT RIGHTS continued

**Right to Confidentiality of and Access to Student Records**

The Family Educational Rights and Privacy Act (FERPA) affords parents/guardians of students under age 18 and eligible students, age 18 and older, the right to:

- Inspect and review the educational records of the student.
- Request the district to disclose information in the educational records to persons/agencies outside the AACPS system.
- Request the amendment of the educational records to ensure that the records are not inaccurate, misleading, or otherwise in violation of the privacy or other rights of the student.
- File with the U.S. Department of Education a complaint concerning alleged failures by the district to comply with the requirements of FERPA.
- Obtain a copy of the district’s policies on confidentiality.

School records are maintained and kept by the school office in a secure location. Records contain a list of credits, standardized test results, academic portfolios, grade-point averages, behavioral and psychological evaluations, screening and health records, attendance and disciplinary records, directory information, and a list of activities.

To inspect, review, or transfer educational records, the eligible student or the parent/guardian must complete a request form. Other than school staff, no additional person may inspect, review, or transfer student educational records without:

- the written consent of the eligible student if the student is 18 and older;
- the written consent of the parent/guardian if the student is under 18 years of age; or
- a properly issued court order, except under other conditions (i.e., school officials with a need to know the information contained in the record) specified in FERPA.

Under the provisions of FERPA, the district may release educational records to other school systems, colleges, and universities to which the student intends to enroll or transfer without written consent. The district may also release directory information to State or federal agencies for the purpose of providing students with information related to college admissions, financial aid, or scholarship. This information may also be released to a branch of the U.S. armed forces for purposes of providing students with career and educational opportunities made available through the armed forces. The district may release directory information without consent unless the eligible student or parents/guardians notify the student’s principal in writing not to release the information included as directory information in the student record.

**Participation in Senior Activities**

Graduating students who violate AACPS policies and regulations on possession, consumption, or distribution of alcoholic beverages, controlled dangerous substances, counterfeit controlled dangerous substances, noncontrolled substances, or other intoxicants at any time during the last four weeks of school prior to the last scheduled day for graduating students, or during the time between the last scheduled day and the graduation ceremony, whether the activity takes place on school vehicles, within a school building or upon any school property, or during any school, school-related, or Board-sponsored activity, whether held on school property, including private clubs, businesses, or commercial establishments, shall be prohibited from participation in all senior activities, including proms, award ceremonies, and graduation ceremonies.

**Right of Freedom from Unreasonable Punishment**

Students have the right of freedom from unreasonable punishment of the group for the offense of one student or a few students. A student who violates any AACPS policies or regulations will be disciplined individually. Students who feel they have been subject to unfair punishment have the right to file a complaint, beginning with a school administrator.

**Social Media**

AACPS supports students’ use of social media in ways that have a positive impact on the learning environment. Student misuse of social media, whether on or off school grounds, when it creates a hostile, disruptive, or unsafe learning environment, is unacceptable.

Failure to use social media in accordance with AACPS policies and regulations may result in disciplinary action.

*[JH/JH-RA] [JCM/JCM-RA]*

*[Board Policy/Administrative Regulation]*
Students are responsible for treating each other fairly and for acting in compliance with school policies, regulations, and reasonable directions from school staff.

**Care of Property by Students**

State regulations require that restitution be made by a student or the student’s parent/guardian in cases where the student damages, destroys, or substantially decreases the value of school property or the property of another that was on school property during or as a result of a violation of State or local law, policy, or regulation. The principal shall determine the appropriate amount of restitution and the form in which the restitution may be made, to include monetary restitution, the student’s assignment to a schoolwork project, or both. Failure to make the necessary restitution may result in discipline in accordance with the AACPS Code of Student Conduct.

**Gang-Related Activity**

No student shall knowingly participate in gang or gang-like activity, regardless of whether schools are in session, within Board of Education owned or leased property, including school buildings or on school grounds; on school vehicles or other school vehicles; or during any school, school-related, or school sponsored activity, whether held on school property or at locations off school property. Gang and gang-like activities include:

- Wearing, possessing, using, distributing, displaying, or selling any clothing, jewelry, emblem, badge, symbol, sign, or other item associated with the membership in or affiliation with any gang.
- Commission of any act which furthers the interests of any gang, gang-like activity, or act of violence, including:
  - solicitation for membership in a gang;
  - requesting any person to pay for protection or otherwise intimidating or threatening any person;
  - committing or inciting criminal acts or violation of AACPS policies;

**Academic Dishonesty**

Learning occurs best in an environment with academic integrity. Academic integrity is a fundamental value of teaching, learning, and scholarship. Academic integrity is an integral part of promoting self-respect, trust, student achievement, and positive relationships among all stakeholders in our school community. Students are expected to exhibit academic integrity about all academic exercises and assignments.

Middle and high school students will be asked in either home room or student advisory to sign an acknowledgement that they have read the Policy IN and Regulation IN-RA – Academic Integrity at the start of the school year and throughout the school year, based on their enrollment, along with a statement pledging that they have read, understand, and will adhere to this policy and regulation when submitting all academic work.

Copies of the signed acknowledgement will be retained at each school’s main office.

Violations of the Academic Integrity Policy and Regulation may result in disciplinary action. Consequences for violations may vary according to the severity of the violation and will follow the progressive interventions and discipline as outlined in the Code of Student Conduct.
**Student Attire**

[JCC–RAA | DI/DI-RA | JCG-RA] *
Students spend most of their time in classroom environments where behavior is expected to meet the high standards set by AACPS. While most discipline matters are managed in the classroom, some student behavior is managed by the administration through an Office Discipline Referral that may result in interventions or consequences based on the nature of the AACPS Board policy or the Code of Student Conduct. (See pages 10–21 for Levels of Interventions and Consequences and pages 22–23 for Behavior on School Vehicles). Parent/guardian involvement is critical to the creation of safe and orderly environments. Parent/guardian notification is required at all levels of interventions and consequences, and it is mandatory whenever there is the possibility that a student may be removed from the school environment.

Disciplinary Action
Each local board of education has both the responsibility and authority to adopt policies designed to create safe schools. In the context of school discipline, by the beginning of each school year, each local board shall review and revise its student discipline policies and regulations with the goal of maintaining an environment of order, safety, and discipline necessary for effective learning. The policies and regulations at minimum shall:

- reflect a discipline philosophy based on the goals of fostering, teaching, and acknowledging positive behavior;
- be designed to keep students connected to school so they may graduate college and career-ready;
- describe the conduct that may lead to in-school and out-of-school suspension or expulsion;
- allow for discretion when imposing discipline;
- address the ways the educational and counseling needs of suspended students will be met;
- and explain why and how long-term suspensions or expulsions are last-resort options.

(ComAR 13A.08.01.11)

Students Returning to School after Completing their Disciplinary Sanction

Reinstatement from a Short-term or Long-term Suspension
A student who is suspended from school shall be allowed to return to school on the day that the terms and conditions of the suspension have been met whether the student or parent/guardian has filed an appeal of the suspension.

If a student has been suspended, the principal may not return the student to the classroom without conferring with the teacher, other teachers, as appropriate, other appropriate school personnel, the student, and the student’s parent/guardian.

(ComAR 13A.08.01.11)

Readmission from an Extended Suspension or Expulsion
The parent/guardian is required to seek readmission to the regular school program for their child because of an extended suspension or expulsion. They should contact the Office of Safe and Orderly Schools in writing or by telephone and request a conference to discuss the process for readmission. The request may be submitted at any time after receipt of the Letter of Notification of the extended suspension or expulsion.

After a student is placed on extended suspension or expulsion from school, and have served the discipline sanction, the student has the right to return to their community school if circumstances warrant such. In certain circumstances, a student might not be permitted to return to their home or neighborhood school. Students who receive alternative education service(s) while meeting the terms of their discipline sanction will transition back to a comprehensive school through the readmission process through the Office of Safe and Orderly Schools.

Students serving a discipline sanction who enter AACPS from a local school system within the State of Maryland (private or public) or from a local school system from another state (private or public) while serving a discipline sanction, must be processed through the Office of Safe and Orderly Schools. The Superintendent of AACPS reserves the right to uphold the discipline sanction and decision of another local school system superintendent within the State of Maryland and from another state.
In-School Suspension
The removal—within the school building—of a student from the student’s current education program for up to but not more than 10 school days in a school year for disciplinary reasons by the school principal. In instances where a student receives an In-school suspension, the student must receive due process and the parents/guardians must be informed in writing of the suspension. In-school suspensions count toward the cumulative totals of days of suspension.

Short-Term Suspensions 1–3 Days
The removal of a student from school for up to but not more than three school days for disciplinary reasons by the principal.

Long-Term Suspensions 4–10 Days
The removal of a student from school for a time period between four and 10 school days for disciplinary reasons by the principal.

Extended Suspension (Grades 6–12)
The exclusion of a student from a student’s regular program for a time period between 11 and 45 school days, which only may occur under the following circumstances:

a. The Superintendent or Superintendent’s designee has determined that:

i. The student’s return to school prior to the completion of the suspension period would pose an imminent threat of serious harm to other students and staff; or

ii. The student has engaged in chronic and extreme disruption of the educational process that has created a substantial barrier to learning for other students across the school day, and other available and appropriate behavioral and disciplinary interventions have been exhausted.

b. The Superintendent or Superintendent’s designee limits the duration of the exclusion to the shortest period practicable; and

c. The school system provides the excluded student with comparable educational services and appropriate behavioral support services to promote successful return to the student’s regular academic program.

Expulsion
The exclusion of the student from the student’s regular school program for 46 to 365 school days which only may occur under the following circumstances:

a. The Superintendent or Superintendent’s designee has determined that:

i. The student’s return to school prior to the completion of the expulsion period would pose an imminent threat of serious harm to other students or staff; or

ii. The Superintendent or Superintendent’s designee limits the duration of the exclusion to the shortest period practicable; and

b. The school system provides the excluded student with comparable educational services and appropriate behavioral support services to promote successful return to the student’s regular academic program.

c. Possession or use of a firearm will result in an expulsion in accordance with federal and state law.

Definitions
Students who are removed from the educational setting for disciplinary purposes must be provided with assignments they have or will be missing beginning the first day of disciplinary removal. All the students’ teachers are required to provide assignments within three school days in classes that will be missed due to suspension. Each school must identify a liaison who will assist the students and maintain a connection with the school while on suspension.
In-School Intervention

- Students who violate the Code of Student Conduct may be removed from their current educational setting and receive instruction in an alternate setting within the school building.
- The student must receive appropriate instructional supports commensurate with that provided in the educational setting. Removals during an In-School Intervention are not considered a suspension from school and do not count toward the cumulative days of removal.

In-School Intervention for Students with Disabilities

- Parents/guardians must be notified in writing of an In-School Intervention for students with disabilities.
- If the student receives special education services, or has a 504 Plan, they must continue to receive the services identified on their Individualized Education Program (IEP)/504 Plan during an In-School Intervention.
- Removals during an In-School Intervention are not considered a suspension from school and do not count toward the cumulative days of removal.

School Vehicle Suspension

The removal from the school vehicle for 1–10 days or for the remainder of the year because of a serious or chronic and extreme disruption to the transportation process.
- Parents/guardians must be notified in writing of a School Vehicle Suspension.

School Vehicle Suspension Procedures for Students with Disabilities

The principal or the principal’s designee will meet with the student to explain the allegations against the student and allow the student to respond to them.
- Suspension from transportation services that are identified as related services on a student’s IEP/504 Plan and prevent a student with disabilities from having access to their special education program is the same, in effect, as a suspension for an entire school day.
- Therefore, suspension from transportation in this case is counted, for the purposes of the 10-school-day consideration, as a suspension from school.
- Parents/guardians must be notified in writing of a School Vehicle Suspension.

Reinstatement from School Vehicle Suspension

- A student who is suspended from school shall be allowed to return to school on the day that the terms and conditions of the suspension have been met whether the student or parent/guardian has filed an appeal of the suspension.
- If a student has been suspended from the school vehicle, the principal or the principal’s designee may not return the student to the classroom without conferring with the other appropriate school personnel, the student or the student’s parent/guardian.

- The IEP/504 team may not remove the student from the current educational placement for more than 10 days unless the IEP/504 team has determined that the conduct which prompted the disciplinary action was not a manifestation of the student’s disability.

- A Special Assistant for the Office of Safe and Orderly Schools will meet with the student and the parent/guardian within 10 days of the student’s removal from school and a disciplinary conference will be held to determine the alleged violations.

- After conducting the conference with the student, the parent/guardian, and school officials, the Special Assistant will report the findings of the investigation to the Superintendent or the Superintendent’s designee.

- The Superintendent or the Superintendent’s designee will determine whether to grant the principal’s request for expulsion. If granted, notice of this decision must be in writing and must inform the parent/guardian of the charges and the policies or regulations violated, the educational services provided to the student during the expulsion, if any, the readmission to school process, and the parent/guardian’s appeal process and timelines.

- If the principal’s request for expulsion is denied, the principal or principal’s designee will contact the parent/guardian to schedule a readmission conference with the parent/guardian and the student and the student who is suspended from school shall be allowed to return to school on the day that the terms and conditions of the expulsion have been met whether the student or parent/guardian has filed an appeal of the expulsion.

- The Superintendent’s decision may be appealed to the Board of Education of Anne Arundel County by writing to the President of the Board of Education within 10 days after receipt of the letter of notification of expulsion.

- If the parent/guardian disagrees with the Board’s decision, the parent/guardian may appeal in writing to the Maryland State Board of Education within 30 days of the date of the date of Board’s decision.

- Such an expulsion will constitute a change in the student’s educational program. [COMAR 13A.08.01.11] [JD/JD-RA] *

**Reinstatement from an Expulsion**

- The parent/guardian are required to seek readmission to the regular school program for their child because of an expulsion.

- Upon approval, students will be allowed to apply for readmission to AACPS.

- If students are given an opportunity to apply for readmission, students must demonstrate a positive change in behavior, attitude, and participation in educational experiences, as well as an understanding of their role in the original incident.

- A Readmission Review Board, made up of AACPS personnel, will meet with the student and the student’s parent/guardian, review the application, and determine the appropriateness of permitting the student to return to an AACPS program. Readmission conferences from an expulsion will be held on a case-by-case basis.

- If it is determined that the student be readmitted to AACPS after serving the terms of the expulsion, the student shall be allowed to return to school on the day that the terms and conditions of the expulsion have been met whether the student or parent/guardian has filed an appeal of the expulsion.

- If a student has been expelled, the principal may not return the student to the classroom without conferring with the teacher, other teachers, as appropriate, other appropriate school personnel, the student, and the student’s parent/guardian.
Reinstatement from an Expulsion (continued)

- They should contact the Office of Safe and Orderly Schools in writing or by telephone and request a conference to discuss the process for readmission.
- The request may be submitted at any time after receipt of the Letter of Notification of the expulsion. In certain circumstances a student might not be permitted to return to their home or neighborhood school.
- After a student is placed on expulsion from school, the parent/guardian have the right to appeal the expulsion.
- Students who receive an alternative education service while meeting the terms of their discipline sanction will transition back to a comprehensive school through the readmission process through the Office of Safe and Orderly Schools at the conclusion of the expulsion.
- Students serving a discipline sanction who enter AACPS from a local school system within the State of Maryland (private or public) or from local school system from another state (private or public) while serving a discipline sanction must be processed through the Office of Safe and Orderly Schools.
- In addition to the procedures described above for expulsion, the Superintendent or Superintendent’s designee must review each expulsion request to determine if the expulsion is appropriate. A decision to expel a student may only be made by the Superintendent or Superintendent’s designee in response to a principal’s request and outcome of the investigation.

For Students with 504 Plans Only

Manifestation meetings are not required for students who are Section 504-eligible and are under the influence of illegal drugs or alcohol. A manifestation meeting must be held for a student who is Section 504-eligible who possesses illegal drugs or alcohol but is not currently engaging in the use of illegal drugs. If the 504 team determines that the behavior is a manifestation of the student’s 504-identified disability, the 504 team may determine if an evaluation and additional or different services, such as behavioral supports are needed.

For Students with IEPs Only

Regardless of whether the conduct is a manifestation of the disability, if the incident for which the student is being disciplined involves a weapon, drugs, or serious bodily injury, the school system can place a student receiving special education services pursuant to an IEP in an interim alternative education setting (IAES) for up to 45 school days.

- The IEP team shall conduct a manifestation meeting to determine special education services that permit the student to progress in the curriculum and the student’s IEP goals and objectives.
- Regardless of the decision, the student with the IEP may be placed in an IAES.
- For students with IEPs only, the IAES disciplinary placement may not be Home and Hospital Teaching.
- If an appeal has been requested by the parents/guardians, a student shall remain in the placement pending the decision of the hearing request and result in the determination within 10 school days after the hearing.
- When expulsion is granted regarding a student with a disability, the same procedures will apply as those outlined above for expulsion for special education students.

If a Student is Arrested by Police on School Property

Beginning on June 1, 2022, a child under the age 10 cannot be charged with a crime. Any child under the age of 13, but age 10 or over, may only be charged with a crime of violence.

Within the School Day (Reportable Arrests)

A reportable arrest is a physical arrest when a student is physically placed under arrest by a law enforcement official because of an infraction of the AACPS Code of Student Conduct which could be deemed as disciplinary that occurred on school grounds or during off campus activities, including transportation. A paper reportable arrest occurs when there is an officer-initiated referral or request for charges by school officials to The Department of Juvenile Services (e.g., Juvenile Offense Report, Citation for Court Appearance). Students who are physically placed under arrest by a law enforcement official or receive an officer-initiated referral or request for charges could be subject to additional consequences as outlined in the Code of Student Conduct. Certain infractions on AACPS property may require police reports while others depend on whether the activity is considered criminal behavior. A standard or criteria to determine whether an arrest is reportable to the police or not is whether the behavior is considered illegal or whether it causes injury to persons.

(COMAR 13A.08.01.11) (COMAR 13A.08.01.17)
The Code of Student Conduct

**Students Charged and Arrested in the Community (Reportable Offenses Non-Disciplinary)**
The Board of Education recognizes that the presence of a student who has been charged with a criminal or juvenile offense of a serious nature in the community, especially an offense involving violence, weapons, or controlled dangerous substances may pose a threat to the safety and welfare of the student and others in the school community and disrupt the educational process in the school. The Board also recognizes that the educational needs of a student who has been charged with a criminal or juvenile offense of a serious nature in the community must be carefully balanced with the Board’s obligation to provide a safe school environment free of disruption for all students.

In accordance with these principles, school administrators may determine that the presence of a student charged with a criminal or juvenile offense of a serious nature in the community poses a threat to the student or others, or to the educational process and the student may be placed in an alternative educational program.

In cases where the school system seeks a non-disciplinary removal for students with disabilities, the school-based IEP team must meet to determine the appropriateness of amending the student’s alternative educational program. Students returning from a reportable offense placement must be processed through the Office of Safe and Orderly Schools.

**Title IX**
Title IX of the Education Amendments Acts of 1972 prohibits sexual discrimination which includes sexual harassment and all forms of sex discrimination. AACPS, as an education agency receiving federal funds must comply with the requirements of Title IX. This includes sexual harassment and sexual assault. AACPS must respond to Title IX complaints to ensure that each complainant receives appropriate support. Respondents are treated as responsible only after receiving due process and fundamental fairness, and school officials who participate in Title IX investigations or at any stage of the Title IX process must serve impartially without bias. Schools must offer free supportive measures to every alleged victim. Supportive measures are individualized services to restore or preserve equal access to education, protect student and employee safety, or deter sexual harassment. Supportive measures must be offered even if a complainant does not wish to initiate or participate in the formal grievance process. The law also respects complainants’ wishes and autonomy by giving them the clear choice to file a formal complaint, separate from the right to supportive measures. Title IX also provides a fair and impartial grievance process for complainants and protects complainants from being coerced or threatened into participating in a grievance process. Complainants and respondents must have strong, clear procedural rights in a predictable, transparent grievance process designed to reach reliable outcomes.

**AACPS Response to Title IX Final Rule**
Any of the following conduct based on sex constitutes a Title IX violation:

- Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the school’s education program or activity;
- Sexual assault, dating violence, domestic violence, or stalking;
- Quid pro quo (exchanges or requests for exchanges of sexual conduct or favors) harassment by a staff member (ex. Better grades in exchange for sexual favors).

AACPS must respond when:
1. the school has actual knowledge of sexual harassment;
2. that occurred within the school’s education program or activity;
3. against a person in the United States.

AACPS must investigate every formal complaint (which may be filed by a complainant or by a school’s Title IX Coordinator). If the alleged conduct does not fall under Title IX, then a school may address the allegations under the school’s own code of conduct and provide supportive measures. An alleged victim may choose to not file a formal complaint. If the behavior as described would still constitute a violation of the Code of Student Conduct, school officials may review, investigate and discipline in accordance with the Code of Student Conduct and AACPS policy.

Bias Behavior and Language, Bullying, Cyberbullying, Harassment, Intimidation, and Sexual Harassment

Bullying, cyberbullying, harassment and intimidation, bias behavior and language and sexual harassment—intentional conduct as determined by the school’s investigation, including verbal, physical, graphic or written conduct or an intentional electronic communication that creates a hostile educational environment by substantially interfering with a student's educational benefits, opportunities, or performance, or with a student's physical or psychological wellbeing—are unsafe and do not reflect respect for others as defined by the Code of Student Conduct.

If you or someone you know is a target of one of these behaviors, you can report it using the Bullying, Harassment or Intimidation Reporting Form. This form is available in this Student Handbook on page 43 and on AACPS website at www.aacps.org/antibullying and Brightspace. You can also tell a staff member, who will respond quickly and provide a practical, private, and safe place to report.

If You are Being Bullied...

- Tell someone—a parent/guardian a teacher, a counselor, or another staff member
- Calmly tell the student to stop or say nothing and walk away
- Try not to show anger or fear

If You Know Someone who is Being Bullied,

- If you feel safe, tell the bully to stop
- If you don’t feel safe...
  - Say kind words to the student being bullied
  - Be a friend!
  - Don’t encourage the bully by laughing or joining in
  - Tell other bystanders how to help stop bullying, cyberbullying, harassed or intimidated
  - Tell an adult
  - Encourage the bullied student to talk to someone

If an administrator determines that one of these behaviors has occurred, the students involved will receive support from a school counselor, school psychologist, school social worker, pupil personnel worker, or school health staff person to be sure everyone involved feels safe, supported and understands how to avoid these situations in the future.

Confidentiality in Counseling
What a student shares in a counseling session is confidential, except when a student indicates thinking about self-harm or hurting other students. School personnel are required to act to ensure the safety of the student or other students. This action includes sharing information with the school principal, a parent/guardian, and may include other outside agencies. No statement, oral or written, made by a student seeking counseling for any form of drug abuse may be used as admissible evidence against the student in any proceedings.

School Problems
If students have a problem related to discipline, due process rights, security, personal safety or welfare, or vandalism, the student should:
1. Tell the nearest teacher or adult staff member. Tell them exactly what happened to the student or what the student observed happening to someone else. The staff member may refer the student to administration for further support. Problems of discipline, security, and personal safety are considered very serious.
2. Talk to someone who will listen and understand — perhaps a teacher, adult staff member, or an adult mentor.
3. Ask to talk to a school counselor, school psychologist, or school social worker who can help students learn ways to deal with problems so that they may feel safer and more comfortable when faced with similar problems in the future.
4. In addition to alerting school personnel, a student should tell a parent/guardian about the problem. They will want to know.
5. A student may also call the Student Safety Hotline at 1-877-676-9854.

It is important for students to know that when a report is made to the school about an incident of this nature, every effort will be made to keep the information and identity confidential.

Personal Problems
For help with personal problems which may affect a student’s school life or activities:
1. If possible, discuss the problem with a parent/guardian.
2. If a student and the student’s parent/guardian cannot solve the problem, there are several people in the school who are able to offer additional help. The student may speak to a teacher with whom the student feels comfortable.

Personal Problems (continued)
3. School counselors, school psychologists, and school social workers are trained to offer help with personal problems.
4. The assistant principal and the principal can discuss the problem with the student and attempt to work on a solution. If they are unable to do so, they will seek assistance.

Academic Problems
For help with an academic problem, the student should:
1. See the teacher who teaches the subject or contact your teacher through email or Brightspace. Students may seek out the teachers on a personal basis. Teachers routinely work with individual students who are having academic problems. The teacher may recommend help sessions, mentoring, or may make a referral for additional assistance. The teacher may ask for a conference with the student and the student’s parent/guardian.
2. If the teacher is unable to help the student resolve the problem to the student’s satisfaction, the student should go next to the department chairperson or lead teacher.
3. The school counselor can offer additional help.
4. For problems that are still not resolved after the student has talked with the school counselor, the student should discuss the matter with the student’s parent/guardian and with the principal or assistant principal. A parent/guardian may wish to join the student in discussions with the principal.
5. Solving an academic problem requires the student’s help, along with the help from teachers and sometimes a parent/guardian, school counselor, and other school professionals.
6. Your school may have other online resources to assist you. Check with your school to see if it is available.

Extracurricular Activities
For help with problems involving extracurricular activities, the student should:
1. See the advisor/coach assigned to the activity at a time when the advisor/coach is available. Try not to discuss the problem during the activity period itself.
2. If the activity involves athletics, see the athletic director of your school if your matter has not been resolved after speaking to the coach.
3. If the student does not know who is assigned as advisor to the activity, the student should see an administrator.
4. If the student is unable to get help in solving the problem by doing the above, discuss the matter with parent/guardian and with the principal. A parent/guardian may wish to join the student in discussions with the principal.
**Group Problems**  
Groups of all sizes and ages experience conflict among themselves, with another group, or with school staff or policies. One or more students should reach out to a teacher, school counselor, school psychologist, school social worker, administrator, or other trusted adult in the building, to request help resolving their group conflict or problem.

**Responsive Circles**  
(Circles used to Problem-solve)  
Responsive Circles may be used to respond to some type of harm. “Harm” can be physical or social, to an individual or a community. Responsive Circles are an excellent way to resolve or repair group conflict and may include just one Circle or several smaller Circles. For schools with a Restorative Practices (RP) Team, students or staff can request a Responsive Circle. Trained RP Team members do not promise a Circle automatically, but instead use the Responsive Circle protocol to determine whether a Responsive Circle is safe and appropriate. A Responsive Circle is never safe and appropriate in the immediate aftermath of a physical fight or heated altercation.

If a Responsive Circle is determined to be safe and appropriate, those involved will be invited to participate. Some involved people may choose not to participate, and that decision is always honored. Participation is optional and is never a requirement for anyone. Schools may not use participation in a Responsive Circle as a requirement for re-admission or reduced consequences. When an involved person declines to participate in a Responsive Circle, school leaders may choose to have a Restorative conversation using the Five Restorative Questions with that student with the goal of helping the student to understand what they did and why it mattered.

The goals of Responsive Circles in AACPS are to repair harm with the community of stakeholders, to create a path forward for peaceful co-existence in the school community, and to teach students how to resolve conflict as a life skill. It is a student-centered process. AACPS does not allow parent/guardian participation in Responsive Circles because students defer to parent solutions rather than doing the hard work of creating their own solution. While parent permission to participate is not required, it is often best practice.

The Bullying, Harassment or Intimidation Reporting Form should be used to report alleged incidents of bullying, harassment, or intimidation that occurred during the current school year on school property, at a school-sponsored activity or event off school property, on a school vehicle, on the way to and/or from school, or through electronic communication on or off school property. School staff will address incidents that occur at school or have a connection or nexus back to the school setting that create a risk of harm to other students while they are at school or interfere with the educational environment. If you are a student, the parent/guardian or caregiver of a student, a close adult relative of a student, a school staff member, or a bystander and wish to report an incident of alleged bullying, cyberbullying, harassment, or intimidation, please complete this form, and return it to the school principal. Contact the school for additional information or assistance at any time.
